

## DNA Transcription and Translation Activity

***This assignment is due on the day of the Transcription/Translation test. No late work will be accepted.***

All organisms use proteins to grow and function. These proteins are made up of thousands of amino acids which were created through the processes of DNA transcription and translation. The purpose of this activity is to allow you to 'see' the process of amino acid creation.

### Part 1: Transcription and Translation:

Your transcription and translation will be based on the DNA strand provided.

1. Use the DNA strand to create the mRNA strand (transcription).
2. Use the mRNA strand to create complementary pieces of tRNA (translation).
3. Use the mRNA strand to correctly determine the amino acids created.

### Design:

1. The DNA strand given will be the template.
  - Carefully draw/color the DNA strand on the far left side of your paper.
  - The strand should be composed of correctly made nucleotides in the pattern given.
  - Provide a key for each part of the strand (sugar, phosphate and bases).
  - Label the strand.
2. Transcribe the DNA strand. (Build the mRNA strand).
  - Carefully draw/color the mRNA strand to the right of the DNA strand beginning at the nucleotide sequence **TAC**.
  - The strand should be composed of correctly made nucleotides.
  - **Be sure that you transcribe only the information needed.**
  - Provide a key for each part of the strand (sugar, phosphate and bases).
  - Label the strand.
3. Translate the mRNA strand. (Build the tRNA strand).
  - Carefully draw/color the tRNA strand to the right of the mRNA strand beginning at the codon **AUG**.
  - **Be sure that you translate only the information needed.**
  - The strand should be composed of correctly made nucleotides.
  - Provide a key for each part of the strand (sugar, phosphate and bases).
  - Label the strand.
4. Identify each of the amino acids created during translation.

### Part 2: Mutations worksheet:

- Complete the worksheets on mutations.
- Staple them to the back of your Transcription/Translation work.
