Architectural Approach to Instructional Design Andrew S. Gibbons, 2013-10-30 Winner of the 2014 AECT Design Development Outstanding Book Award. An Architectural Approach to Instructional Design is organized around a groundbreaking new way of conceptualizing instructional design practice. Both practical and theoretically sound, this approach is drawn from current international trends in architectural, digital, and industrial design and focuses on the structural and functional properties of the artifact being designed rather than the processes used to design it. Harmonious with existing systematic design models, the architectural approach expands the scope of design discourse by introducing new depth into the conversation and merging current knowledge with proven systematic techniques. An architectural approach is the natural result of increasing technological complexity and escalating user expectations. As the complexity of design problems increases, specialties evolve their own design languages, theories, processes, tools, literature, organizations, and standards. An Architectural Approach to Instructional Design describes the implications for theory and practice, providing a powerful and commercially relevant introduction for all students of instructional design. **AECT at 100**, 2023-08-21

The purpose of AECT at 100: A Legacy of Leadership is to highlight the Association for Educational Communications and Technology's 100 years of leadership in educational technology and learning. AECT has a rich history evolving from the National Education Association's NEA Department of Visual Instruction (DVI) and later the Department of Audio Visual Instruction (DAVI). Over its 100 years, AECT and its members have had a substantial impact on the evolution of American educational technology and learning, including in the areas of audiovisual instruction, instructional design, and online learning. AECT at 100: A Legacy of Leadership brings together writers and experts in the organization to explore various periods of history within the field and how AECT and its membership stood as a leader within the field. Topics such as visual instruction, the audiovisual movement, leadership development, programmed instruction, diversity, leadership, AECT and educational technology topics, journals, ethics, and social justice are explored. Additionally, a number of leaders are explored from the early days of AECT, such as James Finn, F. Dean McClusky, Edgar Dale, and Elizabeth Golterman, all the way to recent leaders such as Rob Branch. *Multicultural Instructional Design: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2019-07-05.
