

The book cover features a close-up of a man's face with a serious expression, looking directly at the viewer. He has dark hair and a light beard. His right hand is raised near his face, with fingers slightly curled. A tattooed arm is visible on the left side of the frame. The background is a dark, textured blue with a cracked, stone-like appearance. The title 'SHATTERED TRUTHS' is prominently displayed in the center in large, blue, 3D block letters. Above the title, the series name 'LIES, HEARTS & TRUTHS SERIES' is written in white. Below the title, the author's name 'HELENA HUNTING' is written in a smaller white font, followed by 'writing as' and 'H. HUNTING' in large white letters.

platform for a harassment campaign by Buddhist ultra nationalists in Myanmar that led to the killing of thousands of Muslims. These are just some of the examples that demonstrate the dangerous effects of the Internet driven global diffusion of disinformation and misinformation. Grounded on a theoretical framework yet written in an engaging and accessible way, this timely book is a valuable resource for students, researchers, policymakers, and citizens concerned with the impact of social media on politics.

**The Plain and Noble Garb of Truth** Eileen K. Cheng, 2008

American historians of the early national period argues Eileen Ka May Cheng grappled with objectivity, professionalism, and other modern issues to a greater degree than their successors in later generations acknowledge. Her extensive readings of antebellum historians show that by the 1820s a small but influential group of practitioners had begun to develop many of the doctrines and concerns that undergird contemporary historical practice. *The Plain and Noble Garb of Truth* challenges the entrenched notion that America's first generations of historians were romantics or propagandists for a struggling young nation. Cheng engages with the works of well-known early national historians like George Bancroft, William Prescott, and David Ramsay, such lesser-known figures as Jared Sparks and Lorenzo Sabine, and leading political and intellectual elites of the day including Francis Bowen and Charles Francis Adams. She shows that their work, which focused on the American Revolution, was often nuanced and surprisingly sympathetic in its treatment of American Indians and loyalists. She also demonstrates how the rise of the novel contributed to the emergence of history as an autonomous discipline, arguing that paradoxically, early national historians at once described truth in opposition to the novel and were influenced by the novel in their understanding of truth. Modern historians should recognize that the discipline of history is itself a product of history, says Cheng. By taking seriously a group of too often dismissed historians, she challenges contemporary historians to examine some ahistorical aspects of the way they understand their own discipline.
