## **Personal Shield Exercise Questions:**

**Creative Expressive Activities and Asperger's Syndrome** Judith Martinovich, 2006 Martinovich combines activities such as art making drama music puppetry yoga and photography with conventional cognitive behavioural interventions to support individuals with AS The different activities complement and reinforce each other and are designed to address specific traits of the autism spectrum to aid skills development Grounded Bob Rosen, 2013-10-28 A provocative personal approach to leadership based on in depth research with hundreds of executives around the world Confronted by disruptive change and economic turbulence many of today's leaders find themselves ill equipped to manage the hazards they now face They must contend with chronic uncertainty cynical employees and personal burnout Most are poorly served by the prevailing paradigm that obsessively focuses on what we do to produce short term results while sabotaging who we are as healthy human beings Few have seen alternatives until now Grounded proposes a new approach that's designed for actual humans who must grapple with these forces This new paradigm speaks to our better selves Based on the author's Healthy Leader model it focuses on the six personal dimensions that fuel and refuel the world's top leaders physical emotional intellectual social vocational and spiritual health The book argues that leaders at every level can be more self aware develop their untapped potential and drive significantly better results for themselves their teams and their organizations Shows readers how to build a personal leadership model that works with their values goals and capabilities Features fresh stories from leaders in a variety of organizations including the New York Fire Department PricewaterhouseCoopers The Lego Group and Medstar Health Gives leaders practical tools to face their toughest challenges with greater skill confidence and impact By developing themselves and mastering the six dimensions readers can gain the stamina and strength to not only weather tough times but to achieve much much more Fathers' Fair Share Earl S. Johnson, Ann Levine, Fred C. Doolittle, 1999-04-01 One of the most challenging goals for welfare reformers has been improving the collection of child support payments from noncustodial parents usually fathers Often vilified as deadbeats who have dropped out of their children's lives these fathers have been the target of largely punitive enforcement policies that give little consideration to the complex circumstances of these men's lives Fathers Fair Share presents an alternative to these measures with an in depth study of the Parents Fair Share Program A multi state intervention run by the Manpower Demonstration Research Corporation the program was designed to better the life skills of nonpaying fathers with children on public assistance in the belief that this would encourage them to improve their level of child support The men chosen for the program frequently lived on the margins of society Chronically unemployed or underemployed undereducated and often earning their money on the streets they bore the scars of drug or alcohol abuse troubled family lives and arrest records Among those of African American and Hispanic descent many felt a deep rooted distrust of the mainstream economy The Parents Fair Share Program offered these men the chance not only to learn the social skills needed for stable employment but to participate in discussions about personal

difficulties racism and problems in their relationships with their children and families Fathers Fair Share details the program's mix of employment training services peer support groups and formal mediation of disputes between custodial and noncustodial parents Equally important the authors explore the effect of the participating fathers expectations and doubts about the program which were colored by their often negative views about the child support and family law system The voices heard in Fathers Fair Share provides a rare look into the lives of low income fathers and how they think about their struggles and prospects their experiences in the workplace and their responsibilities toward their families Parents Fair Share demonstrated that in spite of their limited resources these men are more likely to make stronger efforts to improve support payments and to become greater participants in their children's lives if they encounter a less adversarial and arbitrary enforcement system Fathers Fair Share offers a valuable resource to the design of social welfare programs seeking to reach out to this little understood population and addresses issues of tremendous importance for those concerned about welfare reform child support enforcement family law and employment policy

The Ptsd Workbook Mary Beth Williams, 2009-12

Trauma survivors need to find ways to work through their experiences and get a sense of meaning and understanding is great While the majority of those who have experienced direct trauma or who have witnessed trauma will heal even persons who do not develop full blown post traumatic stress disorder or PTSD will experience a number of the symptoms of post traumatic stress flashbacks intrusive thoughts and memories hyperreactivity avoidance of persons places things and other triggers jumpiness and other symptoms Other persons have experienced lifelong traumas that are character changing many of these people suffer from a syndrome that researchers are just beginning to describe called complex PTSD This workbook was conceptualized as a resource for the survivor who experiences a few or many of the symptoms of PTSD or complex PTSD When we were first asked to develop this book we asked colleagues to share exercises that might help survivors do the work themselves We also began to focus on the exercises we use in our own clinical work Indeed our clinical experience is what makes us qualified to author this book Both of us are primarily grunt workers in the trenches of the field of trauma We have met with many clients on a regular basis for both short term and long term therapy That extensive experience allows us to say that though the road of healing may be long and difficult healing can and does happen In this workbook you will have the opportunity to complete numerous exercises that will give you insight into your symptoms your beliefs your behaviors and your feelings about the trauma or traumas you endured Many of these exercises can be completed in the book itself so that the book becomes a record of your recovery from trauma as well as a resource for you to turn to again and again throughout that recovery Other exercises can be completed in a separate notebook or journal which can also be used to expand upon the exercises you complete in the book or to record your other thoughts and feelings along your journey to healing We hope that this book will help you on that journey
