Francis COGHLAN,1840 **Elementary Students Practicing Mindfulness** Alice McIntyre,2019-03-18 Much of the literature about stress and its effects on children is focused on how these various groups can learn how to cope adapt and or manage stress Practicing mindfulness on the other hand is about becoming familiar with how one responds to stress and as important how one can differentiate between stressors that generate beneficial actions and ones that escalate distress and discomfort It was the latter approach that characterized the year long mindfulness project that a group of racial ethnic and culturally diverse fifth graders in a local Boston public school participated in during the AY2016 2017 The facilitator of the project met with participating students for an average of 75 minutes once per week In large and small group discussions and numerous creative techniques and processes e g photography symbolic art the participants explored documented and assessed how they experienced various forms of mindfulness and how those processes informed their thinking emotions and actions As important participating in the project provided the young people with opportunities to become mindfulness ambassadors who brought mindfulness into their families school and respective communities Engaging in mindfulness practices provided the young people with opportunities to develop life long skillful ways to become familiar with their minds increase their self awareness more effectively respond to difficult thoughts and emotions and provide strategies to foster positive connections with others In addition sharing and exploring strategies for developing a mindful perspective contributed to creating an environment for learning that intersected with young people s capacity to be critical thinkers and thoughtful decision makers The greatest contribution of the book is that it is threaded with the voices of young girls and boys who speak about themselves their thoughts and emotions their experiences with fear anxiety success and failure with directness honesty and a confidence in their skills and abilities Their participation in the project demonstrates the possibilities classroom teachers have to integrate mindfulness practices into the school day As important teachers are invited to hone their own mindfulness practices to ensure that they are intentionally working with their own thoughts emotions and assumptions as they relate to the students they teach *Brooks by the traveller's way, 26 addresses* John H.
