TOPIC: PRINCIPAL PROFESSIONAL DEVELOPMENT

PROBLEM STATEMENT

Principal leadership is correlated with student achievement, and there are significant links between specific principal behaviors and student achievement (Waters et al., 2010; Wang et al., 2010). Researchers posit that "effective leadership means more than knowing what to do—it's knowing when, how, and why to do it" (Waters et al., 2010, p. 2). However, there is limited research on the principal as a learner, specifically principal professional development, and its impact on principal leader effectiveness (Garcia, 2014).

Researchers can identify the types of professional development experiences that are most likely to build principals' capacity to be successful leaders, negative retention trends and stagnant student achievement may be reversed.

PURPOSE OF THE STUDY

The purpose of this study is to explore the perceptions of principals regarding their preparedness to lead school improvement efforts. The research will seek to identify the types of professional development experiences that are most likely to build principals' capacity to be successful leaders, negative retention trends and stagnant student achievement may be reversed.

RESEARCH QUESTIONS

1. How do principals perceive their preparedness to lead school improvement efforts?
2. What types of professional development experiences are most likely to build principals' capacity to be successful leaders?
3. How do principals perceive their preparedness to lead school improvement efforts?

POPULATION AND METHODOLOGY

The targeted population for this study is principals who are currently serving in the position. The research will seek to identify the types of professional development experiences that are most likely to build principals' capacity to be successful leaders, negative retention trends and stagnant student achievement may be reversed.

SIGNIFICANCE

The findings of this study will be significant to educators, specifically the principal, as they relate to professional development and school improvement efforts. The research will seek to identify the types of professional development experiences that are most likely to build principals' capacity to be successful leaders, negative retention trends and stagnant student achievement may be reversed.
