Wagner,Jerry K. Jacka,2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders but have had much less to say about the significance of rivers for Pacific island culture livelihood and identity The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers and the ways in which those attachments are changing in response to various forms of economic development and social change In addition to making a unique contribution to Pacific island ethnography the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity conflict pollution and the degradation of riparian environments afflict growing numbers of people Several authors take a political ecology approach to their topic but the emphasis here is less on hydro

politics than on the cultural meaning of rivers to the communities we describe How has the cultural significance of rivers shifted as a result of colonisation development and nation building How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro power or polluted by mining activities How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place

Jungle Fishing Misadventures 1974-2012 Stephen Orndorf, 2012-10-25 For close to 40 years Steve Orndorf and his brother Dave have traveled to the jungles of South America in the pursuit of adventure and trophy fish While the fishing hasn't always been productive there's been no shortage of adventures Journeying through seven countries they've encountered logistical nightmares hostile Indians and a host of intimidating creatures piranhas electric eels poison dart frogs vampire bats caimans freshwater rays snakes bullet ants and more The richly biodiverse Amazon and Orinoco River basins have served as backdrops for most of these trips Here a brief walk in the jungle can expose one to an astonishing array of different species more perhaps than would be revealed in a month of walking in most parts of North America For the Orndorf brothers sportsfishing has opened the door to exploring this magnificent region truly one of our planet's last remaining frontiers

Comic Books and Other Hooks: 21st Century Education Manfred J. von Vulte, 2013-12-27 21st Century education is at the cross roads It can continue to be defined by a narrow scope benefiting the median student who can muster moments of brilliance assisted by the technology he or she so easily wields or it can salvage what was deemed noble by tradition and merge them with the modernistic tools and educational innovations of the new century Education has reached a point where its students and parents have either seen the limitations of the system and accepted them or have forged some external responses to them These retorts can be seen in the following manifestations the rise of after school athletics where sports are now played that have been deemed too aggressive for school the explosion of tutoring centres who are capitalizing on the fact that process has been a small part of the curriculum and rudimentary skills are overshadowed by what can be best described as educational pulp and finally the growth of the independent private schools and home schooling where total abdication from public systems has come to rest Comic books robotics industrial arts instrumental music cooking camping fine art and other genuine experiential initiatives need to be examined by today's schools The empty promises of video games and their ethereal claim to genuine experience has produced a significant student body that is resigned to mediocrity and virtual encounters that provide neither the authentic feeling of victory nor the reviled sting of true defeat Students are looking for the genuine in their teachers lessons and activities 21st Century education by comic book or by hook will rest in the power of professional dynamism and the authentic teaching of practice process and prolonged proficiency
