The James From Iron Gate To The Sea:

The James Blair Niles, 1945 *Journey on the James* Earl Swift, 2014-12-19 From its beginnings as a trickle of icy water in Virginia's northwest corner to its miles wide mouth at Hampton Roads the James River has witnessed more recorded history than any other feature of the American landscape as home to the continent's first successful English settlement highway for Native Americans and early colonists battleground in the Revolution and the Civil War and birthplace of America's twentieth century navy In 1998 restless in his job as a reporter for the Norfolk Virginian Pilot Earl Swift landed an assignment traveling the entire length of the James He hadn't been in a canoe since his days as a Boy Scout and he knew that the river boasts whitewater not to mention man made obstacles to challenge even experienced paddlers But reinforced by Pilot photographer Ian Martin and a lot of freeze dried food and beer Swift set out to immerse himself he hoped not literally in the river and its history What Swift survived to bring us is this engrossing chronicle of three weeks in a fourteen foot plastic canoe and four hundred years in the life of Virginia Fueled by humor and a dauntless curiosity about the land buildings and people on the banks and anchored by his sidekick Martin whose photographs accompany the text Swift points his bow through the ghosts of a frontier past past Confederate forts and POW camps antebellum mills ruined canals vanished towns and effluent spewing industry Along the banks lonely meadowlands alternate with suburbs and power plants marinas and the gleaming skyscrapers of Richmond's New South downtown Enduring dunkings wolf spiders near arrest channel fever and twenty knot winds Swift makes it to the Chesapeake Bay Readers who accompany him through his *Journey on the James* will come away with the accumulated pleasure if not the bruises and mud of four hundred miles of adventure and history in the life of one of America's great watersheds

Transforming the James River in Richmond Ralph Hambrick, 2020 The James River is the centerpiece of Richmond but by the mid twentieth century it had been abused and neglected Eagles and sturgeon had nearly disappeared water powered industry was abandoning it and the river was a sewer Today the river draws visitors to its wooded shorelines restored canal and feisty rapids At the local level this transformation was the result of citizen action public private partnerships difficult decisions by governmental leaders and the hard work of thousands of passionate advocates and volunteers Local author and lifelong river watcher Ralph Hambrick chronicles the events projects and controversies that brought about the dramatic change and lends a critical eye to the results

The First American Frontier Wilma A. Dunaway, 2000-11-09 In *The First American Frontier* Wilma Dunaway challenges many assumptions about the development of preindustrial Southern Appalachia's society and economy Drawing on data from 215 counties in nine states from 1700 to 1860 she argues that capitalist exchange and production came to the region much earlier than has been previously thought Her innovative book is the first regional history of antebellum Southern Appalachia and the first study to apply world systems theory to the development of the American frontier Dunaway demonstrates that Europeans established significant trade relations with Native Americans in the southern mountains and thereby incorporated the region into the

world economy as early as the seventeenth century In addition to the much studied fur trade she explores various other forces of change including government policy absentee speculation in the region s natural resources the emergence of towns and the influence of local elites Contrary to the myth of a homogeneous society composed mainly of subsistence homesteaders Dunaway finds that many Appalachian landowners generated market surpluses by exploiting a large landless labor force including slaves In delineating these complexities of economy and labor in the region Dunaway provides a perceptive critique of Appalachian exceptionalism and development **The English Illustrated Magazine** ,1897 U.S. Environmental Protection Agency Library System Book Catalog Holdings as of July 1973 United States.
