Willing Victims The Dark Side Of Spanking English Edition:

Dark Ages Lee McIntyre, 2009-02-13 Why the prejudice against adopting a scientific attitude in the social sciences is creating a new Dark Ages and preventing us from solving the perennial problems of crime war and poverty During the Dark Ages the progress of Western civilization virtually stopped The knowledge gained by the scholars of the classical age was lost for nearly 600 years life was governed by superstitions and fears fueled by ignorance In this outspoken and forthright book Lee McIntyre argues that today we are in a new Dark Age that we are as ignorant of the causes of human behavior as people centuries ago were of the causes of such natural phenomena as disease famine and eclipses We are no further along in our understanding of what causes war crime and poverty and how to end them than our ancestors We need McIntyre says another scientific revolution we need the courage to apply a more rigorous methodology to human behavior to go where the empirical evidence leads us even if it threatens our cherished religious or political beliefs about human autonomy race class and gender Resistance to knowledge has always arisen against scientific advance Today s academics economists psychologists philosophers and others in the social sciences stand in the way of a science of human behavior just as clerics attempted to block the Copernican revolution in the 1600s A scientific approach to social science would test hypotheses against the evidence rather than find and use evidence only to affirm a particular theory as is often the practice in today s social sciences Drawing lessons from Galileo s conflict with the Catholic church and current debates over the teaching of creation science McIntyre argues that what we need most to establish a science of human behavior is the scientific attitude the willingness to hear what the evidence tells us even if it clashes with religious or political pieties and the resolve to apply our findings to the creation of a better society
