Science Under Attack Ralph B. Alexander,2018-12-01 Evidence and logic are lacking in many areas of public debate today on hot button issues ranging from dietary fat to vaccination In *Science Under Attack* Dr Alexander shows how science is being abused sidelined or ignored making it difficult or impossible for the public to form a reasoned opinion about important issues Readers will learn why science is becoming more corrupt and also how it is being abused for political and economic gain support of activism or the propping up of religious beliefs To illustrate how science is being ignored and abused the author examines six different issues and the way they are currently discussed evolution dietary fat climate change vaccination GMO crops and continental drift In his research he has gone back to the original source wherever possible rather than quoting second hand sources adding a degree of accuracy and nuance often missing The controversial assertion that science does not support the conventional wisdom on climate change should be of particular interest Alexander shows that the scientific evidence for a substantial human contribution to climate change is actually flimsy and he demonstrates the fallacy of comparing the strong link between smoking and lung cancer to the much weaker connection between human activity and global warming

Words and Stones Daniel Lefkowitz,2004-07-22 Social and ethnic identity are nowhere more enmeshed with language than in Israel *Words and Stones* explores the politics of identity in Israel through an analysis of the social life of language By examining the social choices Israelis make when they speak and the social meanings such choices produce Daniel Lefkowitz reveals how Israeli identities are negotiated through language Lefkowitz studies three major languages and their role in the social lives of Israelis Hebrew the dominant language Arabic and English He reveals their complex interrelationship by showing how the language a speaker chooses to use is as important as the language they choose not to use in the same way that a claim to an Israeli identity is simultaneously a claim against other opposing identities The result is a compelling analysis of how the identity of Israeliness is linguistically negotiated in the three way struggle among Ashkenazi Jewish Mizrahi Jewish and Palestinian Arab Israelis Lefkowitz s ethnography of language use is both thoroughly anthropological and thoroughly linguistic and provides a comprehensive view of the role language plays in Israeli society His work will appeal to students and scholars of sociolinguistics anthropology and linguistic anthropology as well as students and scholars of Israel and the Middle East
