think Indeed some humans are genetically pure descendants of the Founder Race from which they've all evolved Both sides need to learn about each other and that process proves to be equally fascinating and frightening for both parties A classic story of good and evil evolves while most of humanity is unaware of the Alien invasion and that the pirates plan to blow Earth up when they have finished with it The race against time and the manipulation of science to prevent this destruction makes for a real nail biter The Earth needs to be protected and feint and counter feint make for a thrilling story with lots of surprises
