**MY LIFE IN THE STRUGGLE FOR THE LIBERATION OF ZIMBABWE** J M Mpofu, 2014-09-09 This is an elucidation of accumulation of personal experience within the context of socio cultural internalization in particular and the socio political environment in general that is intended to provide some insights into a plethora of ingredients that converged and crystallized into a catalytic impetus that socially transformed my generation from village boys to highly politicised freedom fighters during the 1960s to the 1970s in Rhodesia I have done this by tracing the footprints of my experience which show multiple stages and strands of cultural social political and physical determinants that landed themselves on my growth path starting from socialization in my parents home all the way through the local community traditions and schooling to active service for the freedom of my country at local and national levels Here the crucial elements that moulded my social being in a very profound way have been ventilated to show when and how I became able to distinguish antagonistic differences between justice and injustice at my very early age Proceeding from here I have brought out how I teamed up with others whose political outlook and aspirations were identical with mine as we all voluntarily joined anti colonial struggle starting from

invisible low intensity activism in schools and towns up to risky adventures that finished up in armed struggle within a broad national perspective The narration further demonstrates the domesticity of the movements that championed liberation struggle as drivers were citizens who grew up in the rural villages and urban African Townships where they progressively became aware that they were born unlike their parents in a country under colonial administration In doing all this I had to spell out how my interaction with informative social vectors brought awareness on how my country Zimbabwe was colonized and governed by Europeans without the consent of the indigenous natives who showed their resentment to foreign rule by rebelling First Chimurenga within six years of colonization but failed only to succeed in the second rebellion Second Chimurenga after ninety years of racial domination Furthermore I believe I have laid bare how I became a civilian freedom fighter together with peers of my generation in the second rebellion where intolerable weight of oppression caused us to abandon nonviolent methods of struggle in favour of using arms of war to face a cobweb of security forces led by superb military machine of the colonial state wherein lay formidable challenges confronting rebelling citizens The armed struggle phase meant that fighters and their collaborators had to face those challenges in the theatre of operation Initially they exhibited more weaknesses than strengths and lost opportunities that were in the form of abundance of political support of masses of people in the country The overall process of the struggle exhibited strengths and costly weaknesses right from the civilian phase up to the armed struggle phase with or without my participation It was not until freedom fighters gained experience in planning and undertaking field operations that they became able to apply appropriate tactics that caused the struggle to gain sustainability in the theatre of operation More importantly the narration makes the point that the Rhodesian colonial system was presided over by European settler leaders who hardly recognized African citizens as entitled to participation in governance of the country with equal rights in social political economical and juridical spheres of societal setting of two main races Exclusion of African from consensus on the act of Unilateral Declaration of Independence UDI by Ian Douglas Smith was a fundamental blunder that precipitated nationwide fury that lead to a civil war in which a deprived citizen fought against a privileged citizen who was indoctrinated with falsehood that his adversary freedom fighter was sponsored by foreign powers of a communist type while the latter rightly believed that he was fighting to free his country from racially imposed injustices of deprivation More importantly the narration lays emphasis on the creation of massive political structures throughout the country well below the radar of legality for the purpose of sustaining guerrilla warfare in the face of the super professional Rhodesian security forces In this connection the final phase of armed struggle demonstrated to all at home and abroad that freedom fighters became significantly effective because they were politically rooted in the oppressed population whence came their strength against superior military hardware and a water tight counter insurgency strategy of the Rhodesian security forces Essentially it was that political strength not Communist powers or betrayal by the West which caused all stakeholders to become willing to come to a negotiating table at Lancaster House in

 experiencing an age of inflation a great volume of academic research about hyperinflation has been conducted However it is  
 also true that parrot like superficial talks abound without questioning the economic political and social foundations existing  
 underneath the economic phenomenon Based on research results of contemporary economists media reports and historical  
 works this book will be the most comprehensive narrative of all major events of hyperinflation worldwide from the turn of the  
 first millennium to the mid 2010s Firstly it gives a brief illustration of the basic concepts of hyperinflation starting with the  
 definitions and price measurement Then it traces and analyzes all major episodes of hyperinflation that occurred over the  
 past two thousand years or so from the earliest incidence to the four tidal waves in the 20th century and to the three latest  
 episodes in the 21st century Using basic concepts in modern finance such as indexation and dollarization this book explains  
 why hyperinflation in some countries could explode into astronomical levels while rhythms of hyperinflation in the 20th  
 century world are in resonance of megatrends in world economy and politics Finally this book underscores the importance of  
 policy making institutional building and international relations in the process of hyperinflation and stabilization Scholars and  
 students studying money and finance economic history international finance and economics will be attracted by this book

 cumulation covers six years 1965 70      *Daily Graphic* Elvis D. Aryeh,1997-06-19      Rethinking Bilingual Education in  
Postcolonial Contexts Feliciano Chimbutane,2011-05-18 This book calls for critical adaptations when theories of bilingual  
 education based on practices in the North are applied to the countries of the global South For example it challenges the  
 assumption that transitional models necessarily lead to language shift and cultural assimilation Taking an ethnographically  
 based narrative on the purpose and value of bilingual education in Mozambique as a starting point it shows how in certain  
 contexts even a transitional model may strengthen the vitality of local languages and associated cultures instead of  
 weakening them The analysis is based on the view that communicative practices in the classroom influence and are  
 influenced by institutional local and societal processes Within this framework the book shows how education in low status  
 languages can play a role in social and cultural transformation especially where post colonial contexts are concerned

An Outsider Within Mary Ndlovu,2024-05-08 In 1966 at the age of 23 I made a life changing decision That decision to travel from Canada to Zambia to work as a volunteer teacher did indeed change Mary s life During her years in Lusaka she married Edward Ndlovu an executive member of the Zimbabwe African Peoples Union who had escaped from Rhodesia in 1964 They married started a family and moved to the newly independent Zimbabwe in 1980 Over the next 36 years before retiring to Canada Mary s life was a blend of politics teaching human rights advocacy and writing NGO histories The book is particularly candid and insightful about issues of race and culture raising children of mixed race in an historically segregated educational system dealing with the responses of traditional medicine to the AIDS epidemic learning to fit in with a large extended family Her experience as the widow of a National Hero and her engagement with a range of civil society organisations gave her an

**Hydrothermal Mineral Deposits** Franco Pirajno, 2012-12-06 This book is intended primarily for exploration geologists and post graduate students attending specialist courses in mineral exploration Exploration geologists are engaged not only in the search for new mineral deposits but also in the extension and re assessment of existing ones To succeed in these tasks the exploration geologist is required to be a generalist of the Earth sciences rather than a specialist The exploration geologist needs to be familiar with most aspects of the geology of ore deposits and detailed knowledge as well as experience play an all important role in the successful exploration for mineral commodities In order to achieve this it is essential that the exploration geologist be up to date with the latest developments in the evolution of concepts and ideas in the Earth sciences This is no easy task as thousands of publications appear every year in an ever increasing number of journals periodicals and books For this reason it is also difficult at times to locate appropriate references on a particular mineral deposit type although this problem is alleviated by the existence of large bibliographic data bases of geological records abstracts and papers on computers During my teaching to explorationists and indeed during my years of work as an explorationist the necessity of having a text dealing with the fundamental aspects of hydrothermal mineral deposits has always been compelling Metallic mineral deposits can be categorised into three great families namely 1 magmatic 2 sedimentary and residual 3 hydrothermal
