Cultures of Change in Contemporary Zimbabwe Oliver Nyambi, Tendai Mangena, Gibson Ncube, 2021-11-04 This book investigates how culture reflects change in Zimbabwe focusing predominantly on Mnangagwa's 2017 coup but also uncovering deeper roots for how renewal and transition are conceived in the country Since Emmerson Mnangagwa ousted Robert Mugabe in 2017 he has been keen to define his Second Republic or New Dispensation with a rhetoric of change and a rejection of past political and economic cultures This multi and inter disciplinary volume looks to the social media language discourse theatre images political speeches and literary fiction and non fiction to see how they have reflected on this time of unprecedented upheaval The book argues that themes of self renewal stretch right back to the formative years of the ZANU PF and that despite the longevity of Mugabe's tenure the latest transition can be seen as part of a complex and protracted layering of postcolonial social economic and political changes Providing an innovative investigation of how political change in Zimbabwe is reflected on in cultural texts and products this book will be of interest to researchers across African history literature politics culture and post colonial studies

The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980 Darlington Mutanda, 2016-11-10 This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966-1980 Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict The Rhodesian Air Force was deployed in a war winning versus a supporting role as a result of the shortage

of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness. Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower. *Global Challenges to CSR and Sustainable Development* Stephen Vertigans, Samuel O. Idowu, 2021-02-24 This book examines and analyzes the challenges programmes for Corporate Social Responsibility CSR and sustainable development are facing in global management practice. It looks at the dichotomy of a general and popular demand for responsible and resilient management and the counterplayers that impact the positive effect of such efforts. The book assembles latest research looking at the root causes for this opposition and new case studies that showcase the dilemma and possible solutions to overcome it. Overall the book juxtaposes short-termism within CSR programmes and longer-term sustainable development, misallocation of resources and failed promises associated with CSR and sketches pathways how CSR and sustainable development can be directed towards the most pressing issues.

Go Back to Where You Came From Sasha Polakow-Suransky, 2017-10-16 From Europe to the United States and beyond opportunistic politicians have exploited economic crisis, terrorist attacks and an influx of refugees to bring hateful and reactionary views from the margins of political discourse into the corridors of power. This climate has already helped propel Donald Trump to the White House, pushed Britain out of the European Union and put Marine Le Pen within striking distance of the French presidency. Sasha Polakow-Suransky's on-the-ground reportage and interviews with the rising stars of the new right tell the story of how we got here, tracing the global rise of anti-immigration politics and the ruthlessly effective rebranding of Europe's new far right as defenders of Western liberal values. *Go Back to Where You Came From* is an indispensable account of why xenophobia went mainstream in countries known historically as defenders of human rights and models of tolerance.

Disaster Studies Janki Andharia, 2020-03-25 This book covers several dimensions of disaster studies as an emerging discipline. It is the inaugural book in the series *Disaster Studies and Management* and deals with questions such as: Is disaster management a field of practice, a profession or simply a new area of study? Exploring intersectionalities, the book also examines areas of research that could help enhance the discourse on disaster management from policy and practice perspectives, revisiting conventional event-centric approaches which are the basis for most writings on the subject. Several case studies and comparative analyses reflect a critical reading of research and practice concerning disasters and their management. The book offers valuable insights into various subjects including the challenge of establishing inter- and multi-disciplinary teams within the academia involved in disaster studies and sociological and anthropological readings of post-disaster memoryscapes. Each of the contributors has an enduring interest in disaster studies, thus enriching the book immensely. This book will be of interest to all the students and scholars of disaster studies.
