The handbook contains nine sections that provide regional overviews a consideration of theoretical and contextual aspects system and policy approaches that promote leadership for learning with a focus on educating school leaders for learning and the role of the leader in supporting learning It also considers the challenge of educating current leaders for this new perspective and how leaders themselves can develop leadership for learning in others and in their organisations especially in diverse contexts and situations The final chapter considers what we now know about leadership for learning and looks at ways this might be further improved in the future The book provides the reader with an understanding of the rich contextual nature of learning in schools and the role of school leaders and leadership development in promoting this It concludes that the preposition for between the two readily known and understood terms of leadership and learning changes everything as it foregrounds learning and complexifies rather than simplifies what that word may mean Whereas common terms such as instructional leadership reduce learning to outcomes leadership for learning embraces a much wider developmental view of learning

military coup causes dynamics justifications and international responses to coups Contrary to influential representations of Zimbabwe s 2017 coup and other recent coups as markedly different from past coups Tendi draws on long gendered histories of military coups in Africa to argue that there are significant continuities in coup characteristics across time Additionally Tendi s highly original study of Zimbabwe s 2017 coup identifies the motives dynamics and trigger of the coup Despite the existence of an international anti coup norm and democracy promotion in Africa by Western states Zimbabwean coup makers direct intervention in politics was largely not publicly condemned or penalized by Western and African diplomats Tendi uses original interviews with diplomats and politicians involved in external responses to the coup to address this important puzzle
