Resources in Education ,2001 Teacher in Zimbabwe ,2014 Joshua Mqabuko Nkomo of Zimbabwe Sabelo

J. Ndlovu-Gatsheni,2017-08-17 This book is a pioneering study of Joshua Mqabuko Nkomo a Zimbabwean nationalist whose crucial role in the country s anti colonial struggle has largely gone unrecognized These essays trace his early influence on Zimbabwean nationalism in the late 1950s and his leadership in the armed liberation movement and postcolonial national building processes as well as his denigration by the winners of the 1980 elections Mugabe s Zimbabwe African National Union Patriotic Front The Nkomo that emerges is complex and contested the embodiment of Zimbabwe s tortured trajectory from colony to independent postcolonial state This is an essential corrective to the standard history of twentieth century Zimbabwe and an invaluable resource for scholars of African nationalist liberation movements and nation building

Developing Science, Mathematics, and ICT Education in Sub-Saharan Africa Wout Ottevanger,J. J. H. van den

Akker,Leo de Feiter,2007-01-01 Developing Science Mathematics and ICT SMICT in Secondary Education is based on country studies from ten Sub Saharan African countries Botswana Burkina Faso Ghana Namibia Nigeria Senegal South Africa Uganda Tanzania and Zimbabwe and a literature review It reveals a number of huge challenges in SMICT education in sub Saharan Africa poorly resourced schools large classes a curriculum hardly relevant to the daily lives of students a lack of qualified teachers and inadequate teacher education programs Through examining country case studies this paper discusses the lessons for improvement of SMICT in secondary education in Africa **National Healing, Integration and**

Reconciliation in Zimbabwe Ezra Chitando,2019-12-06 This book brings together scholars from diverse backgrounds to provide interdisciplinary perspectives on national healing integration and reconciliation in Zimbabwe Taking into account the complex nature of healing across moral political economic cultural psychological and spiritual dimensions of communities and the nation the chapters discuss approaches disparities tensions and solutions to healing and reconciliation within a multidisciplinary framework Arguing that Zimbabwe s development agenda is severely compromised by the dominance of violence and militancy the contributors analyse the challenges possibilities and opportunities for national healing This book will be of interest to scholars of African studies conflict and reconciliation and development studies **Integral Green**

Zimbabwe Elizabeth Mamukwa,Ronnie Lessem,Alexander Schieffer,2016-05-23 Integral Green Zimbabwe An African Phoenix Rising by Ronnie Lessem Alexander Schieffer and Liz Mamukwa is the first book in the Integral Green Society and Economy series a series which has three overarching aims The first aim is to link together two major movements of our time

one philosophical the other practical The philosophical movement is towards what many today are calling an integral age while the practical is the green movement duly aligned with that of sustainable development The second is to blend together elements of nature and community culture and spirituality science and technology politics and economics thus serving to bring about an integral green vision albeit with a focus on business and economics As such the authors transcend the limitations to sustainable development and environmental economics which are overly ecological if not also technological in orientation and exclude social and cultural elements Thirdly this particular volume focuses specifically on Zimbabwe as well as Southern Africa drawing on the particular issues and capacities that this country and region represents The emphasis on Zimbabwe and Southern Africa transpired not only because two of the editors Lessem and Mamukwa are Zimbabwean in origin but because Zimbabwe is today like a phoenix rising from the ashes and has the opportunity to recreate itself anew

STEM Education in Poverty Brantina Chirinda, Gladys Sunzuma, Perkins Muredzi, 2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world s ever changing challenges including inequity food insecurity climate change inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches As a result there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields Another challenge is

the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today's world. While lack of resources and other challenges hinder effectiveness, opportunity lies in promising pathways of policy and practice. In Zimbabwe, there is a varying degree of success in the implemented competence-based curriculum which emphasises inquiry-based learning and STEM education. Finally, there is a need for early exposure to STEM-based career opportunities and for more collaboration between the government, private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe. This book uses Zimbabwe as an example to explore STEM education in poverty. By examining the successes and challenges of STEM education in Zimbabwe, this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies. This book is an essential resource for anyone interested in improving STEM education in underserved communities.

Sustainable and Smart Spatial Planning in Africa Charles Chavunduka, Walter Timo De Vries, Pamela Duran Diaz, 2022-04-24. This book clarifies the smart city concept that is gaining application in Sub-Saharan Africa. It shows how the smart concept can be used to address problems that would be difficult and more expensive to solve using traditional techniques such as employment creation. This is done through elaboration of the African interpretation of smartness using tools for smart solid waste management, e-governance, smart energy and smart infrastructure. The case studies selected in each chapter explain a different dimension of the smart city concept and offer innovative solutions to problems of rapid urbanization. It lays the theoretical foundation for further research on smart cities and rural areas in Africa.

Clean Water and Sanitation Walter Leal Filho, Anabela Marisa Azul, Luciana Brandli, Amanda Lange Salvia, Tony Wall, 2022-07-09. The problems related to the process of industrialisation such as biodiversity depletion, climate change and a worsening of health and living conditions, especially but not only in developing countries, intensify. Therefore, there is an increasing need to search for integrated solutions to make development more sustainable. The United Nations has acknowledged the problem and approved the 2030 Agenda for Sustainable Development. On 1st January 2016, the 17 Sustainable Development Goals (SDGs) of the Agenda officially came into force. These goals cover the three dimensions of sustainable development: economic growth, social inclusion and environmental protection. The Encyclopedia of the UN Sustainable Development Goals comprehensively addresses the SDGs in an integrated way. It encompasses 17 volumes, each devoted to one of the 17 SDGs. This volume is dedicated to SDG 6: Ensure availability and sustainable management of water and sanitation for all. Water and sanitation are fundamental to human well-being. Integrated water resources management is essential to ensure availability and sustainable management of water and sanitation for all and to the realization of Sustainable Development. Concretely, the defined targets are: Achieve universal and equitable access to safe and affordable drinking water for all; Achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls; and

those in vulnerable situations Improve water quality by reducing pollution eliminating dumping and minimizing release of hazardous chemicals and materials halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally Substantially increase water use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity Implement integrated water resources management at all levels including through transboundary cooperation as appropriate Protect and restore water related ecosystems including mountains forests wetlands rivers aquifers and lakes Expand international cooperation and capacity building support to developing countries in water and sanitation related activities and programmes including water harvesting desalination water efficiency wastewater treatment recycling and reuse technologies Support and strengthen the participation of local communities in improving Uwater and sanitation management Editorial Board Ulisses M Azeiteiro Anabela Marisa Azul Luciana Brandli Dominique Darmendrail Despo Fatta Kassinos Walter Leal Filho Susan Hegarty Amanda Lange Salvia Albert Llaus s Paula Duarte Lopes Javier Marug n Fernando Morgado Wilkister Nyaora Moturi Karel F Mulder Alesia Dedaa Ofori Sandra Ricart **The Handbook of Global Agricultural Markets** L. Nijs,2014-06-23 This book is a one stop reference for practitioners and academics in finance business and economics providing a holistic reference to the international agriculture business It takes a multidisciplinary approach looking at the issues opportunities and investable themes in the global agricultural space combining research and practical tools

Community-based Natural Resource Management (CBNRM) M. Taylor,1996 **Wetlands Ecology and Priorities for Conservation in Zimbabwe** T. Matiza,S. A. Crafter,1994 *Conflicts in the Middle East and Africa* Moosa Elayah,Bakeel Alzandani,2024-03-21 This book explores the multifaceted dynamics between state and non state actors in public policy during and after conflict in the Middle East and Africa It offers case studies and policy relevant ideas for conflict affected areas to move forward in a more sustainable manner Following the Arab Spring revolutions civil wars have plagued the Middle East and North Africa region along with other countries in Africa The task of rebuilding peace and institutionalizing stability in conflict affected countries or fragile states emerging from conflict is a daunting uncertain and context specific task Yet focusing on understanding conflicts in the Middle East and Africa offers an important view of the role of non state actors during conflicts These regions feature the highest numbers of inter and intra state conflicts and the governments are more often contested than in the rest of the world The volume proposes different cases addressing the fundamental challenge of inclusion and cohesion of nonstate actors during conflicts By providing a comprehensive exploration of diverse perspectives it empowers readers to engage with the pressing issues facing these regions This is a useful resource for students and researchers in public policy and governance studies development studies and NGOs and Middle East and African Studies **The European Union and Global Development** S. Gänzle,S. Grimm,D. Makhan,2012-04-17 An assessment of the capacity of the EU to coordinate actors and policies with regards to global development The authors argue

that the EU and its member states have the potential to act for global development when they are able to improve policy and actor coherence such as through better linking of bilateral and community programmes Aquaculture for African Smallholders Randall E. Brummett, Reg Noble, 1995 Climate Action in Southern Africa Philani Moyo, 2023-10-27 Using climate justice as an analytical tool this volume examines the role of local mitigation and adaptation actions in Southern Africa in furthering climate resilient development Climate Action in Southern Africa examines the intrinsic connection between local climate actions climate resilient development and strides towards a just transition The theoretical grounding in climate justice allows the authors to analyse whether current climate actions in Africa are truly effective for the poor and marginalised whose lives and livelihoods are impacted by a climate crisis largely not of their making The authors also question the extent to which pathways to net zero carbon emissions by 2050 are achievable in Africa and ask whether this can be attained without undermining livelihoods and human development Overall this book argues that for any transition to be a just transition it has to be aligned with the pursuit of sustainable development and climate justice for current and future generations on the African continent Drawing out key factors including politics gender and migration this volume will be of great interest to students and scholars of climate change climate justice and African development **The State of African Cities 2008** ,2008 With rapidly increasing urban populations cities in Africa are faced with enormous challenges and will have to find ways to facilitate by 2015 urban services livelihoods and housing for more than twice as many urban dwellers than it has today A worrying trend with the African urbanization process is that it is a process rooted in poverty rather than an industrialization induced socio economic transition as in other major world urban regions Africas escalating urban problems have received less attention than warranted and now at the dawn of Africas urban age these need to be addressed publisher *Zimbabwe National Bibliography* ,1987
