Zoology 8th Edition Stephen Miller:

Zoology Stephen Miller, John Harley, 2009-09-08 The 8th edition of *Zoology* continues to offer students an introductory general zoology text that is manageable in size and adaptable to a variety of course formats. It is a principles oriented text written for the non majors or the combined course presented at the freshman and sophomore level. *Zoology* is organized into three parts. Part One covers the common life processes including cell and tissue structure and function, the genetic basis of evolution and the evolutionary and ecological principles that unify all life. Part Two is the survey of protists and animals emphasizing evolutionary and ecological relationships, aspects of animal organization that unite major animal phyla and animal adaptations. Part Three covers animal form and function using a comparative approach. This approach includes descriptions and full color artwork that depict evolutionary changes in the structure and function of selected organ systems.

Zoology for Kids Josh Hestermann, Bethanie Hestermann, The Kratt Brothers, 2015-03-01 Packed with facts and photos *Zoology for Kids* is a vibrant introduction to zoology that also provides inspiration for career options and activities to help children further explore and apply what they have learned. Liesl Pimentel, manager of education and formal programs, Phoenix Zoo. *Zoology for Kids* invites young animal lovers to discover the animal kingdom through clear, entertaining information and anecdotes and hands on activities. Part 1 introduces the science of zoology, discussing animals, forms, functions, and behaviors as well as the history behind zoos and aquariums. Kids bake edible animal cells, play a dolphin echolocation game, and design an exhibit. Part 2 offers an insider's look at how zoologists apply their knowledge every day. Kids peek into the world of zookeepers and aquarists, veterinarians, wildlife researchers, and conservationists. They train their friends, mold a tiger's jawbone, and perform field research in their own backyard. Animal enthusiasts come away with new knowledge, a healthy respect for the animal kingdom, and the idea that they can pursue animal related careers and make a difference to preserve and protect the natural world. Josh Hestermann is a marine mammal keeper and trainer at the Brookfield Zoo in Illinois. Bethanie Hestermann is a freelance writer and contributing writer and editor at large at *Connected World* magazine. They live in Brookfield, Illinois.
