

System configuration

All power blocks are fitted with MCBs, and an RCD may be included as an option. Racks may be positioned and cabled before the power blocks are installed, to reduce the risk of damage during building work. Each power block has the same overall size and power requirement, so a mixture of 2.5kW and 5kW dimmers may be included in the same rack. Blank power blocks are available for custom equipment or branch breakers, or just for completing a partly-equipped rack.
