expenditure cuts during the fiscal year in an effort to meet their 5 percent of GDP target Based on the debt sustainability analysis Tanzania remains at low risk of debt distress A major upside risk for the long term not yet incorporated in the baseline projections relates to sizable finds of offshore natural gas that if confirmed as commercially viable could bring in large revenues during the next decade Program implementation All performance criteria under the program were met except a sizable breach of the performance criterion on net domestic financing at end June 2013 The structural benchmark on submission to parliament of the VAT reform for November 2013 was missed The authorities have taken corrective measures Macroeconomic and structural policies Preparations for the draft 2014 15 budget are under way A VAT reform aimed at improving efficiency and reducing exemptions is ready for submission to parliament prior to the beginning of the new fiscal year A priority in the next few years is to establish the institutional and policy framework to ensure that if natural gas revenues materialize they will bring benefits to all Tanzanians Staff recommends completion of the third and final review under the SCF arrangement and approval of the authorities requests for a waiver for nonobservance of a performance criterion and for completion of the financing assurances review

Building from the

Rubble Lloyd Sachikonye, Brian Raftopoulos, 2018-09-23 Building from the Rubble is the latest volume to trace the history of Zimbabwe's labour movement following *Keep on Knocking* 1997 and *Striking Back* 2001 Even though it focuses on the period between 2000-2017 the analysis reviews the changes in trade unionism throughout the post colonial era For much of this period the unions faced massive challenges including state violence and repression funding limitations splits factionalism and problems of organising at factory level Perhaps the greatest challenge was the massive structural change in the economy Deindustrialisation and the informalisation of work decimated the potential membership of the unions and redefined the trajectory of the movement The growing precarity of work and the loss of formal employment placed the future of trade unions in great jeopardy Notwithstanding these challenges the importance of the labour movement continued to resonate with workers The editors conclude that the unions need to reconnect with their social base at the workplace and rebuild structures and alliances in the informal economy the rural sector and with residents associations and social media movements This they write is a critical post Mugabe agenda that should be seized by the labour movement at all levels from shop floor to district regional and national spaces
