Zimsec June 2business Studies Exam Paper:

The Silence of Great Zimbabwe Joost Fontein, 2016-06-03 This book examines the politics of landscape and heritage by focusing on the example of Great Zimbabwe National Monument in southern Zimbabwe The controversy that surrounded the site in the early part of the 20th century between colonial antiquarians and professional archaeologists is well reported in the published literature Based on long term ethnographic field work around Great Zimbabwe as well as archival research in NMMZ in the National Archives of Zimbabwe and several months of research at the World Heritage Centre in Paris this new book represents an important step beyond that controversy over origins to focus on the site's position in local contests between and among individuals within the Nemanwa Charumbira and Mugabe clans over land power and authority To justify their claims chiefs spirit mediums and elders of each clan make appeals to different but related constructions of the past Emphasising the disappearance of the Voice that used to speak there these narratives also describe the destruction alienation and desecration of Great Zimbabwe that occurred and continues through the international and national archaeological and heritage processes and practices by which Great Zimbabwe has become a national and world heritage site today

The Hard Road to Reform Brian Raftopolos, 2013-02-17 The defeat of ZANU PF in the 2008 parliamentary election marked the end of one party rule in Zimbabwe The Global Political Agreement signed later that resulted in a Government of National Unity and the former ruling party was for the first time faced with the reality of sharing power The Hard Road to Reform presents a penetrating analysis of developments since the GNU was established reviewing recent political history from a range of perspectives political economic social and historical and featuring the best work of Zimbabwe's young scholars As Brian Raftopolos writes in his introduction the book is an attempt to analyse and assess both the hopes and frustrations of the last four years and to confront the harsh challenges that lie ahead

Zimbabwe in Transition Timothy Murithi, Aquilina Mawadza, 2011 Zimbabwe's Transition to Democracy in the post independence era has been a very difficult one To date there have been a number of sustained efforts by various local regional and international actors to move Zimbabwe towards democracy as well as attempts to find a lasting solution to the political and economic crises that seriously affected the country's progress from the late 1990s However these attempts have been less successful mainly because Zimbabwe has complex political and economic problems with interlocking national regional and international political and economic dimensions rooted in both historical and contemporary factors and developments To understand the complexities of the challenges to Zimbabwe's transition to democracy as well as prospects for political change and democracy in the country Zimbabwe in Transition critically examines both the historical and contemporary dynamics shaping political and economic developments in the country taking into account voices from a broad spectrum of Zimbabwean society including civil society faith based communities the diaspora women community leaders the media youth and regional actors such as SADC and the AU Book jacket

The Southern African Development Community in Zimbabwe Rich

Mashimbye,2024-02-13 This book narrates the unravelling of Zimbabwe a country that was once considered an inspiration on the continent of Africa in terms of socioeconomic development Recognising that many factors contributed to the collapse of the nation and that this collapse was a process that occurred over a long period it looks at historical events and processes like the colonisation of the country and dispossession of the indigenous people and the misrule politically motivated violence and economic mismanagement that followed under Robert Mugabe as the pivotal moments that precipitated the subsequent fall of Zimbabwe The book also examines the role that the regional intergovernmental organisation the Southern African Development Community SADC played in trying to help Zimbabwe overcome its security political and economic challenges

Zimbabwe's Migrants and South Africa's Border Farms Maxim Bolt,2015-09-25 This book addresses the complex labour and life conditions faced by workers in the agricultural borderlands of northern South Africa The Ndebele Nation Sabelo J. Ndlovu-Gatsheni,2009 **Zimbabwe** Suzanne Dansereau,Mario Zamponi,2005 The two articles are revised versions of papers presented at the end of May 2004 to a Zimbabwe Conference at the Nordic Africa Institute which was co organized by the project Liberation and Democracy in Southern Africa LiDeSA They highlight current socio economic aspects of Zimbabwean society By doing so they raise relevant issues yet ones that have tended to be neglected given the almost exclusive concentration on political events While this is understandable the articles fill the gap in our knowledge and add insights into important sectors of society These include information on the Zimbabwean economy and the present constraints of the decline which together help us to understand the structural legacy that any future government will have to deal with What is more the elections in Zimbabwe in 2005 provide an ideal moment to discuss such matters This Discussion Paper will thereby make a substantive contribution to the analysis of the overall picture in Zimbabwe **Report of the National Trade Unions Survey, Zimbabwe, 1984** Zimbabwe. Ministry of Labour, Manpower Planning, and Social Welfare. Department of Research and Planning,1984 **Resources in Education** ,1997-04 The African Conundrum Mawere, Munyaradzi,Mubaya, Tapuwa R.,2017-05-22 The African conundrum is rooted out of the historical philosophical and cultural bastardisation imbalances and inequalities which many post colonial African governments have always sought to address though with varying degrees of success since the 1960s Lamentably this African conundrum is rarely examined in a systematic manner that takes into account the geopolitical milieu of the continent past and present This volume seeks to interrogate and examine the extent of the impact of the geopolitical seesaw which seems poised to tip in favour of the Global North The book grapples with the question on how Africa can wake up from its cavernous intellectual slumber to break away from both material and psychological dependency and achieve a transformative political and socio economic self reinvention and self assertion While the African conundrum is largely a result of historic oppression and a resilient colonial legacy this book urges Africans to rethink their condition in a manner that makes Africa responsible and accountable for its own destiny The book argues that it is through this rethinking that Africa can successfully transcend the logic of post imperial

'Progress' in Zimbabwe? David Moore, Norma Kriger, Brian Raftopoulos, 2013-09-13 Zimbabwe's severe crisis and a

possible way out of it with a transitional government and the new era for which it prepares the ground demands a coherent scholarly response Progress can be employed as an organising theme across many disciplinary approaches to Zimbabwe's societal devastation At wider levels too the concept of progress is fitting It underpins modern liberal and radical perspectives of development pervading the social sciences and humanities Yet perceptions of progress are subject increasingly to intensive critical inquiry Their gruesome end is signified in the political projects of Robert Mugabe and ZANU PF John Gray's *Black Mass Apocalyptic Religion and the Death of Utopia* indicates this It is expected that participants will engage directly in debates about how the idea of progress has informed their disciplines from political science and history to labour and agrarian studies and then relate these arguments to the Zimbabwean case in general and their research in particular This book was published as a special issue of the *Journal of Contemporary African Studies* **Zimbabwe's Plunge** Patrick Bond, Masimba Manyanya, 2002 A biography of the man who became a civil rights activist political prisoner and president of South Africa **Kanyenze: Zimbabwe: The Link Between Politics and**, 2023-03-20 In this accessible and authoritative book Godfrey Kanyenze provides a comprehensive and far reaching analysis of the socio economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence Kanyenze describes the various phases of the socio economic development starting with 1980 when the people of Zimbabwe saw their hard won independence and new democracy as a promise for a **The Political Economy of Xenophobia in Africa** Adeoye O. Popular Music Censorship in Africa Martin

Cloonan, 2016-03-23 In Africa tension between freedom of expression and censorship in many contexts remains as contentious if not more so than during the period of colonial rule which permeated the twentieth century Over the last one hundred years popular musicians have not been free to sing about whatever they wish to and in many countries they are still not free to do so This volume brings together the latest research on censorship in colonial and post colonial Africa focusing on the attempts to censor musicians and the strategies of resistance devised by musicians in their struggles to be heard For Africa the twentieth century was characterized first and foremost by struggles for independence as colonizer and colonized struggled for territorial control Throughout this period culture was an important contested terrain in hegemonic and counter hegemonic struggles and many musicians who aligned themselves with independence movements viewed music as an important cultural weapon Musical messages were often political opposing the injustices of colonial rule Colonial governments reacted to counter hegemonic songs through repression banning songs from distribution and or broadcast while often targeting the musicians with acts of intimidation in an attempt to silence them In the post independence era a disturbing trend has occurred in which African governments have regularly continued to practise censorship of musicians However not all attempts to silence musicians have emanated from government nor has all contested music been strictly political Religious and moral rationale has also featured prominently in censorship struggles Both Christian and Muslim fundamentalism has led to extreme attempts to silence musicians In response musicians have often sought ways of getting their music and message heard despite censorship and harassment The book includes a special section on case studies that highlight issues of nationality
