**Moto**, 1998 *Beyond the Crises: Zimbabwe's Prospects for Transformation* Tendai Murisa, Tendai

Chikweche, 2015-12-01 Over the past years few African countries have been the focus of discussions and analyses generating a vast array of literature as much as Zimbabwe. The socioeconomic and political crises since the turn of the century have deeply transformed the country from the ideals of a vibrant freshly independent nation just two decades earlier. These transformations have necessitated the call for the restructuring of Zimbabwean society, polity and economy. But this literature remains exclusively within the realm of academic thinking and theorising with no concerted effort to move beyond this by explicitly drawing out the policy implications. *Beyond the Crises: Zimbabwe's Prospects for Transformation* is a welcome addition to the academic and policy literature with a much broader and all embracing focus in terms of policy interventions. By focusing on different aspects of social and economic justice, Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and policy development for the attainment of inclusive social and economic justice for Zimbabweans. **Human Psychology**

Elvira Čekić, Vilma Salonen, Abigail Carter, Maria Agustina, Lim Hana, 2024-12-23 TOPICS IN THE BOOK: Psychological Profile of Serial Killers, Analysis of Personality Traits, Motivation and Emotional Dynamics, Influence of Parental Involvement on Academic Achievement in Elementary School Children in Finland, Impact of Emotional Intelligence on Leadership Effectiveness in Corporate Settings in South Africa, Effect of Mindfulness Meditation on Reducing Stress in College Students in Indonesia, Role of Cognitive Behavioral Therapy in Treating Depression among Adults in South Korea. **Global**

**Perspectives on Teacher Performance Improvement** Al-Mahdi, Osama, Purinton, Ted, 2022-02-04 In-service teacher professional development is central to most empirical conceptions of educational quality. As the techniques and strategies for educational reform have spread rapidly throughout the world, teacher professional development practices have been borrowed across borders. It is important to study the global sharing of information on teacher professional development. *Global Perspectives on Teacher Performance Improvement* examines the implementation of proven high-quality teacher professional development practices in unique environments around the world. It further explains the power of a globally connected community of teacher quality improvement. Covering topics such as mentoring programs, education technology and education workforce, this book is an essential resource for educational administration and faculty, pre-service teachers, the public education sector, government officials, educators of both K-12 and higher education, researchers and academicians.

*Validating Technological Innovation* David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking (OSM) in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive, coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process.

Ogunniyi,2017-09-12 Each volume in the 7 volume series The World of Science Education reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel North Africa and the Middle East and Sub Saharan Africa The focus of this Handbook is on research in science education in mostly former British colonies in Sub Saharan Africa and the scholarship that most closely support this program The reviews of the research situate what has been accomplished within a given field in Sub Saharan Africa rather than an international context The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next **2010 Millennium Development Goals** ,2010

Millennium Development Goals Zimbabwe,2010 **New Leaders, New Dawns?** Chris Brown,David Moore,Blair Rutherford,2022-06-17 In late 2017 and early 2018 South Africa and Zimbabwe both experienced rapid and unexpected political transitions In Zimbabwe Robert Mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president Emmerson Mnangagwa Over a twelve day period in February 2018 South African president Jacob Zuma was prematurely forced from office by his former deputy president Cyril Ramaphosa The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions New Leaders New Dawns explores these political transitions and the way they were received Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of Ramaphosa and Mnangagwa foreshadowed Bringing together fourteen leading international scholars of southern Africa and adopting a political economy framework this volume argues that the changes in leadership are welcome but insufficient While the time had come for Zuma and Mugabe to go there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face New Leaders New Dawns reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern Africa
