[STEM Education in Poverty](#) Brantina Chirinda,Gladys Sunzuma,Perkins Muredzi,2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world s ever changing challenges including inequity food insecurity climate change inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education

system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn. Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches. As a result, there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields. Another challenge is the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students, which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today's world. While lack of resources and other challenges hinder effectiveness, opportunity lies in promising pathways of policy and practice. In Zimbabwe, there is a varying degree of success in the implemented competence based curriculum, which emphasises inquiry based learning and STEM education. Finally, there is a need for early exposure to STEM based career opportunities and for more collaboration between the government, private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe. This book uses Zimbabwe as an example to explore STEM education in poverty. By examining the successes and challenges of STEM education in Zimbabwe, this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies. This book is an essential resource for anyone interested in improving STEM education in underserved communities.

Teaching African History in Schools, 2020-11-04 Emerging from the pioneering work of the African Association for History Education (AAHE), *Teaching African History in Schools* offers an original Africa centred contribution to international history education research. Edited by AAHE's founders and directors, the volume thus addresses a notable gap in this field by showcasing otherwise marginalised scholarship from and about Africa. *Teaching African History in Schools* constitutes a unique collection of nine empirical studies interrogating curriculum and textbook contents and teachers and learners' voices and experiences as they relate to teaching and learning African history across the continent and beyond. Case studies include South Africa, Kenya, Rwanda, Zimbabwe, Malawi, Cameroon and Tanzania, as well as the UK and Canada. Contributors are Denise Bentrovato, Carol Bertram, Jean Leonard, Buhigiro Annie, Fatsereni Chiponda, Raymond Nkwenti, Fru Marshall, Tamuka Maposa, Abdul Mohamud, Sabrina Moisan, Reville Nussey, Nancy Rushohora, Johan Wassermann and Robin Whitburn.

Handbook of Research on Promoting Global Citizenship Education Keengwe, Jared, 2022-02-18 A global citizen is an individual who believes in a public responsibility for their local community to grow and interconnect amongst the world's diverse people and things. Global citizenship education is a fast moving process that continues to intertwine communities all over the world. As we move toward a more global world, the improvement in education, health, poverty rates and standard of living should come with it. This global world must be a place where people are aware of what is going on and can have an impact as well. The *Handbook of Research on Promoting Global Citizenship Education* explores various ways to empower educators to design and implement a curriculum that incorporates global citizen education. Covering a range of topics such as global issues and

Regime and Education in Zimbabwe

Bekithemba Dube,Albert Mufanechiya,2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics

such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy

Born to learn African Union, Association for the Development of Education in Africa, Global Education Monitoring Report Team, 2022-10-20

Environmental Resilience Percy Toriro, Innocent Chirisa, 2021-05-21 This book discusses the production distribution regulatory and management frameworks that affect food in urban settings It plugs a gap in knowledge especially in the sub Saharan Africa region where food despite its critical importance has been ignored as a determinant of success in the planning and management of cities and towns The various chapters in the book demonstrate how urban populations in Zimbabwe and elsewhere have often devised ways to produce own food to supplement on their incomes Food is produced largely by way of urban agriculture or imported from the countryside and sold in both formal and informal stores and stalls The book shows how in spite of the important space food occupies in the lives of all city residents the planning and regulatory framework does not facilitate the better performance of food systems
