**Zimbabwe's Trajectory** V. Masunungure, 2020-11-11 At Independence in 1980 Julius Nyerere called Zimbabwe the jewel of Africa and cautioned its new leaders not to tarnish it Tragically they paid no heed to Africa's esteemed elder statesmen Arguably and only if one ignores the carnage of Gukurahundi the first decade was a developmental one with resources being used prudently to benefit the formerly disadvantaged majority population However the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis where it has remained ever since While many African countries have moved forward over the last three decades Zimbabwe has gone relentlessly backwards save for the four year interregnum of the tripartite coalition government 2009-2013 Virtually all development indicators point in the wrong direction and the crisis of poverty unemployment and the erosion of health education and other public goods continues unabated The imperatives of political survival and power politics supersede those of sound economics and public welfare Moreover unless good politics are conjoined with a sound people first policy the country will continue sliding downhill Zimbabwe's Trajectory tells the story of the country's post independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world **Zimbabwe Human Rights Bulletin**, 2003

**Regime and Education in Zimbabwe** Bekithemba Dube, Albert Mufanechiya, 2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy *Global Trends in Land Tenure Reform* Caroline Archambault, Annelies Zoomers, 2015-02-11 This book explores the gendered dimensions of recent land governance transformations across the globe in the wake of unprecedented pressures on land and natural resources These complex contemporary forces are reconfiguring livelihoods and impacting women's positions their tenure security and well being and that of their families Bringing together fourteen empirical community case studies from around the world the book examines governance transformations of land and land based resources resulting from four major processes of tenure change commercial land based investments the formalization of customary tenure the privatization of communal lands and post conflict resettlement and redistribution reforms Each contribution carefully analyses the gendered dimensions of these transformations exploring both the gender impact of the land tenure reforms and the social and political economy within

which these reforms materialize The cases provide important insights for decision makers to better promote and design an effective gender lens into land tenure reforms and natural resource management policies This book will be of great interest to researchers engaging with land and natural resource management issues from a wide variety of disciplines including anthropology sociology development studies and political science as well as policy makers practitioners and activists concerned with environment development and social equity Marginality, Migration and Education Winniefridah Matsa,2020-12-21 This book provides a missing link between marginality migration and education in Zimbabwe focusing on the educational experiences of migrants children in an effort to influence government policies concerning migrant parents and their left behind children While there is a large body of knowledge on the education of children of immigrants in destination countries this book aims to fill in the gap by addressing the children who do not migrate with their parents Through this unique approach the book examines the education statuses of these left behind children offering insights into their educational challenges rights and inequities to better inform policy decisions to meet the 2030 education agenda for action established by the United Nations in 2015 The book will of interest and use to governments NGOs teachers and local communities in Africa as a resource to better understand the situation of migrants left behind children as a category of vulnerable children in difficult circumstances Official Journal of the European Communities ,1999 **International Handbook of Leadership for Learning** Tony Townsend,John MacBeath,2011-07-10 The International Handbook of Leadership for Learning brings together chapters by distinguished authors from thirty one countries in nine different regions of the world The handbook contains nine sections that provide regional overviews a consideration of theoretical and contextual aspects system and policy approaches that promote leadership for learning with a focus on educating school leaders for learning and the role of the leader in supporting learning It also considers the challenge of educating current leaders for this new perspective and how leaders themselves can develop leadership for learning in others and in their organisations especially in diverse contexts and situations The final chapter considers what we now know about leadership for learning and looks at ways this might be further improved in the future The book provides the reader with an understanding of the rich contextual nature of learning in schools and the role of school leaders and leadership development in promoting this It concludes that the preposition for between the two readily known and understood terms of leadership and learning changes everything as it foregrounds learning and complexifies rather than simplifies what that word may mean Whereas common terms such as instructional leadership reduce learning to outcomes leadership for learning embraces a much wider developmental view of learning **Parliamentary Debates** Zimbabwe. Parliament. Senate,1983 *Exporters' Encyclopaedia* ,1989 **Negotiating the Impasse** C. K. Kabemba,Shumbana Karume,2005 The International Floriculture Quarterly Report ,1991 **Re-thinking Postcolonial Education in Sub-Saharan Africa in the 21st Century** Edward Shizha,Ngoni Makuvaza,2017-04-17 What have postcolonial Sub Saharan African countries achieved in

their education policies and programmes How far have they contributed to successful attainment of the targeted 2015 Millennium Development Goals MDGs on education What were the constraints and barriers for developing an education system that appeals to the needs of the sub region Re thinking Postcolonial Education in Sub Saharan Africa in the 21st Century Post Millennium Development Goals is an attempt to demonstrate that Sub Saharan Africa has the potential and capability to provide solutions to challenges facing its desire and ability to provide sustainable education to its people To that end the contributors are academics with an African vision attempting to come up with African home grown perspectives to fill the gap created by the lapse of the MDGs as the guiding vision and framework for educational provision in Africa and beyond The book seeks to articulate and address African issues from an informed as well as objective African perspective The book is also intended to provide insights to scholars who are interested in studying and understanding the nature of postcolonial education in the Sub Saharan African region Given the objectives and themes of this book it is intended for academic scholars undergraduate and graduate students human rights scholars curriculum developers college and university academics teachers education policy makers international organisations and local and international non governmental organisations that are interested in African education policies and programmes Rethinking Postcolonial Education in Sub Saharan Africa in the 21st Century provides contemporary reflections from multiple perspectives and re positions the issue of education at the forefront of the debates on African development Lamine Diallo Associate Professor Wilfrid Laurier University Canada The book is a welcome addition to discourses and analyses on education in sub Saharan Africa with reference to a postcolonial critique and the Millennium Development Goals framework on education in Africa Michael Tonderai Kariwo PhD Instructor and Research Fellow University of Alberta Canada
