Step 1: Self-Assessment

Instructional Strategy	Level/Score	Current Student Behavior/Learning	Changes in Students Behavior/Learning
Identifying Critical Information	1, Beginning	Students do not focus in on critical information being taught in a lesson.	I would like to see my students focus in on the critical information being taught throughout a lesson.

Step 2: Identify Focus Strategies

Instructional Strategy	Baseline Level/Score and Date	Anticipated Midpoint Growth Level/Score and Date	Anticipated Final Growth Level/Score Goal and Date
Identifying Critical Information	Score: 1, Beginning Date: May 2, 2012	Score: 3, Developing Date: January 2013	Score: 4, Applying Date: May 2013

Step 3: Write Measurable Goals

Goal(s)
By the end of the year, I will raise my score on identifying critical information from a 2 to a 4, and I expect to see students describing the level of importance of the information addressed in class, students explaining why the content is important to pay attention to, and students visibly adjusting their level of engagement when critical information is share.

Step 4: Identify Specific Action Steps and Resources

Teacher/Classroom Action Steps	Resources and Professional Development
-Begin the lesson by explaining why upcoming content is important -Tell students to get ready for some important information -Cue the importance of upcoming information by my tone of voice, body position, level of excitement	- <i>Handbook for the Art and Science of Teaching</i> -School-based professional development offerings on Design Question #2

Step 5: Reflection

Goal #1	Reflection	Date
What am I learning about the strategy?	I realized that I was not pointing out the importance of critical information within my lesson at the beginning of the class period. I did not begin with an activator that helped my students focus in on important vocabulary words. Today in my lesson, I started with key vocabulary and I think it allowed students the opportunity to see what words/phrases would be important for their learning.	11/29/2012
How do I need to prepare my lesson?		
When I am using the strategy, what do I feel is working well for me in terms of evidences of improvement in student

Seoul Ambition Joel Cressman,2023-11-14 Seoul Ambition is the remarkable story of how the nation of South Korea

despite its infamous obsession with academics focuses feverishly on sports in ways much different than what we re used to in the West South Korean athletes dominate leaderboards in international golf events and have won the most Olympic medals of all time in archery and short track speed skating The country has produced transcendent talents in figure skating and the budding arena of esports creating a seemingly never ending pipeline of children who want to emulate their success Yet the

talent development process in Korea presents an interesting conundrum Though all young athletes pour in hours of practice Korean athletes traditionally only become world class in a select few niche sports One victory from a 20 year old golfer caused one of the greatest talent rushes in modern sports but a captivating World Cup run in men s soccer did not In fact Son Heung min the most dynamic Korean soccer player of all time actually had to rebel against the system to become a creative genius What is happening behind the scenes After spending years as a coach and physical education teacher in Seoul author Joel Cressman set out to answer that question Seoul Ambition explores the amazing stories of A young baseball prodigy who taught himself how to throw left handed to become one of the most accurate Major League pitchers of all time How South Korea intentionally used East Germany as a model to win more medals and the ideological battle over North Korea An educational system that pushes athletes to focus full time on their sports while ignoring academics to get into top universities Why the Korean Basketball League banned tall players to help save the sport The story and the surprising neuroscience behind how Korea became the global hotbed of professional video gaming The misconceptions of Tiger Parenting and how a hands on parenting style is viewed differently by East Asian children than Western kids Why the country s best speed skater was forced to defect to Russia How the national men s and women s hockey teams willed themselves from obscurity to compete with the world s best at the 2018 Olympics Full of extraordinary stories of athletes and their dedicated parents the book explores the science and history behind one of the most interesting sports cultures in the world Seoul Ambition will change the way you think about talent and creativity the power of community and national identity and the fascinating process of creating world class athletes

A framework for a green infrastructure planning approach in the Gauteng City-Region Christina Culwick, Kerry Bobbins, Anton Cartwright, Gregg Oelofse, Myles Mander, Stuart Dunsmore, 2016-09-01

As the population economy and urban built environment in the Gauteng City Region GCR expand government is increasingly under pressure to provide urban infrastructure to support growth It is increasingly important that this infrastructure is sustainable minimising the negative environmental impacts often associated with traditional forms of urban development Green Infrastructure GI is the interconnected set of natural and man made ecological systems green spaces and other landscape features that provide services and strategic functions in the same way as traditional infrastructure In harnessing the benefits of ecosystem services GI has emerged as a more efficient cost effective and sustainable alternative and sometimes accompanying approach to conventional forms of infrastructure Despite international evidence demonstrating how GI can be used as an alternative to or in tandem with traditional infrastructure the GI approach has so far gained only limited traction in the GCR In 2013 the GCRO published the State of Green Infrastructure in the GCR report The report established the principles that underpin GI used available data to map the extent of GI networks in the region assessed to what extent municipalities were aware of and applying a GI approach and demonstrated a possible way to value GI in local government financial systems The conclusions of the State of Green Infrastructure report were used to guide the next phase

of GCRO's research in support of the adoption of GI approach a phase focused on better understanding the opportunities for implementing GI in planning and infrastructure development programmes and on addressing some of the challenges associated with shifts towards this approach A framework for a green infrastructure planning approach in the Gauteng City Region GCRO's fourth Research Report builds on the foundations laid in the State of Green Infrastructure report It assembles expert inputs and reflections from collaborative stakeholder discussions in what was known as the Green Infrastructure CityLab to illustrate important considerations for the development of a GI planning approach in the Gauteng City Region GCR The report is divided into three broad sections Part A introduces the theoretical underpinnings of a GI approach and builds an argument for the importance of incorporating GI into planning and infrastructure development in the GCR Part B presents three pieces written by external experts They consider how GI and ecosystem services can be valued by municipalities and how so called grey green infrastructure design solutions can be implemented in the GCR Part C reflects on the stakeholder engagement process that has been undertaken primarily through the GI CityLab to deepen understanding of how GI can be embedded in municipal practice Based on these research findings this report concludes with a strategy for GCRO's next phase of work in its ongoing Green Assets and Infrastructure Project
