

.351 Winchester Self-Loading

Historical Notes. Introduced in 1907 to replace the .35 SL as a more powerful round for the improved Model '07 Winchester autoloading rifle. This cartridge has always had a certain popularity for police and guard work. It was used to a very limited extent in both WW I and II by the French. The rifle was discontinued in 1937. However, due to demand, American companies are loading the .351 again and the British and Canadians continued to load it.

General Comments. The .351 SL doesn't have very much to offer, even though it is an improvement over the older .35. It

won't qualify as a suitable deer cartridge, although it has been used with indifferent success for that purpose. It is a good medium game cartridge for coyote, mountain lion or animals in that class, but is really too powerful for small game. It is expensive, not accurate enough and too limited in range for varmint shooting. It has been rather popular for Latin American jungle hunting, because at the short ranges involved it has sufficient power for the game encountered there. It has been used quite a bit in the western United States for pest control from low flying, light aircraft. Like the .35, the .351 SL is semi-rimmed and the principal difference is in the .24" longer case of the .351.

Fighting Nazi Occupation Malcolm Atkin,2015-09-18 Everyone knows about the Home Guard but what about the other Secret Intelligence Services SIS and M16 You can read about them in this book This England When Winston Churchill made his we shall never surrender speech in 1940 he was speaking in the knowledge that Britain s Secret Intelligence Service was planning a civilian British resistance movement to mobilize after the country had been occupied Britain s planning for clandestine warfare developed out of a fierce battle between the Secret Intelligence Service and the War Office for the control of guerrilla warfare and conflicting ideas over the legitimacy of armed civilians A multi layered system of secret organizations was the result The Auxiliary Units are the best known of these ungentlemanly forces but in this perceptive new

study based on painstaking original research Malcolm Atkin clearly demonstrates that they were never intended as a resistance organization Instead they were designed as a short term guerrilla force whilst their Special Duties Branch was designed to spy on the British public as much as any Nazi invader Meanwhile deep in the shadows was the real resistance organization Section VII of SIS Malcolm Atkin s conclusions will cause controversy among military historians and will change our understanding of the preparations made in Britain to resist Nazi occupation in the Second World War A detailed yet accessible historical study ProtoView Willing's Press Guide and Advertisers' Directory and Handbook ,1914
