

PERSONAL SAFETY AND SECURITY

Each Country Office should conduct a comprehensive security assessment and develop and implement a security strategy and general safety and security policies and procedures. However, every CARE staff member must view safety and security as an individual responsibility and not depend solely on the Country Office's procedures. A staff member will gain a greater sense of security and self-confidence by preparing ahead for a potential incident.

This chapter provides general safety and security guidelines that individual CARE staff members can use. Most of them are common sense measures that are frequently forgotten when in an unfamiliar environment or during crisis. Successfully employing the safety and security measures in this chapter requires resourcefulness and vigilance. It is hoped that by applying these measures within a framework of the Country Office security strategy, CARE staff can prevent safety and security incidents from ever occurring. When they do occur, the well-prepared staff member can take quick and decisive action to minimize the likelihood of injury or damage. This chapter provides information on:

Document Retrieval Index, 1976 **For Security Personnel, HANDCUFFING, 2020** Mürsel Sevindik, 2020-04-15 This book covers Handcuffing issues for law enforcement officer The goal is to understand and be able to perform proper techniques of using handcuffs Handcuffs are temporary restraining devices designed to control the movements of a subject Officers may routinely use handcuffs to control restrain and transport persons Restraining devices will be applied properly and in accordance with training received so as to minimize the risk of unnecessary injury The design of handcuffs ensures

that the subject's movements are controlled to reduce the risk of injury to the police officer members of the public and the subject himself. The most common types of handcuffs used in law enforcement today are the traditional and hinged variety. In addition, officers also use plastic cuffs in some situations. Handcuffs do not entirely immobilize a suspect. Regardless of the type used, it is imperative that officers be aware that the police style handcuff is a temporary restraining device and that its proper use and application is crucial for the safety of the officer and subject. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement. *For Security Personnel, OFFICER SURVIVAL SKILLS, 2020* Mursel Sevindik, 2020-04-05. This book covers Officer Survival Skills issues for law enforcement officers. The goal is to develop the law enforcement officer's understanding of officer survival for the safe and efficient performance of their duty. The majority of police officers' duties become routine, though the potential for danger is always present. The duties of the officer require them to enforce laws and to control the illegal actions of certain citizens. Survival techniques, if properly applied, provide the officer an opportunity to overcome the resistive behavior of subjects. These techniques also provide officers with self-confidence, which is needed to win. When an officer uses force, peers, the public, the media, the government, and the world review that actions. If the officer applies inappropriate force, it reflects poorly on the individual and gives a non-professional appearance to the entire force. The officer is subject to legal limitations. When the officer is faced with a violent situation, it is required that he make decisions in a fraction of a second. He may have to justify his actions in court. Therefore, proper defensive tactics training provides the officer with the tools required not only to apply the proper techniques but also to decide the proper level of force necessary to overcome resistance. This will obviously enhance officer survivability, insure proper performance during the situation, and justification in court. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement.
