Virginia Republican Voter Guide

**John C. Green, Mark J. Rozell, Clyde
Wilcox**

Virginia Republican Voter Guide:

Virginia Votes ,1999 Record ,1991 Report United States. Congress. Senate,1998 **Politics and Religion in the White South** Glenn Feldman,2005-09-30 Politics while always an integral part of the daily life in the South took on a new level of importance after the Civil War Today political strategists view the South as an essential region to cultivate if political hopefuls are to have a chance of winning elections at the national level Although operating within the context of a secular government American politics is decidedly marked by a Christian influence In the mostly Protestant South religion and politics have long been nearly inextricable Politics and Religion in the White South skillfully examines the powerful role that religious considerations and influence have played in American political discourse This collection of thirteen essays from prominent historians and political scientists explores the intersection in the South of religion politics race relations and southern culture from post Civil War America to the present when the Religious Right has exercised a profound impact on the course of politics in the region as well as the nation The authors examine issues such as religious attitudes about race on the Jim Crow South Billy Graham s influence on the civil rights movement political activism and the Southern Baptist Convention and Dorothy Tilly a white Methodist woman and her contributions as a civil rights reformer during the 1940s and 1950s The volume also considers the issue of whether southerners felt it was their sacred duty to prevent American society from moving away from its Christian origins toward a new secular identity and how this perceived God given responsibility was reflected in the work of southern political and church leaders By analyzing the vital relationship between religion and politics in the region where their connection is strongest and most evident Politics and Religion in the White South offers insight into the conservatism of the South and the role that religion has played in maintaining its social and cultural traditionalism Selected Court Case Abstracts ,2001 Contains collected abstracts of the FEC about court cases pertinent to the Federal Election Campaign Act of 1971 as amended **Selected Court Case Abstracts** ,1976 The Christian Right in American Politics John C. Green,Mark J. Rozell,Clyde Wilcox,2003-05-06 From the first rumblings of the Moral Majority over twenty years ago the Christian Right has been marshalling its forces and maneuvering its troops in an effort to reshape the landscape of American politics It has fascinated social scientists and journalists as the first right wing social movement in postwar America to achieve significant political and popular support and it has repeatedly defied those who would step up to write its obituary In 2000 while many touted the demise of the Christian Coalition the broader undercurrents of the movement were instrumental in helping George W Bush win the GOP nomination and the White House Bush repaid that swell of support by choosing Senator John Ashcroft once the movement s favored presidential candidate as attorney general The Christian Right in American Politics under the direction of three of the nation s leading scholars in the field of religion and politics recognizing the movement as a force still to be reckoned with undertakes the important task of making an historical analysis of the Christian Right in state politics during its heyday 1980 to the millennium Its twelve

chapters written by outstanding scholars review the impact and influence of the Christian Right in those states where it has had its most significant presence South Carolina Virginia Texas Florida Michigan Iowa Kansas Minnesota Colorado California Maine and Oregon and Washington Since 1980 scholars have learned a good deal about the social characteristics religious doctrine and political beliefs of activists in and supporters of the Christian Right in these states and each contribution is based on rigorous dispassionate scholarship The writers explore the gains and losses of the movement as it attempts to reshape political landscapes More precisely they provide in depth descriptions of the resources organizations and the group ecologies in which the Christian Right operates the distinct elements that drove the movement forward As the editors state the Christian Right has been engaged in a long and torturous march toward the millennium from outsider status into the thick of American politics Those formative years 1980 2000 are essential for any understanding of this uniquely American social movement This rigorous analysis over many states and many elections provides the clearest picture yet of the goals tactics and hopes of the Christian Right in America

Mark Warner the Dealmaker: From Business Success to the Business of Governing Will Payne, Foreword by Governor Terry McAuliffe, Afterword by Quentin Kidd, 2015 When Mark Warner left office in 2006 with an 80 percent approval rating TIME magazine called him one of America's Five Best Governors Virginia was ranked the best managed state in the nation the best state for business and the best state for educational opportunity When Warner began his term in 2002 the commonwealth was in the midst of its worst fiscal crisis in forty years and partisan bickering had brought political discourse in Richmond to a standstill An entrepreneur from a young age Warner became the world's first cellular industry broker and later co-founded Nextel The conservative Democrat came in with a plan to turn Virginia around and restore the public's trust in state government winning the support of battle-hardened Republican legislators This is the story of how Mark Warner entered the governor's office a hands-on dealmaker and emerged a statesman Page 4 of cover

[Information Guidance Series](#) United States. Office of Information for the Armed Forces, 1978

Prayers in the Precincts John C. Green, Mark J. Rozell, Clyde Wilcox, 2000-04-04 In the wake of the Clinton Lewinsky scandal the Christian Right expected major victories in the 1998 elections Instead many of its allies lost close contests and the movement was seen as a liability in some high profile campaigns In the only in depth study of the Christian Right's role in these races leading scholars analyze the role of the movement in fourteen key states from Maine to California and address speculations that the movement is fading from the American political scene The book focuses on elections on the state and local levels where the Christian Right is most influential and it describes the movement's niche in some detail Although each campaign described in the book had its unique characteristics the editors have drawn some broad conclusions about the 1998 elections While the movement was weak in the areas of candidate recruitment and fundraising they say the outcome may have also been related to external factors including a broader turnout of typically Democratic constituencies and the country's boredom with the scandal that conservatives had made the centerpiece of their campaign Despite the

setbacks of 1998 the contributors argue the Christian Right continues to have an enormous influence on the political dialogue of the country Written from an unbiased nonpartisan perspective this volume sheds light on a topic that is too frequently mired in controversy *Investigation of Illegal Or Improper Activities in Connection with 1996 Federal Election Campaign* United States. Congress. Senate. Committee on Governmental Affairs,1998 *The Two-Party Trap* Steven Verrier,2022-08-12 The United States has become increasingly polarized although the concept of a two party system is not new This book traces the major parties utter dominance of the highest elected positions all the way down to nonpartisan political offices across the U S from the founding of the Constitution through the 2020 presidential election Even before the founding of the modern Republican Party in 1854 and the next 168 year era of Democratic GOP dominance the early decades of American nationhood were ruled in a similar manner by the two major parties of the day This book is a comprehensive fast paced analysis of how the two party system has grown to be such an affront to the ideals of the Founding Fathers and of the numerous Americans today who appear to accept it as a fact of life **Voting Assistance Guide** ,2002 **Cultural Wars in American Politics** Rhys H. Williams, That contemporary American politics is divided into two differing ideological moral and lifestyle groups a divide so severe as to constitute a cultural war is a widely held popular belief The most systematic academic version of the culture wars claim has appeared in two influential books by sociologist James Davison Hunter the earlier dating from 1991 Hunter s formulation of the myth serves the contributors to this volume as a point of departure They add more measured analyses to the rhetorical overstatement in Hunter s claim assessing its accuracy with a broad range of evidence based on individual attitudes subcultural values political party dynamics and culture wide ideological currents On every level of analysis the contributors find that Hunter s bipolar axis obscures the variety of ways in which culture actually functions in current politics That variety receives the nuanced treatment it deserves in this collection Examining the full range of sources of cultural politics and offering competing models for understanding the current ideological landscape this volume will be useful in a variety of classroom and seminar settings from political sociology and social movements to contemporary American culture and the sociology of religion **The Best of Newspaper Design 28** ,2009 **Beyond the Voting Rights Act** Gregory T. Moore,2022-09-06 Beyond the Voting Rights Act movingly recounts over 30 years of contemporary voting rights battles in the United States from the 1980s to the present day The book places in context the modern day battles against voter suppression laws that were embedded in American history and are still underway across the country It tells a story of that struggle from the author s perspective beginning as a young African American from Cleveland in the 1980s who reluctantly became involved within this movement as a student activist and inadvertently rose to become an integral part of the ultimate legislative victory *FEC Index of Independent Expenditures* ,1985 **Making the Presidency** Lindsay M. Chervinsky,2024 Making the Presidency argues that Adams s leadership and legacy defined the office for those who followed and ensured the survival of the American republic by establishing the peaceful transition of

power and the integrity of the elections **The Washington Post Index** ,2008 **Election 2008** Franklin
Foer,2007-01-01 An overview of the politics campaigns promises and pasts of the 2008 Democratic and Republican
presidential candidates
