Ph.d.,2017-02-09 THE VISION BOARD BOOK provides a way to create your vision board in a book in which you envision what you want and decide what action steps to take to get it But instead of creating your vision on a large board usually about 24x36 you create it in an 8 1 2x11 book The advantage of this approach is that you can take this book with you wherever you go and look at it whenever you want You can also readily share this book with others and you can take a photo of the pages or turn your book into a PDF and share that too Plus with a book you can add in comments add pages and otherwise expand on your original vision It is also easier to carry around In fact you can readily create a series of vision boards every year or every few months so you can both see where you are going and where you have been Perhaps think of this book like a visual journal or diary in which you record your hopes and dreams and later look back from time to time But now you have a separate book which you can focus on each day and use to keep track of how you are doing as well as motivate you to go after and make real what you want
