Ten Books on Architecture Vitruvius,2016-01-02 Ten Books on Architecture from Vitruvius Marcus Vitruvius Pollio was a Roman writer architect and engineer 70s BCE c 15 BCE      **Vitruvius** Morris H. Morgan,2014-03 This Is A New Release Of The Original 1914 Edition      **The Ten Books on Architecture** Vitruvius Pollio,Morris Hicky Morgan,Herbert Langford Warren,Nelson Robinson,2013-09-29 The Ten Books on Architecture Complete New Student Edition By Vitruvius Pollio Marcus Vitruvius Pollio born c 80 70 BC died after c 15 BC was a Roman author architect and engineer during the 1st century BC perhaps best known for his multi volume work entitled De Architectura By his own description Vitruvius served as a ballista artilleryman the third class of arms in the military offices He likely served as chief of the ballista senior officer of artillery in charge of doctores ballistarum artillery experts and libratores who actually operated the machines Little is known about Vitruvius life Most inferences about him are extracted from his only surviving work De Architectura His first name Marcus and his cognomen Pollio are uncertain He was possibly a praefectus fabrum during military service or praefectus architectus armamentarius of the apparitor status group During the last years of his life Professor Morgan had devoted much time and energy to the preparation of a translation of Vitruvius which he proposed to supplement with a revised text illustrations and notes He had completed the translation with the exception of the last four chapters of the tenth book and had discussed with Professor Warren the illustrations intended for the first six books of the work the notes had not been arranged or completed though many of them were outlined in the manuscript or the intention to insert them indicated The several books of the translation so far as it was completed had been read to a little group of friends consisting of Professors Sheldon and Kittredge and myself and had received our criticism which had at times been utilized in the revision of the work After the death of Professor Morgan in spite of my obvious incompetency from a technical point of view I undertook at the request of his family to complete the translation and to see the book through the press I must therefore assume entire responsibility for the translation of the tenth book beginning with chapter thirteen and further responsibility for necessary changes made by me in the earlier part of the translation changes which in no case affect any theory held by Professor

Morgan but which involve mainly the adoption of simpler forms of statement or the correction of obvious oversights
