

Introduction

The research project aims to discover Ritz Carlton as an element of the hospitality industry. The research mainly focuses to discuss employee motivation at the chosen organization. Employees can be easily categorized based upon their nature, skills, working capacity, etc. but the things that remain constant in all types of employees are the need for motivation. Ritz Carlton involves a number of employees where some are students, international students, part-time employees, short-term employees, and permanent employees. Ritz Carlton also needs to motivate its employees to bring the best out of them. Motivated employees fulfill their personal goals and benefit the organization equally, whereas, absence of motivation degrades their own as well as the company's performance. Thus employee motivation is a very crucial concept that actually matters a lot in the hospitality industry (Ritz-Carlton Hotel, 2019).
