

Discourse community paper

Have you ever been among people who are very much like you? That it does not matter what differences you have you all have a lot more in common. A member of 4-H constitutes a discourse community because of an agreed set of common public goals, level of membership, and something that provides information and feedback. An agreed set Of public goals for our community is that as a whole group we do a lot of community service.

For a couple of years my club would go to a urging home and do different activities with the elderly. Whether it be making them sun catchers to hang in their windows or play board and card games with them. It was very surprising my first year to find out that a lot of the elderly in nursing homes never get visitors. This made me very sad. So my club took a vote and decided to keep going back month after month and building a bond with these amazing people. Loved sitting around talking with them and hearing about all the different stories each of them had to tell.

Another community service my group did was that we went to different parks right as spring began and we would plant beautiful flowers for everyone to enjoy. Something we do that provides information or feedback would be putting on our fair. Not only at a county fair are there rides, carnival games, and carnival food; but also all the hard work each a-Her has put in to the projects they have to complete to be a part of the group. There are so many different projects, from livestock to sewing to cooking to robotics to duct tape art to the shooting sports.

Over the years, I have taken many projects from all areas in our project guide, but my favorite has been the self-determined projects. While having four years left in the program I really wanted to find a project that truly loved and enjoyed doing. All my friends had their favorite and I wanted mine, so me and mom were looking through the project guide and we found a self-determined project on American Sign Language. I was so happy because this was a great interest of mine, and something was looking in to doing for my career.

By taking this project for four years it had helped me aka a final decision on what I wanted to go to college for. I was right, I have a great passion for American Sign Language and learning about the deaf community. The level Of membership in 4-H does not have anything to do with your knowledge or experience. For most people like myself, we got started in 4-H at the age of five being a clobbered. I got to go to the club meetings, participate in them, do activities with older members, and even take a project to the fair if wanted to, but it just did not get judged.

At the age of eight I became a first year 4-Her. I got to take any project(s) I wanted, and gave me a good feeling that I got to pick what I wanted to do. I took a market lamb, sewing for beginners, and cook

Post-Earthquake Haiti Juliana Svistova, Loretta Pyles, 2018-02-21 Natural disasters have long been seen as naturally generated events but as scientific technological and social knowledge of disasters has become more sophisticated the part that people and systems play in disaster events has become more apparent Production of Disaster and Recovery in Post Earthquake Haiti demonstrates how social processes impact disasters as they unfold through the distribution of power and resources the use of discourses and images of disaster and the economic and social systems and relations which underlie affected communities The authors show how these processes played out in post earthquake Haiti to set in motion the mechanics of the disaster industrial complex to re produce disasters and recovery rather than bring sustainable change The book reveals that disaster and recovery rhetoric helped create fertile conditions for neoliberal disaster governance militarized and digital humanitarianism non profiteering and disaster opportunism to flourish while further disenfranchising marginalized populations However the Haiti earthquake as is the case with all disaster sites was ripe with mutual aid community building and collective action all of which further local resilience The authors seek to re construct dominant discourses policies and practices to advance equitable participatory partnerships with local community actors and propose a praxis for a people s recovery as an action oriented framework for resisting the transnational disaster industrial machinery The authors argue for new synergies in policymaking and program development that can respond to emergencies and plan for true long term sustainable development after disasters that focuses as much on humans and the natural world as it does

on economic progress Production of Disaster and Recovery in Post Earthquake Haiti will be of great interest to students and scholars of disaster studies humanitarian studies development studies Haitian studies geography and environmental studies as well as to non governmental organizations humanitarians and policymakers **Resources in Education** ,1997
