Salidas De Caverna:

Salidas de caverna Hans Blumenberg, 2018-04-12 Aunque alcanza en Platón una formulación magistral el mito de la caverna es como estudia Blumenberg una de las metáforas fundamentales de la historia humana y de su comprensión de la existencia. El mito no puede reducirse a lo que dice o puede ser traducido en reflexiones y conceptos. Ofrece una imagen del mundo y del ser humano en el mundo en el desarrollo del tiempo que con el mito hace suyo. Es un mito del inicio pero también del existir que tras el inicio tiene lugar alcanza diversas formulaciones y nos sorprende con su presencia cuando creímos que había desaparecido. El mito hace referencia al pasado pero también establece un hilo conductor que lo contempla desde el presente y con él se articula. **De Cervantes a Dalí** Ana María Leyra, 2006 *Las realidades en que vivimos* Hans Blumenberg, 1999 La cultura de nuestro tiempo ha concedido a la cuestión de la metaforicidad una extraordinaria importancia al considerar que lo que podemos saber acerca de nosotros mismos encuentra su mejor expresión en determinadas metaforas. Aunque la idea ya había sido destacada en los albores de este siglo por autores como Ortega o Bergson, tal vez haya sido Hans Blumenberg quien con mayor eficacia la ha desarrollado elevándola al rango de metodología propia. Metodología brillante y sugerente que en algunos momentos se podría considerar allegable a la de Benjamin, con quien entre otras cosas comparte la distancia respecto a la filosofía tradicional incluso con los autores como Heidegger o Wittgenstein con los que más dialogan. Es esta peculiar ubicación en el seno del pensamiento contemporáneo esta capacidad para convertirse en interlocutor de autores en principio alejados de su perspectiva y incluso alejados entre sí si seria el caso de filósofos tan distintos como Davidson o Valéry lo que convierte la lectura de los textos de Blumenberg en un ejercicio intelectual sumamente interesante en especial para quienes echen en falta auténticas miradas originales sobre esta época.

Ágnes Heller and Hannah Arendt Ángel Prior Olnos, Ángel Rivero, 2018-09-30 This book reconstructs through texts by Ágnes Heller and international scholars a timely conversation between Hannah Arendt and Heller on the malaises of modernity. This valuable work will be appreciated both by academics and students interested in social and political philosophy in addition to the wider public curious of intellectual history. Both Arendt and Heller are great thinkers with the ability to enlighten the great moral and political problems of our time. Although these two great figures belong to different generations the dialogue reconstructed here provides a fuller picture of the demise of the great totalitarian forces of the twentieth century. Both Arendt and Heller in a sense accepted the burden of understanding the evils of their age. It is however Heller by addressing the perennial problems of modernity posed by Arendt who makes this conversation possible illuminating the problems of this century. **La Gran Caverna de Santo Tomás** Antonio Núñez Jiménez, Carlos Aldana Vila, La exploración y estudio de la Gran Caverna de Santo Tomás constituye una parte importante de la historia de la Sociedad Espeleológica de Cuba. Producto de estas investigaciones se demuestra que la intrincada red de galerías subterráneas ha sido originada por antiguos ríos. Esta Gran Caverna es la princesa de las espeluncas cubanas y concentra en sí una historia que va desde los
