VALUATION GUIDE FOR ITEMS DONATED TO THE SALVATION ARMY

New Federal Income tax regulations require donors claiming deductions for charitable contributions consisting of property other than cash worth more than \$500 to file Internal Revenue Service Form 8283, "Non-cash Charitable Contributions". Where the non-cash charitable contribution, other than publicly traded securities, exceeds \$5,000 including "service property" contributed to one or more charitable organizations, the donor charitable organization must acknowledge the contribution on the Form 8283. In addition, donor charitable organizations are required to file Internal Revenue Service Form 8282, "Donor Information Return", when they dispose of certain property the receipt of which they have acknowledged on a Form 8283. (See IRS publication 5411 "Revised November 1985") "Determining the Value of Donated Property" for detailed information.)

Retail and Community George Campbell Gosling, Alix R. Green, Grace Millar, 2024-06-28 Retail has never existed in a vacuum This interdisciplinary volume explores how English commercial co operative and charity retailing were shaped by and in turn influenced their social and political environments from the local to the global between the late nineteenth and early twenty first centuries Historians sociologists archivists and heritage professionals engage with current debates on the rise of modern business and the decline of the high street class and credit professionalisation in the voluntary sector migration and the end of empire This book will be a key resource to better understand retail and community in an era defined by social change shedding new light on the enduring centrality of community relationships to modern retailers *Family Values* Melinda Cooper, 2017-02-01 Why was the discourse of family values so pivotal to the conservative and free market revolution of the 1980s and why has it continued to exert such a profound influence on American political life Why have free market neoliberals so often made common cause with social conservatives on the question of family despite their differences on all other issues In this book Melinda Cooper challenges the idea that neoliberalism privileges atomized individualism over familial solidarities and contractual freedom over inherited status Delving into the history of the American poor laws she shows how the liberal ethos of personal responsibility was always undergirded by a wider imperative of family responsibility and how this investment in kinship obligations recurrently facilitated the working relationship between free market liberals and social conservatives Neoliberalism she argues must be understood as an effort to revive and extend the poor law tradition in the contemporary idiom of household debt As neoliberal policymakers imposed cuts to health education and welfare budgets they simultaneously identified the family as a wholesale alternative to the twentieth century welfare state

And as the responsibility for deficit spending shifted from the state to the household the private debt obligations of family were defined as foundational to socio economic order Despite their differences neoliberals and social conservatives were in agreement that the bonds of family needed to be encouraged and at the limit enforced as a necessary counterpart to market freedom In a series of case studies ranging from Clinton s welfare reform to the AIDS epidemic and from same sex marriage to the student loan crisis Cooper explores the key policy contributions made by neoliberal economists and legal theorists Only by restoring the question of family to its central place in the neoliberal project she argues can we make sense of the defining political alliance of our times that between free market economics and social conservatism The Law of
