Zondor the Great John Greenridge,2010 The events depicted in this book have all been adapted and embellished in order to create this science fiction novel spot the join if you can However most of the content espouses a more or less true record of time travels by the author The scientific theory embodied within the novel should give cosmic scientists a nudge in the right direction It offers a brand new hypothetical understanding of how the Universe actually operates John knows that as normal living and breathing human beings rather than the Mechanical Intelligent Memory Units MIM Units as described by Zondor you wont be tempted to believe this story That is until it happens to you the average sane human reader Yet recent scientific discoveries offer some credence to the tale Those new theories while similar to my experience depend on the idea of the projection of the Universe as a hologram and modern scientists owe some sympathy to the idea They have not had the dubious benefit of my experiences as a guide however So the idea of projecting serial electronic pictures across a time continuum and onto an event horizon has not hit the new science headlines so far even though the technology exists for such events Like all new science my idea will have its arm chair critics The reader of this book is about to become one of those critics To the sceptic I would ask the question How long is it since radio and television were invented discovered If you wrote a book about radio and television in the 19th Century would you have ended up in the loony bin Most likely John Greenridge 2009 *Contract of War: Spectras Arise Trilogy, Book 3* Tammy Salyer,2014-07-05 UNITY OR TYRANNY THE ONLY DIFFERENCE IS THE BODY COUNT In the aftermath of a system wide war between the Admin and Corp Loyalists and the non citizen population of the Algols everything once resembling order has been leveled Scattered enclaves of survivors dot the worlds living in snarled lawlessness how ever they can Aly Erikson and her crew have carved out a niche of relative peace doing their best to go on with their lives through salvaging scavenging and stealing But with no force left to keep the lid on the pot the pressures of chaos and discord soon cause conflicts to boil over As enemies close in from all directions even sometimes from within the crew once again must fight not just for survival not just for their way of life but this time for a future that can finally lay to rest the system s bloody and savage past What people saying about the Spectras Arise Series A fast paced and fun sci fi space adventure with a great protagonist starts with a running gun fight and doesn t let up until the explosive conclusion Top Notch SciFi Read I m torn between wanting to savor every exciting moment of this gorgeously written series or binge read to find out what happens next Thrilling Roller Coaster Ride of Military Sci Fi Adventure Contains the kind of action that makes it hard to turn off the light and go to sleep Other books in the Spectras Arise Series Conviction A Spectras Arise Prequel Novella Contract of Defiance Spectras Arise Trilogy Book 1 Contract of Betrayal Spectras Arise Trilogy Book 2 Contract of War Spectras Arise Trilogy Book 3 The Spectras Arise Series Omnibus including all four books Fans of the following authors may also enjoy this science fiction series Aaron Dembski Bowden Adrian Tchaikovsky Ann Leckie Anna Hackett Anthony J Melchiorri Arthur C Clarke B V Larson Carlos R Tkacz Craig A Falconer Craig Alanson Craig

Do Ask, Do Tell Bill Boushka, 2000 The original Bill of Rights sponsored largely by James Madison is now about 210 years old Reinforced by the Fourteenth Amendment which eventually applied many of its provisions to the states it has served us well It is time to re evaluate our fundamental constitutional rights and to seriously consider their major renovation This is my central proposal Are we ready to trust ourselves as individuals with the personal responsibilities that go with rights When government defines personal moral values we tend to take less account for not only our own actions but also our own underlying values for those spiritual yearnings that make us all unique people who we are We tend to lose interest in speaking for ourselves and tend to leave moral judgments to experts who get paid to pass judgment on all of us I discuss a philosophy often called libertarianism of extremely restricted government I present it from the personal perspective of a gay man who grew up in a period of enormous change and migration toward cultural individualism My argument is intended for everyone but I provide my own detailed perspectives on many issues The parallel between draft deferments during the Vietnam era and the gays in the military battle today How close the gay community as we know it came to total catastrophe during the early days of AIDS crisis What the family values debate is really all about Volunteerism and social obligations and how both military service and parenting fit into these What discrimination is really all about How the Don't Tell mentality interferes with political and social debate in many areas Why equal rights for gays is important for everybody A science of personal growth and why libertarianism is good for personal growth
