*From Hope to Action through Knowledge* Ramesh Bharuthram, Larry Pokpas, 2020-10-27 Its November 2001 A university in dire straits financially bankrupt burdening a debt in excess of R100 million a disillusioned and demoralised staff complement still reeling from the trauma of retrenchments coupled with an academic project facing collapse as student numbers dwindle by a third to less than 10 000 Is there a future for such an institution described by some as a basket case with very bleak prospects of survival This was the landscape that confronted the newly appointed Vice Chancellor and Chief Executive Officer CEO of the University of the Western Cape Fast forward to December 2014 The CEO retires from office bestowing upon his successor a financially sound institution with a flourishing academic project recording unprecedented achievements enriching the lives of more than 20 000 students and widely acknowledged as a research led university This book narrates how visionary leadership with the steadfast belief that your past does not determine your future galvanised an entire organisation into believing that a better outcome was indeed achievable and the will to move forward as a collective with a redefined purpose and commitment to achieve that which was once deemed impossible Unlocking the chains of knowledge Monwabisi K Ralarala, Suren Pillay, Zannie Bock, Russell H. Kaschula, 2025-02-28 Unlocking the chains of knowledge Understanding the challenges remaking pedagogies and curriculum renewal addresses the complex yet imperative task of reshaping the colonial legacy embedded within South African higher education and beyond The book confronts the historical and ideological bindings that have entrenched European centric knowledge within the fabric of academia in Africa propelling a transformative journey within the Arts and Humanities At its core this work presents a tripartite focus firstly understanding the deep seated issues ingrained in the traditional university structure secondly remaking pedagogical practices and lastly renewing the curriculum Recognising the historical dominance of Eurocentric ideas the book explores various movements theories and practices from negritude to postcolonial theory aiming to emancipate and amplify the voices and knowledge of those historically excluded With a commitment to a pluralistic approach the book scrutinises the power dynamics of language the importance of diverse perspectives and the challenging task of inclusion without replicating the divisive structures of the past Prof Christine Winberg Research Chair in Work integrated Learning Cape Peninsula University of Technology In Unlocking the chains of knowledge Understanding the challenges remaking pedagogies and curriculum renewal the editors provide a decisive and detailed reflection and profound understanding of complexities of knowledge generation in Southern Africa Unlike many volumes that address these intricate complexities this volume not only navigates the intricate complexities of the long history of epistemic injustices and intolerance in the Southern African higher education environment but delves deeper into the core of what is required for curriculum transformation and renewal The groundbreaking volume addresses the urgent need for linguistic inclusivity consciousness about decoloniality as well as embedding social justice in South African and Zimbabwean education and by

doing so presents strategies that can be used by the rest of the African continent in addressing the scourge of coloniality Prof Pamela Maseko Executive Dean Faculty of Humanities Nelson Mandela University *Language and the Law* Monwabisi K. Ralarala, Russell H. Kaschula, Georgina Heydon, 2022-06-14 *Language and the Law Global Perspectives in Forensic Linguistics from Africa and beyond* is the third volume in a series of books designed to contribute and respond to growing interest in forensic linguistics or language and the law on the African continent Drawing mostly on contexts where traditional African laws and Western laws are practised side by side and where there are discontinuities between local knowledge systems belief systems and language practices on the one hand and official languages of law discourse conceptualisation and jurisprudence documentation on the other the chapters in this volume problematise among other issues the mediation practices or lack thereof of language and legal processes discourse strategies and complexities in misinterpretations in second language court contexts and the miscarriage of justice that these may entail *Law & Investment in Africa* Tinahse Kondo, 2021-04-19 Zimbabwe has had a chaotic foreign direct investment FDI regime This has created the need for a detailed volume on the most important developments around the protection and treatment of FDI at not only a domestic level but also at bilateral regional and international levels The author argues that while Zimbabwe has now harmonised previously scattered legislation under the Zimbabwe Investment and Development Agency Act Chapter 14:37 and taken measures to reverse to varying degrees controversial policies such as the land reform programme and the Indigenisation and Economic Empowerment Policy scepticism still prevails over the investor friendliness of the FDI regime in Zimbabwe *Apologetics in Africa* Kevin Muriithi Ndereba, 2024-02-01 Divided into four major sections this textbook provides an in depth exploration of the biblical philosophical cultural and practical concerns facing African Christians as they proclaim and defend the gospel in Africa Written by a diverse group of pastors and scholars it provides a much needed interdisciplinary and contextualized approach to apologetics It also seeks to bridge the gap between academic research and ministry practice touching on such topics as hermeneutics biblical criticism church history the nature of evil religious inclusivism Muslim Christian engagement eldership rites domestic violence cults and the digital age Biblically robust contextually relevant ministry oriented and accessible this is a remarkable resource for enriching the life and ministry of Christians in Africa and beyond **Knowledge Beyond Colour Lines** Monwabisi K. Ralarala, Salochana Lorraine Hassan, Rajani Naidoo, 2021-05-25 Knowledge remains timely in education The need for academics to contemplate its relevance worth use and everything in between deems a continuous intellectual project rather than a conundrum to be solved This book takes the South African context by the horns as it challenges the often dormant and traditionalist ways in which higher education spaces see knowledge Through original research and the voices of academics and students this book argues for repurposing knowledge generation knowledge sharing and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained The contentious tensionalities that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher

education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines Prof Shan Simmonds PhD NWU This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa The issues dealt with here are varied and encompassing They are treated with intellectual delicacy and probing sensitivity articulacy informed data and bold conclusions They serve well Prof Kwesi Kwaa Prah Emeritus Professor of Sociology University of the Western Cape Founder of the Centre for Advanced Studies of African Society African Church Fathers - Ancient and Modern Hans S. Engdahl,2021-01-26 This critical and close reading of two African theologians Origen 185 254 and Mbiti 1931 2019 focuses on the following areas philosophy African philosophy and religion and Platonic cosmology ecclesiology and eschatology a parallel presentation of these three themes leads to a fourth theme that of the resurrection where it is argued that there exists a consensus and a convergence between the two This reading also highlights two convictions that partly have caused strong criticism Mbiti has suggested that African philosophy and religion have a conception of time of their own Origen that all and everything is gradually moving towards an apokatastasis at which point all will be saved Yet the contention is that even more important to both Mbiti and Origen is the resurrection of Jesus Christ In order to establish the impact of the resurrection on their lives as Christians and as theologians a contrast reading has been undertaken i e texts are identified which underline the need to forge a link between the resurrection and the earthly ministry of Jesus These texts also underwrite the conviction of Mbiti as well as Origen of the resurrection as something which must be lived in church and society corporately as well as in personal devotion The fact of resurrection creates a new mode of life **Feeling lives: An**

**Orania** Lorato Mokwena,2024-09-10 Orania s enabled and uninterrupted existence in post apartheid South Africa continues to cast an eerie shadow over a country that proclaims to be united in diversity This essential question remains If Orania is a spit in the face of the postapartheid South African society why have four Black presidents allowed its existence 30 years into the birth of a non racial and non segregational country Could it be that Orania s continued existence is conveniently exploited by people of Orania and anti Afrikaner political parties and used as a bogeyman For as long as you are

scared of this supposed apartheid nostalgic town and its people Orania remains a White Afrikaner safe haven An ill informed fear of Orania can be used by anti Afrikaner political parties to perpetuate Wit gevaar to maintain the claim that the apartheid in Orania is an example of what would happen if White Afrikaners were to govern South Africa again Orania Post apartheid South Africa s Bogeyman fuses academic literature conversations with Orania residents and photographs of Orania s landscape to provide you with insight into various aspects about Orania that continue to baffle our minds Most importantly the information in this book aims to empower you to independently decide whether Orania is as scary as we are made to believe *Gandhi's African Legacy: Phoenix Settlement 1904 to 2024. **The Oxford Handbook of the Word** John R. Taylor,2015-06-25 This handbook addresses words in all their multifarious aspects and brings together scholars from every relevant discipline to do so The many subjects covered include word frequencies sounds and sound symbolism the structure of words taboo words lexical borrowing words in dictionaries and thesauri word origins and change place and personal names nicknames taxonomies word acquisition and bilingualism words in the mind word disorders and word games puns and puzzles Words are the most basic of all linguistic units the aspect of language of which everyone is likely to be most conscious A new word that makes it into the OED is prime news when baby says its first word its parents reckon it has started to speak knowing a language is often taken to mean knowing its words and languages are seen to be related by the similarities between their words Up to the twentieth century linguistic description was mainly an account of words and all the current subdivisions of linguistics have something to say about them A notable feature of human languages is the sheer vastness of their word inventories and scholars and writers have

sometimes deliberately increased the richness of their languages by coining or importing new items into their word hoards. The book presents scholarship and research in a manner that meets the interests of students and professionals and satisfies the curiosity of the educated reader. *Ecumenical Encounters with Desmond Mpilo Tutu* Sarojini Nadar, Tinyiko Maluleke, Dietrich Werner, Vicentia Kgabe, Rudolf Hinz, 2021-10-07.
