- **Piaget:** Swiss psychologist who created theory of cognitive development to explain the processes by which humans come to perceive, organize knowledge, solve problems, and understand the world. According to this theory, human cognitive development is the product of a continuous, reliable pattern or plan of interaction with the environment. Humans go through various, inherent but goal-oriented strategies that help the person achieve more advanced goals. These schemes are continuously (re)creating in infancy and early childhood, in which children and adults (schemes are generated) and cognition (based on experience and on mental images, reflecting the person's ability to develop the use of abstract reasoning and symbolism).
- **Freud:** German psychologist who worked on human psychological development theory. Created 5 stages of life.
- **Robert Rorty:** Proposed panic theory, calling it both narcissism and development in women. He said, therapy proposed that more important feelings of inferiority because they cannot give birth to children.
- **Western & Eastern:** Created another human condition, which the same as psychological conditions. Begins with non-specific teaching only, leads to partial teaching. Used to be another, pleasure without pleasure to produce and/or achieve organs.
- **John Turk and Virginia Robinson:** started functional theory. They attributed to the school of life as it is and influenced the work of Freud, Rogers & Maslow. This school was presented in contrast to the dogmatic school of thought (which was previously psychological).
- **Anna Freud:** worked on psychology
- **Willy Reich:** founder of gestalt theory
- **Malcolm:** founder of object relations theory
- **Carl Rogers:** founder of client-centered theory
- **Freud & Malinowski & Kierkegaard:** founder of systems theory
- **Adler:** "Father of family therapy." He particularly used a psychoanalytic approach, insight oriented.
- **Kate & Whitaker:** Communication in family therapy. Mainly experiential (through experiential communication and interaction, development of theory and how leading to personal accountability, and increasing patterns of interaction. They focused on communication problems, double blind, family communication is exposed to how problems, and the presence of a particular theory in the literature. Whitaker mostly operated with communication and discussed the transference phenomenon. Initially communication family therapy acknowledged that transference has been used provide a foundation for family problems, but they did not try to interpret these factors. Family therapy after founded the emphasis on communication patterning and often referred to as the "White Hat" group.
