Sociology of Crisis Myrto Tsilimpounidi, 2016-11-03 The global financial crisis has demonstrated the impact and implications of late capitalism and its bedfellow globalisation In the European context crisis is seen as a threat to the stability of the region rather than a local or national concern Post 2008

crisis is social and political rather than merely financial as Western countries witness the consequences of consumption growth and profit In this book Tsilimpounidi demonstrates how sociologists must develop new approaches to examining rapid shifts in the social landscape since crisis is not merely reflected in balance sheets but is mediated through spectacular imagery of loss deprivation and increased vectors of marginalisation Providing focused and valuable insight into the pressing problems of those living in Greece in relation to the wider spheres of the nation and at the level of the European Union Sociology of Crisis takes an approach that is firmly located within a critical sociological appeal to reflexivity A timely engagement with the problem of crisis at a macro level and in dialogue with the everyday experiences of crisis on a micro level this interdisciplinary title will appeal to both undergraduate and postgraduate students interested in sociology social policy geography urban studies and research methods social science *Research Handbook on Urban Sociology* Miguel A. Martínez, 2024-04-12 Emphasising the social critical and situated dimensions of the urban this comprehensive Research Handbook presents a unique collection of theoretical and empirical perspectives on urban sociology Bringing together expert contributors from across the world it provides a rich overview and research agenda for contemporary urban sociological scholarship **In Their Place** Stephen Crossley, 2017-08-20 This book critiques how impoverished communities are represented by politicians the media academics and policy makers and how our understanding of these neighbourhoods is often misleadingly shaped by these stories The alleged behavioural failings of poor people have attracted a great deal of academic and political scrutiny Spatial inequalities are also well documented and poor neighbourhoods have been extensively researched However other spaces have been re imagined in different ways by politicians academics journalists and social reformers These imagined geographies include exoticised slums cities being reclaimed by nature the street and domestic spaces like the kitchen or even the bedroom In Their Place highlights how these spaces are represented and how these representations are deployed manipulating political and media discourses around the individuals and communities who live there These distortions are often used to keep people in their place by making sure everyone knows where the poor belong This book will reorient those interested in human geography away from deprived neighbourhoods and back to the foundational spaces where political decisions and poverty are made in Britain today Australian Sociology David Holmes, Kate Hughes, Roberta Julian, 2014-09-01 Australian Sociology 4e provides a concise and current introduction to the field of Sociology through an analysis of Australian society In doing so it draws on a diverse range of perspectives as well as a myriad of topics that go to issues at the core of Australian social life Our ever changing society presents continuing challenges to sociological analysis This new edition of Australian Sociology sets out to document these many changes while retaining an organised analysis required of an introductory overview of Australian society *Sociologists' Tales* Katherine Twamley, Mark Doidge, Andrea Scott, 2015-04-15 Sociologists Tales brings together the thoughts and experiences of key UK sociologists from different generations of British sociology in reflecting on why they have chosen a career in sociology how

they have managed to do it and what advice they would offer the next generation *Ebook: Sociology: A Brief Introduction*
 Schaefer,2014-10-16 Ebook Sociology A Brief Introduction **Sociology in Times of Glocalization** Christian
 Karner,2022-11-08 Seminal sociological work has described the world today as a local global nexus that is defined by
 localized often conflictual responses to a series of global flows Building on this this book traces the workings and dynamics of
 today s globalization and of the different reactions it spurs across a range of social domains that is in localities affected by
 rapid infrastructural change in the economic realm and through consumerism in experiences of migration in urban settings
 in cultural practices such as street art that negotiate both global and local events and phenomena and in digital technology
 Crucially the book formulates and critically explores the methodological challenges created by such social and political
 developments Rather than treating the fundamental question as to how and why sociologists can claim to know more about
 the social world than the people living it as an abstract issue this book tackles this through a careful engagement with
 existing research on globalization glocalization and neo nationalism The result is two fold first the book demonstrates that
 sociology confronts some profound challenges today second the author argues that an increasingly inter disciplinary
 sociology is already making vital contributions to our understanding of and responses to today s multiple crises

Rethinking the Sociology of Ageing Paul Higgs,Chris Gilleard,2025-02-12 In this important book Paul Higgs and Chris
 Gilleard demonstrate how an invigorated sociology of later life is crucial for understanding the role of later life in 21st
 century societies **Bringing Back the Social into the Sociology of Religion** ,2018-06-19 The contributors to Bringing

Back the Social into the Sociology of Religion explore how bringing the social back into the sociology of religion makes
 possible a more adequate sociological understanding of such topics as power emotions the self or ethnic relations in religious
 life In particular they do so by engaging with social theories and addressing issues of epistemology and scientific reflexivity
 The chapters of this book cover a range of different religious traditions and regions of the world such as Sufism in Pakistan
 the Kabbalah Centre in Europe Brazil and Israel African Christian missions in Europe and Evangelical Christianity in France
 and Oceania They are based upon original empirical research making use of a range of methods quantitative ethnographic
 and documentary Contributors are Vronique Altglas Peter Doak Yannick Fer Gwendoline Malogne Fer Christophe Monnot
 Eric Morier Genoud Alix Philippon Matthew Wood **Doing Public Scholarship** Christopher J. Schneider,2023-12-05 A

 Media formats play a fundamental and interactive role in how people ultimately come to view and understand the social
 world having had a discernable influence on election outcomes responses to global pandemics and so on The question is not

Science and Sociology Sheldon Ekland-Olson, Jack P. Gibbs, 2017-09-01 Science and Sociology is from beginning to end an exploration of what this implies for the social sciences and sociology in particular The authors argue that over the last several decades sociology has become less a science and more a quest for isolated assessments of situations whether they come from demographic analyses survey research or ethnographic studies Above all else this book is an attempt to promote and advance scientific sociology and we write at length specifying the how and why of this objective With this objective in mind the question becomes What would a scientific sociology look like

Law, Society and Community Richard Nobles, David Schiff, 2016-04-22 This collection of socio legal studies written by leading theorists and researchers from around the world offers original perceptive and critical contributions to ideas and theories that have been expounded by Roger Cotterrell over a long and distinguished career Engaging with many classic issues and theories of the sociology of law the contributions are likely to become classics themselves as they tackle some of the most significant challenges that modern law faces They do not shy away from what one of the contributors describes as the complexity and multiplicity of our contemporary legal world The book is organized in three parts socio legal themes methodological and jurisprudential themes globalization cultural and comparative law themes Starting with a chapter that re engages with the need to interpret legal ideas sociologically and ending with one that explores the global significance of modern fascination with the idea of the rule of law this selection offers important additions to the oeuvre of Roger Cotterrell a list of whose academic writings is included in the book

restructuring of popular culture The Handbook critiques modes of sociological determinism in which cultural engagement is seen as the simple product of the educated middle classes The contributions explore the critique of Eurocentrism and the global and cosmopolitan dimensions of cultural life The book focuses particularly on bringing cutting edge relational research methodologies both qualitative and quantitative to bear on these debates This handbook not only describes the field but also proposes an agenda for its development which will command major international interest
