Software Engineering Methods Design and Application Radek Silhavy, Petr Silhavy, 2024-10-22 This book dives into contemporary research methodologies emphasising the innovative use of machine learning and statistical techniques in software engineering Exploring software engineering and its integration into system engineering is pivotal in advancing computer science research It features the carefully reviewed proceedings of the Software Engineering Research in System Science session of the 13th Computer Science Online Conference 2024 CSOC 2024 held virtually in April 2024 Software Engineering Application in Systems Design Radek Silhavy, Petr Silhavy, Zdenka Prokopova, 2023-01-01 This book presents the latest research on software engineering application in informatics The fields of software engineering informatics computer science and artificial intelligence are critical for study in the intelligent systems issue space This is the first part of the refereed proceedings of the 6th Computational Methods in Systems and Software 2022 CoMeSySo 2022 The CoMeSySo 2022 conference which is being hosted online is breaking down barriers CoMeSySo 2021 aims to provide a worldwide venue for debate of the most recent high quality research findings Zukunft durch Informationstechnik Informationstechnische Gesellschaft, 2004 **Sustainable Policy Applications for Social Ecology and Development** Carayannis, Elias G., 2012-05-31 Social ecology is a philosophy rooted in deep seated social problems particularly in hierarchical political and social systems Social ecologists throughout the world maintain a theory that present ecological problems cannot be clearly understood much less resolved without resolutely dealing with problems within society Therefore social ecology locates the roots of these ecological crises firmly in the relations of domination between people Sustainable Policy Applications for Social Ecology and Development establishes a new set of platforms for intellectual discourse and identification of critical and strategic emerging issues the formulation of cogent and useful policies and practice recommendations This publication highlights provocative but scholarly views that diverge from the current conventional wisdom taking into consideration the concepts of robust competitiveness sustainable entrepreneurship and democratic capitalism central to its philosophy and objectives The aim of this book is to highlight emerging research and practice at the dynamic intersection of these fields where individuals organizations industries regions and nations are harnessing creativity and invention to achieve and sustain growth **Intelligent Systems Applications in Software Engineering** Radek Silhavy, Petr Silhavy, Zdenka Prokopova, 2019-09-19 This book presents real world problems and exploratory research that describes novel approaches in software engineering cybernetics and algorithms in the context of intelligent systems It constitutes the refereed proceedings of the 3rd Computational Methods in Systems and Software 2019 CoMeSySo 2019 conference a groundbreaking online conference that provides an international forum for discussing the latest high quality research results Research Methods: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2015-01-31 Across a variety of disciplines data and statistics form the backbone of knowledge To ensure the reliability and validity of data

appropriate measures must be taken in conducting studies and reporting findings Research Methods Concepts Methodologies Tools and Applications compiles chapters on key considerations in the management development and distribution of data With its focus on both fundamental concepts and advanced topics this multi volume reference work will be a valuable addition to researchers scholars and students of science mathematics and engineering *Deanship in the Global South* Oliver J.J. Seale,2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats *Deanship in the Global South Bridging Troubled Waters* is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration

ICEL2013-Proceedings of the 8th International Conference on e-Learning Eunice Ivala,2013-06-27 **Corporate governance practices promoting the sustainability of small, medium and microenterprises in South Africa** Medicine Magocha,Martha Matashu,2025-02-21 Corporate governance practices promoting the sustainability of small medium and microenterprises in South Africa critically examines the intersection of corporate governance and the sustainability of small enterprises Addressing a significant gap in the literature this scholarly work explores whether and how corporate governance frameworks enhance the long term viability of small medium and microenterprises SMMEs Through rigorous analysis each chapter contributes unique insights to the ongoing discourse offering scholars a comprehensive understanding of governance mechanisms that foster resilience and growth in the SMME sector *Negotiating Quality Concerns in Higher Education amidst Disruptions* Felix Maringe,Otilia Chiramba,2025-06-02 Quality is at the heart of organisational development It is the one single reason organisations make progress or fail dismally when it is absent Disruptions can both be a catalyst for innovation and progress on one hand but when they are not well handled they can cause organisations to spiral into catastrophe and oblivion This book is about how best to safeguard quality both during and beyond disruptions Based largely on research in South Africa the collection of essays will resonate with multiple higher education contexts and audiences Collectively the essays provide compelling reading for practitioners academics researchers and policy makers in higher education The book s central message is that while disruptions can expose our organisational

weaknesses they create several opportunities to drive change and transformation The essays here capture the transition from crisis to high performance and ways in which universities can navigate such journeys Contextualised Critical Reflections on Academic Development Practices Teboho Pitso,2021-04-20

This book offers insightful reflections on academic development practices The contributors engage the reader painstakingly in the dynamics of professional learning and effective teaching This volume facilitates the examination of the need for reflection that leads to professional maturity All educational institutions seek teachers who continuously search for effective strategies in improving student success The contributors uncover a variety of approaches as they evince proven suggestions The chapters are refreshing and edifying This book is essential for all teachers lecturers and trainers who want to improve their teaching practice immensely Professor Vuyisile T Msila Researcher at the Thabo Mbeki African School of Public and International Affairs University of South Africa *TRENDS IN EBUSINESS AND EGOVERNMENT - DR. Nanostructured Metal-Oxide Electrode Materials for Water Purification Onoyivwe Monday Ama, Suprakas Sinha

Ray, 2020-04-07 This book reports on the development of nanostructured metal oxide based electrode materials for use in water purification. The removal of organic pollutants and heavy metals from wastewater is a growing environmental and societal priority. This book thus focuses primarily on new techniques to modify the nanostructural properties of various solvent electrolyte combinations to address these issues. Water treatment is becoming more and more challenging due to the ever increasing complexity of the pollutants present requiring alternative and complementary approaches toward the removal of toxic chemicals, heavy metals and micro organisms to name a few. This contributed volume cuts across the fields of electrochemistry, water science, materials science and nanotechnology while presenting up to date experimental results on the properties and synthesis of metal oxide electrode materials as well as their application to areas such as biosensing and photochemical removal of organic wastewater pollutants. Featuring an introductory chapter on electrochemical cells, this book is well positioned to acquaint interdisciplinary researchers to the field while providing topical coverage of the latest techniques and methodology. It is ideal for students and research professionals in water science, materials science and chemical and civil engineering.

Examining Information Literacy in Academic Libraries Chizwina, Sabelo, Moyo, Mathew, 2024-04-09 In the 21st century, information literacy emerges as the cornerstone of educational development. Despite its paramount significance, a stark reality persists: students often traverse the corridors of academia without acquiring essential information literacy skills. This deficiency is exacerbated by a shortage of faculty training, leaving academic libraries to shoulder the responsibility of cultivating information savvy individuals. *Examining Information Literacy in Academic Libraries* delves into the core challenges and solutions surrounding this critical educational imperative. This book illuminates the role of academic libraries as bastions of information literacy instruction. The capacity of students and information consumers to seek, evaluate and utilize information is paramount for informed decision making, ethically and legally. Regardless of whether or not students were brought up in the digital age, many lack the fundamental information literacy skills required for higher education. This deficiency manifests in academic malpractices such as plagiarism, which compromise the integrity of educational institutions. Moreover, this imperative work contends that the Fourth Industrial Revolution (4IR) is not a distant concept but a present reality. The recent global upheaval caused by the Coronavirus pandemic accelerated the adoption of new technologies, necessitating a swift reassessment of our collective ability to navigate this everchanging digital and information landscape. Focusing on media literacy, data literacy and digital literacy with information literacy as the overarching domain, this book serves as a beacon for educators, librarians and policymakers.
