### **The Increasing Risk of Floods and Tornadoes in Southern Africa** Godwell Nhamo, Lazarus Chapungu, 2021-08-03

This volume discusses the increasing occurrence of floods and tornadoes in Southern Africa over the last few years. The book discusses existing flood and tornado management protocols, indigenous approaches to mitigate disaster risk, urban and peri-urban flooding, tornado-induced flooding and windstorms, and the challenges and vulnerabilities associated with rural and transboundary floods. The book offers planning and recovery strategies to minimise impacts from these events through sustainable means. Such means include sustainable drainage systems, waste management in harbors and beaches, community engagement in flood-prone areas, and improved food security measures in urban poor households. Software Engineering

Research in System Science Radek Silhavy, Petr Silhavy, 2023-07-08. The latest advancements in software engineering are featured in this book, which contains the refereed proceedings of the part of the 12th Computer Science Online Conference 2023 CSOC 2023 held online in April 2023. The software engineering research in system science session is focusing on the importance of software engineering in the field of system science. This section provides a platform for researchers to share their insights on modern research methodologies, machine learning, and statistical learning techniques in software engineering research. The session provides a unique opportunity for researchers and industry experts to explore the latest trends in software engineering and inspire future research directions. This session brings together experts from different fields to present their research and discuss the latest challenges and opportunities. One of the key themes of this session is the application of artificial intelligence in software engineering. Researchers are exploring how techniques can be used to automate various aspects of software engineering, such as testing, debugging, and maintenance. This helps improve the quality and efficiency of software development processes. **COVID-19, Tourist Destinations and Prospects for Recovery**

Kaitano Dube, Ishmael Mensah, Lazarus Chapungu, 2023-03-16. Despite the fact that the African tourism industry is prone to disturbances such as diseases, extreme weather events, civil unrest, wars, and other shocks, nothing could have prepared this destination for the devastating effect of the COVID-19 pandemic. In the absence of government or international agency budget support, the pandemic challenged the African tourism market to its core. The focus of this book is to assess the impact of the COVID-19 pandemic on the African tourism destination market, as well as its prospects for recovery. A chapter written by the editorial team introduces the book. Following the introduction, the book offers chapters evaluating the pandemic's impact on African tourism. Chapters in the second part of the book discuss tourism recovery and how some destinations have survived the pandemic. The book concludes with a chapter providing policy recommendations and practical implementation advice. The book is part of a 3-volume series. **Computational, Education, and Materials Science Aspects** Ponnadurai Ramasami, 2022-10-03. Chapters collected from The Virtual Conference on Chemistry and its Applications VCCA 2021.

Research and Innovations in Chemical Sciences Paving the Way Forward. This conference was held in August 2021 and

organized by the Computational Chemistry Group of the University of Mauritius These peer reviewed chapters offer insights into research on fundamental and applied chemistry with interdisciplinary subject matter *Tourism and Hospitality for Sustainable Development* Emmanuel Ndhlovu, Kaitano Dube, Tawanda Makuyana, 2024-09-12 The travel and hospitality industry in the 21st century cannot be conceived planned advertised run or researched without the use of digital technology and innovation Sustainable development in this sector cannot be achieved without considering the Fourth Industrial Revolution The use of technology not only enhances the industry's profitability but also helps it to respond effectively to pressing global sustainability issues such as pandemics climate change energy crises workforce shortages and hyperinflation Furthermore technology allows the sector to fully evaluate its current and future economic social and environmental impacts addressing the needs of tourists businesses the environment and destinations However implementing technology is not a simple process and involves various opportunities costs and challenges that differ depending on the geopolitical and socio economic context With the drive towards disability inclusion digitalisation technological innovations and inventions can play a significant role in universal design and reasonable accommodation for older people and populations with disabilities in the Global North and South such forms one of the key pillars of accessible tourism and hospitality In the context of the above and in response to the thoughtful need for new and sustained study of the developments interrelationships potentialities of the topic and synergies this edited book explores the trends opportunities challenges and complexities of digitalisation and technology integration in the tourism and hospitality industry as well as strategic shifts that will contribute to emerging research streams The book comprises contributions that generate theoretical insights empirical findings and evidence based recommendations by focusing on emerging and forecasted technologies used in the tourism and hospitality industry such as blockchains robots Artificial Intelligence Virtual Reality big data and analytics The aim is to provide a better understanding of how disruptive technologies and digitalisation are currently being utilised and how they currently and potentially influence various stakeholder groups as well as their future possibilities and impossibilities The third volume in a three volume set primarily covers how these new technologies impact consumers and employees of tourism related services **Handbook on Tourism and Conservation** Joseph E. Mbaiwa, Oluwatoyin D. Kolawole, Wame L. Hambira, Emmanuel Mogende, 2023-11-03 The Handbook on Tourism and Conservation demonstrates the intrinsic nexus between tourism the environment and sustainable natural resources use It applies Ostrom's social ecological systems SESs theory as the analytical framework for reaching a consensus on divergent viewpoints within the context of global environmental change and emerging governance issues **Alkalies: Advances in Research and Application: 2011 Edition**, 2012-01-09 Alkalies Advances in Research and Application 2011 Edition is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Alkalies The editors have built Alkalies Advances in Research and Application 2011 Edition on the vast information databases of ScholarlyNews You can expect the information about Alkalies in this eBook to be deeper than what you can

Climate Change and Sustainable Development Goals Discourse in Rural and Tourism-Protected Areas Kaitano Dube,Ikechukwu O. Ezeuduj,Magdalena Petronella Swart,2025-06-30 Despite its potential to unlock socio economic benefits in rural and protected areas in a manner that addresses the Sustainable Development Goals SDG rural and protected areas tourism is yet to be thoroughly examined by academics scholars practitioners and policymakers This lack of exploration has undermined the potential benefits associated with tourism development in rural and protected areas Given the complexity of rural tourism this contributed volume explores current and future debates on the subject using cases in Southern Africa The book is useful for various audiences including tourism academics planners cultural and heritage practitioners and rural development planners The topics covered include gender transformation service delivery visitor experience wildlife tourism and host community tourism interaction

*Leadership and Governance for Sustainability* Baporikar, Neeta,2023-04-25 Although the study of governance is not new it has only been recognized in the last two decades as being a crucial factor for organizational success Successful implementation and the practice of governance in the public sector improves organizational performance through increased efficiency productivity quality and innovation to support sustainability Leadership and Governance for Sustainability provides critical research on concepts that influence sustainable development policy and examines the role of governance in current development discourse Covering topics such as governance frameworks sustainable development and collaborative government models this book is ideal for policymakers government officials academicians students researchers sustainability advocacy groups and more

*Progress and Prospects in the Management of Oxyanion Polluted Aqua Systems* Nurudeen A. Oladoja,Emmanuel I. Unuabonah,2021-07-01 This book is a compendium of research efforts and findings on the sources occurrences hydrochemistry and several operating variables that influence the presence of oxyanions in aqua system The content of this book has been designed to provide an insightful account of an array of innovative technologies for the management of the impacts of oxyanions in water the progress and drawbacks of these technologies and those that have been effectively deployed to transform oxyanions in water to beneficial species This book further x rays global laws and economic policies targeted at effectively curtailing the presence of harmful oxyanions in water challenges facing these policies and future perspectives on how best to reduce the level of these harmful oxyanions in water to safe limit The book is relevant to water professionals policy makers academics and research students

The COVID-19 - Health Systems Nexus Lazarus Chapungu,David Chikodzi,Kaitano Dube,2023-01-12 This contributed volume based on papers presented at a

conference held in Zimbabwe in mid 2021 examines the nexus between Zimbabwe's health systems and the COVID 19 pandemic. The collection of papers contained here is diverse and covers topics from how health systems handled or didn't handle surges to health communication during a global pandemic to economic and environmental impacts of the pandemic in Zimbabwe. Editors Drs Edward Kunonga, Lazarus Chapungu and David Chikodzi set the stage for these pieces with an introductory chapter that describes the health systems in Zimbabwe and offers an overview of the effects of the pandemic felt in the country. Their concluding chapter synthesizes trends and issues emerging from the chapters and recommends policy directions regarding health management systems in Zimbabwe and elsewhere in the face of this and future pandemics.

**Intelligent Algorithms in Software Engineering** Radek Silhavy, 2020-08-08. This book gathers the refereed proceedings of the Intelligent Algorithms in Software Engineering Section of the 9th Computer Science On line Conference 2020 CSOC 2020 held on line in April 2020. Software engineering research and its applications to intelligent algorithms have now assumed an essential role in computer science research. In this book, modern research methods together with applications of machine and statistical learning in software engineering research are presented. *The Green Building Evolution* Godwell Nhamo, Vuyo Mjimba, 2019-12-19. The Green Building Evolution illuminates global examples and makes use of case studies mainly from South Africa. This book is in five parts. Part I is a single introductory chapter centred on the evolution of the green building movement. Part II addresses the green building terrain. Part III presents selected case studies. Part IV focuses on chapters that address pushing the boundaries in the green building space while Part V presents emerging trends and policy perspectives. Further details are contained in the main body of the book. It is our sincere hope that readers will experience the book as an informative and ground-breaking adventure. Written by 14 authors from different academic disciplines and areas of specialisation, the book comes as the sixth in a series that addresses global and national concerns on climate change, sustainable development and the green economy transition agenda. The book series is conceptualised and coordinated by the Exxaro Chair in Business and Climate Change led by Prof Godwell Nhamo and hosted by the Institute for Corporate Citizenship ICC at the University of South Africa (UNISA). The books are published by the Human Sciences Research Council (HSRC) through the Africa Institute of South Africa.

**COVID-19 in Zimbabwe** Lazarus Chapungu, David Chikodzi, Kaitano Dube, 2023-01-01. This contributed volume based on papers presented at a conference held in Zimbabwe in mid 2021 interrogates solutions to COVID 19 related problems and issues across agricultural, environmental and water sectors in Zimbabwe and assesses their scientific, economic and practical validity. Across 19 chapters, this volume unpacks the science, economics and politics of the pandemic with a focus on understanding its secondary and tertiary impact on Zimbabwe's population. The volume is also dedicated to understanding the practical and policy-oriented approaches in tackling the pandemic and confronting the new normal of COVID 19. It brings together researchers, development practitioners and policy makers from various disciplines in an endeavour to understand COVID 19 trends and analyse the scientific options.

for mitigation containment innovation and ultimately pre-empt the possible emergence and impacts of other pandemics in the future

*Quality Management Implementation in Higher Education: Practices, Models, and Case Studies* Sony, Michael, Karingada, Kochu Therisa, Baporikar, Neeta, 2019-08-02 Although initially utilized in business and industrial environments quality management systems can be adapted into higher education to assess and improve an institution's standards. These strategies are now playing a vital role in educational areas such as teaching learning and institutional level practices. However, quality management tools and models must be adapted to fit with the culture of higher education. *Quality Management Implementation in Higher Education Practices Models and Case Studies* is a pivotal reference source that explores the challenges and solutions of designing quality management models in the current educational culture. Featuring research on topics such as Lean Six Sigma distance education and student supervision, this book is ideally designed for school board members, administrators, deans, policymakers, stakeholders, professors, graduate students, education professionals, and researchers seeking current research on the applications and success factors of quality management systems in various facets of higher education.

**Bioplastics for Sustainability** Ajay Kumar Mishra, Chaudhery Mustansar Hussain, 2024-02-02 *Bioplastics for Sustainability: Manufacture Technologies and Environment* offers an innovative approach to bioplastics, integrating state-of-the-art materials and technologies with detailed analysis of lifecycle, recycling, circularity, and environmental impact of bioplastics, and enabling circular utilization and successful scale-up of bioplastics. The book begins by introducing the fundamentals of bioplastics, including biodegradable, compostable, and oxodegradable materials, and discusses the various factors involved in encouraging commercial uptake of these materials. The second part of the book highlights cutting-edge approaches to the production of bioplastics, covering novel sources such as microalgae and organic waste, and solutions for industrial-scale manufacturing. Other sections cover the environmental impact of bioplastics and routes to environmentally friendly usage and more. This is a valuable resource for researchers and advanced students across polymer science, sustainable materials, plastics engineering, materials science, chemistry, environmental science, and engineering. In an industrial setting, this book supports engineers, scientists, and R&D professionals with an interest in sustainable manufacture and application of bioplastics across a range of products, parts, and industries. Presents the latest advances in novel materials and manufacture techniques for bioplastics. Focuses on sustainable use of bioplastics, assessing biodegradability, life cycle, recycling, waste, and environmental impact. Addresses other key considerations such as industrial scale-up, commercialization, policies, and regulation.

**Software Engineering Application in Systems Design** Radek Silhavy, Petr Silhavy, Zdenka Prokopova, 2023-01-01 This book presents the latest research on software engineering application in informatics. The fields of software engineering, informatics, computer science, and artificial intelligence are critical for study in the intelligent systems issue space. This is the first part of the refereed proceedings of the 6th Computational Methods in Systems and Software 2022 CoMeSySo 2022. The CoMeSySo 2022 conference, which is being

hosted online is breaking down barriers CoMeSySo 2021 aims to provide a worldwide venue for debate of the most recent high quality research findings

**Environmental Management of River Basin Ecosystems** Mu. Ramkumar,K Kumaraswamy,R. Mohanraj,2015-02-18 This book offers a unique collection of inter and multidisciplinary studies on river systems Rivers have been the prime source of sustenance since the advent of civilization and river systems often form the basis for agriculture transport water and land for domestic commercial and industrial activities fostering economic prosperity A river basin is a basic geographical and climatological unit within which the vagaries of natural processes act and manifest themselves at different spatio temporal scales Even if compared side by side no two river basins respond to natural processes in the same way and thus it has long been recognized that each river basin is unique Hence any developmental activity or conservation effort has to be designed and implemented to match each unique river basin With the burgeoning population and increasing dependency on natural resources understanding and maintaining river systems has become increasingly important This book provides a varied reference work on and unprecedented guidelines for conducting and implementing research on river basins and for managing their ecological development

Critical management studies in the South African context Geoff A. Goldman,C.W. Callaghan,Gregory John Lee,Nthabiseng V. Moraka,Hester Nienaber,Shaun Ruggunan,Whitey (Tjaart Nicholaas) van der Linde,2016-12-31 The purpose of this book is to establish the first formalised scholarly work on critical management studies CMS in the South African context The book is a collection of seven chapters six of which employ a conceptual methodology and one of which follows an interpretive paradigm employing qualitative methods of inquiry CMS is a relatively young school of thought arising in the early 1990s and still very much a peripheral movement within the academic discipline of management South Africa has very little scholarship on CMS as precious few scholars work in this space Furthermore publication opportunities are virtually non existent as CMS is virtually unknown in the South African community of management scholars Thus this book represents the first academic work on CMS published in South Africa written and reviewed by scholars who are familiar with the field The primary target readership would be management academics but it could also be a useful reference for postgraduate students in management

**Scaling up SDGs Implementation** Godwell Nhamo,Gbadebo O. A. Odularu,Vuyo Mjimba,2020-01-14 This volume challenges global leaders and citizenry to do more in order to resource the implementation of the 2030 Agenda for Sustainable Development AfSD and its 17 interwoven Sustainable Development Goals SDGs Starting from the concept we cannot manage what we cannot measure the book presents some cases showing how to draw national level baselines for the domestication and localisation of the SDGs seeking to provide a clear roadmap towards achieving the 2030 AfSD Scaling up SDGs Implementation is targeted at the United Nations national and state governments sub national governments the corporate sector and civil society including higher education institutes labour groups non governmental organisations and youth movements The book is cognizant of these institutions common but differentiated responsibilities and capabilities within their socio political

environmental and economic conditions The book presents case studies of how the corporate sector has been scaling up SDGs implementation from the tourism sector insurance to the aviation and agricultural sectors To make sure that no one is left behind the volume includes cases on solutions for pressing environmental and socio economic problems ranging from cooperatives in Brazil to the conservation of springs in Zimbabwe The matter of finding synergies between the climate SDG and the Paris Agreement s Nationally Determined Contributions NDCs is elaborated at length Lastly the book discusses how institutions of higher education remain critical pillars in SDGs scaling up with cases of curriculum re orientation in South Africa to the rolling out of the Women s University in Africa In this context this volume challenges every global citizen and organization to invest every effort into making the implementation of the SDGs a success as we welcome the second four to five year segment down the road to the year 2030
