The Public Sphere Worksheet:

Mediacology Antonio Lopez, 2008 Traditional media literacy models are mostly left brained inherited from the legacy of alphabetic literacy the Gutenberg press revolution and industrial mass media production New digital media radically alter the environment their nonlinear multisensory field like properties are more right brain oriented Consequently rather than focus exclusively on deconstructing the products of design objects such as an advertisement text digital learning should respond to the design of the system itself including cultural and cognitive bias Mediacology proposes a design for pattern approach called media permaculture which restructures media literacy to be in sync with new media practices connected with sustainability and the perceptual functions of the right brain hemisphere In the same way that permaculture approaches gardening by establishing the natural parameters of its ecological niche media permaculture explores the individual s mediacological niche in the context of knowledge communities By applying bioregional thinking to the symbolic order media permaculture redresses the standard one size fits all literacy model by taking into account diverse cognitive strategies and emerging convergence media practices Antonio Lopez applies a practical knowledge of alternative media cross cultural communication and ecology to build a meaningful theory of media education *The Everyday Advocate* Ross

Murray, 2023-05-09 As Christians we are called and anointed to bring good news to the poor release to the captives and freedom to the oppressed In *The Everyday Advocate* Ross Murray helps Christians explore our individual callings to justice and start taking practical steps to live that out *The Everyday Advocate* is for the layperson who feels overwhelmed by the world s troubles and helpless to address them It is for the person who goes to church hears the gospel seeks to apply it to their lives and yearns to be connected to or create a community that amplifies their voice and actions It is also for pastors and faith leaders who want to help people think through their calling to advocacy and help connect them with the communities that can use their gifts and talents Murray builds on two questions Where is God And what are we called to do Viewing every action and phenomenon as theological he stakes out values and shows readers how to work toward those values He also distinguishes between direct service and cultural change discussing the balance between them and acknowledging both are needed Drawing on his own experience and exercising his pastoral spirit Murray encourages readers to discern their own call to advocacy learn to identify injustices that still reign and respond faithfully by incorporating big and small actions into their everyday lives *Poetry & Commons* Daniel Eltringham, 2022-05-13 Winner of the ASLE UKI Book Prize 2023 The commons and enclosure are among the most vital ways of thinking about poetry today posing urgent ecological and political questions about land and resource ownership and use *Poetry Commons* is the first study to read postwar and contemporary poetry through this lens by putting it in dialogue with the Romantic experience of agrarian dispossession Employing an innovative transhistorical structure the book demonstrates how radical Anglophone poetries since 1960 have returned to the enclosure of the commons in response to political and ecological crises It identifies a

commons turn in contemporary lyric that contests the new enclosures of globalized capital and resource extraction In lucid close readings of a rich field of experimental poetries associated with the British Poetry Revival as well as from Canada and the United States it analyses a landscape poetics of enclosure in relationship with Romantic verse Canonical Romantic poetry by Wordsworth and Clare is understood through the fine grain textures of the period s vernacular and radical verse and discourse around enclosure which the book demonstrates contain the seeds of neoliberal political economy Engaging with the work of Anne Lise Fran ois and Anna Tsing Poetry Commons theorizes commoning as marking out subsistence rhythms of resource which articulate plural irregular and tentative relations between human and nonhuman lifeworlds
