The Ragged Edge Harold MacGrath, 2021-07-15 The Master is inordinately fond of young fools That is why they are permitted to rush in where angels fear to tread and survive their daring This supreme protection this unwritten warranty to disregard all laws occult or apparent divine or earthly may be attributed to the fact that none but young fools dream gloriously For such of us as pretend to be wise and we are but fools in a lesser degree we know that humanity moves onward only by the impellant of fine dreams Sometimes these dreams are simple and tender sometimes they are magnificent With what airs we human atoms invest ourselves What ridiculous fancies of our importance We believe we have destinies when we have only destinations that we are something immortal when each of us is in truth only the repository of a dream The dream flowers and is harvested and we are left by the wayside having served our singular purpose in the scheme of progress as the orange is tossed aside when sucked of its ruddy juice

Hearings United States. Congress. House,1949 Flying Safety ,1991 **The Ugly Laws** Susan M. Schweik,2009 In the culture of the modern West we see ourselves as thinking subjects defined by our conscious thought autonomous and separate from each other and the world we survey Current research in neurology and cognitive science shows that this picture is false We think with our bodies and in interaction with others and our thought is never completed The Fiction of a Thinkable World is a wide ranging exploration of the meaning of this insight for our understanding of history ethics and politics Ambitious but never overwhelming carrying its immense learning lightly The Fiction of a Thinkable World shows how the Western conception of the human subject came to be formed historically how it contrasts with that of Eastern thought and how it provides the basic justification for the institutions of liberal capitalism The fiction of a world separated from each of us as we are separated from each other from which we make our choices in solitary thought is enacted by the voter in the voting booth and the consumer at the supermarket shelf The structure of daily experience in capitalist society reinforces the fictions of the Western intellectual tradition stunt human creativity and create the illusion that the capitalist order is natural and unsurpassable Steinberg s critique of the intellectual world of Western capitalism at the same time illuminates the paths that have been closed off in that world It draws on Chinese ethics to show how our actions can be brought in accord with the world as it is in its ever changing interaction and mutual transformation and sketches a radical political perspective that sheds the illusions of the Western model Beautifully conceived and written The Fiction of a Thinkable World provides new ways of thinking and opens new horizons
