Renata Summa

The Republican Legacy In International Thought Paperback:

The Republican Legacy in International Thought Nicholas Greenwood Onuf, 1998-01-08 Republicanism has enjoyed a revival of scholarly interest in several fields In this book Nicholas Onuf provides the first major treatment of the republican way of thinking about law politics and society in the context of international thought The author tells two stories about republicanism starting with Aristotle and culminating in the eighteenth century when international thought became a distinctive enterprise These two stories surround the thought of Vattel and Kant and by telling them side by side the author identifies a substantial but little acknowledged legacy of republicanism in contemporary discussions of sovereignty intervention international society peace levels of analysis and the global economy In identifying this legacy in contemporary thought Nicholas Onuf develops his constructivist approach to international theory [Fifty Key Thinkers in International Relations](#) Martin Griffiths, Steven C. Roach, M. Scott Solomon, 2008-11-28 Now in its second edition *Fifty Key Thinkers in International Relations* has been thoroughly updated with several new entries and a new preface to reflect the latest developments There are new sections on Constructivism International Political Theory and English School as well as a range of new thinkers They include Samuel Huntington Christine Sylvester Jürgen Habermas John Rawls Barry Buzan Fully cross referenced throughout this book has everything for students of politics and international relations or indeed anyone who wants to gain an understanding of how nations can work together successfully **The State and the Global Ecological Crisis** John Barry, Robyn Eckersley, 2005 Explores the prospects for reinstating the state as the facilitator of environmental protection through analyses and case studies of the green democratic potential of the state and the state system

Pondering Postinternationalism Heidi H. Hobbs, 2000-03-09 Bringing together notable authors to explore James Rosenau's postinternational paradigm this book makes an important contribution to the study of international relations theory It includes a concluding chapter by Rosenau himself which responds individually and collectively to his critics Contributors include Eric Drew Cooper Ralph D'Amico Mary Durfee Yale H. Ferguson Heidi H. Hobbs Ole R. Holsti Margaret P. Karns Joseph Lepgold Ronnie D. Lipschutz Richard W. Mansbach Dario Moreno Nicholas Onuf V. Spike Peterson and James N. Rosenau *Justice, Order and Anarchy* Alex Prichard, 2013-05-02 This book provides a contextual account of the first anarchist theory of war and peace and sheds new light on our contemporary understandings of anarchy in International Relations Although anarchy is arguably the core concept of the discipline of international relations scholarship has largely ignored the insights of the first anarchist Pierre Joseph Proudhon Proudhon's anarchism was a critique of the projects of national unification universal dominion republican statism and the providentialism at the heart of enlightenment social theory While his break with the key tropes of modernity pushed him to the margins of political theory Prichard links Proudhon back into the republican tradition of political thought from which his ideas emerged and shows how his defence of anarchy was a critique of the totalising modernist projects of his contemporaries Given that we are today moving beyond the very statist

processes Proudhon objected to his writings present an original take on how to institutionalise justice and order in our radically pluralised anarchic international order Rethinking the concept and understanding of anarchy Justice Order and Anarchy will be of interest to students and scholars of political philosophy anarchism and international relations theory

Just and Unjust Military Intervention Stefano Recchia, Jennifer M. Welsh, 2013-09-26 Classical arguments about the legitimate use of force have profoundly shaped the norms and institutions of contemporary international society But what specific lessons can we learn from the classical European philosophers and jurists when thinking about humanitarian intervention preventive self defense or international trusteeship today The contributors to this volume take seriously the admonition of contextualist scholars not to uproot classical thinkers arguments from their social political and intellectual environment Nevertheless this collection demonstrates that contemporary students scholars and policymakers can still learn a great deal from the questions raised by classical European thinkers the problems they highlighted and even the problematic character of some of the solutions they offered The aim of this volume is to open up current assumptions about military intervention and to explore the possibility of reconceptualizing and reappraising contemporary approaches

Classics of International Relations Henrik Bliddal, Casper Sylvest, Peter Wilson, 2013-07-24 Classics of International Relations introduces contextualises and assesses 24 of the most important works on international relations of the last 100 years Providing an indispensable guide for all students of IR theory from advanced undergraduates to academic specialists it asks why are these works considered classics Is their status deserved Will it endure It takes as its starting point Norman Angell s best selling The Great Illusion 1909 and concludes with Daniel Deudney s award winning Bounding Power 2006 The volume does not ignore established classics such as Morgenthau s Politics Among Nations and Waltz s Theory of International Politics but seeks to expand the IR canon beyond its core realist and liberal texts It thus considers emerging classics such as Linklater s critical sociology of moral boundaries Men and Citizens in the Theory of International Relations and Enloe s pioneering gender analysis Bananas Beaches and Bases It also innovatively considers certain alternative format classics such as Kubrick s satire on the nuclear arms race Dr Strangelove and Errol Morris s powerful documentary on war and US foreign policy The Fog of War With an international cast of contributors many of them leading authorities on their subject Classics of International Relations will become a standard reference for all those wishing to make sense of a rapidly developing and diversifying field Classics of International Relations is designed to become a standard reference text for advanced undergraduates post graduates and lecturers in the field of IR

Transformations in Global Governance Sushil Vachani, 2006-01-01 This book brings attention to the growing complexity of managing multinational firms in light of the rise to significant power of non governmental organizations such as Amnesty International and the anti WTO coalition It also considers the renewed public doubts about MNE legitimacy as the free market model comes under greater criticism especially in emerging markets The book adds very useful value in illuminating situations in which companies are facing

increased impact of pressure groups as well as governments in their international business The menu of papers really gives the reader some food for thought and specifically for thinking about how more acceptable governance of MNEs can be pursued in the 21st century Robert Grosse The Garvin School of International Management US In recent years a number of excellent books have been published on the failure of corporate governance However nothing compares with Sushil Vachani's Transformations in Global Governance a gripping account of global corporate governance provided by recognized IB scholars Subhash C Jain University of Connecticut US An excellent book for scholars business leaders and policymakers that makes good on its title Transformations in Global Governance Sushil Vachani and the book's contributors identify how the governance structures of organizations are being transformed not just shifted or adjusted NGOs the WTO multilateral institutions multinationals host governments and many other stakeholders have new roles and rules that are redefining how one governs a successful and socially responsible global enterprise A must read for those intending to lead their organization's change efforts in our global economy Stephen A Stumpf Villanova University US and co editor of Handbook on Responsible Leadership and Governance in Global Business The world of multinational enterprises is changing dramatically Their complex and dynamic international context presents them with special challenges threatening their survival on one hand and presenting them with unprecedented opportunities on the other In this volume international experts analyze different aspects of the transformations in global governance ideological variations trade governance competition policy and the rise of civil society They discuss the implications for multinational government relations multinationals self governance relations with NGOs and issues of competitiveness The book focuses on two forces integral to the process of globalization The first is the evolution of inter governmental organizations such as the World Trade Organization and various agreements pertaining to trade environment labor competition and investment The other equally important factor is the rise of non governmental organizations NGOs which have a significant impact on the strategies of multinational enterprises governments and inter governmental organizations The contributors explore these forces in chapters detailing shifts in governance and their implications for multinationals governments and society in general This cohesive examination of an under analyzed area will appeal to students and scholars of international business and other researchers in management schools think tanks management consulting companies government agencies inter governmental organizations and NGOs

Reflexive Representations Johannes Angermüller, 2004 This volume addresses the manifold conjunctures interactions and disjunctures that occur at various levels of what has come to be rubricated under the buzzword of globalization While this term has the merit of reperiodizing our account of the capitalist dynamics it simultaneously points to a crisis of representation both in political and epistemological terms The contributions collected in this volume being reflexive representations from the social sciences and humanities assess some of the manifold aspects of this crisis

Proxy Wars Eli Berman, David A. Lake, 2019-03-15 The most common image of world politics involves states negotiating cooperating or sometimes fighting

with one another billiard balls in motion on a global pool table Yet working through local proxies or agents through what Eli Berman and David A Lake call a strategy of indirect control has always been a central tool of foreign policy Understanding how countries motivate local allies to act in sometimes costly ways and when and how that strategy succeeds is essential to effective foreign policy in today's world In this splendid collection Berman and Lake apply a variant of principal agent theory in which the alignment of interests or objectives between a powerful state and a local proxy is central Through analysis of nine detailed cases *Proxy Wars* finds that when principals use rewards and punishments tailored to the agent's domestic politics proxies typically comply with their wishes when the threat to the principal or the costs to the agent increase the principal responds with higher powered incentives and the proxy responds with greater effort if interests diverge too much the principal must either take direct action or admit that indirect control is unworkable Covering events from Denmark under the Nazis to the Korean War to contemporary Afghanistan and much in between the chapters in *Proxy Wars* engage many disciplines and will suit classes taught in political science economics international relations security studies and much more

Africa, 1998 Includes Proceedings of the Executive council and List of members also section Review of books

Nations, Markets, and War Nicholas Greenwood Onuf, Peter S. Onuf, 2006 The limits of history Liberal society Civilized nations Moral persons Nation making Adam Smith moral historian National destinies War and peace in the New World The North and the nation The South and the nation **Everyday Boundaries, Borders and Post Conflict Societies** Renata Summa, 2020-10-01 This book provides an in depth analysis of border and boundary enactments in post war and deeply divided societies By exploring everyday places in post conflict societies it critically examines official narratives of how ethno national divisions arise and are sustained It challenges traditional accounts regarding the role that international intervention has in producing and or weakening boundaries in such societies while questioning clear cut distinctions between the local and the international **Cuban American Political Culture and Civic Organizing** Robert M. Ceresa, 2017-06-21 This book studies civic organizations in Miami's Cuban community Few places in the United States have been transformed by immigration the way Miami has been transformed by Cuban exiles Cuban civic organizations help to explain why this is the case Civic organizations are the heart of the story of the social and political power and influence of Miami's Cuban community This community is home to a broad tradition of active political participation and many civic organizations The sheer number of organizations suggests they have something to do with the community's considerable vibrancy and civic capacity How do the organizations work How have they managed to be so successful over so many years What can be learned about successful civic organizing from their experience How will changing United States Cuba relations impact Cuban civic organizations and in turn broader Miami These are questions this book helps to answer International Migration Law Vincent Chetail, 2019-03-29 International Migration Law provides a detailed and comprehensive overview of the international legal framework applicable to the movement of persons across borders The role of international law in this field is complex

and often ambiguous there is no single source for the international law governing migration. The current framework is scattered throughout a wide array of rules belonging to numerous fields of international law including refugee law, human rights law, humanitarian law, labour law, trade law, maritime law, criminal law, and consular law. This textbook therefore cuts through this complexity by clearly demonstrating what the current international law is and assessing how it operates. The book offers a unique and comprehensive mapping of this growing field of international law. It brings together and critically analyses the disparate conventional, customary, and soft law on a broad variety of issues such as irregular migration, human trafficking, refugee protection, labour migration, non-discrimination, regional free movement schemes, and global migration governance. It also offers a particular focus on important groups of migrants, namely migrant workers, refugees, and smuggled migrants. It maps the current status of the law governing their movement, providing a thorough critical analysis of the various stands of international law which apply to them, suggesting how the law may continue to develop in the future. This book provides the perfect introduction to all aspects of migration and international law.

Foreign Policy in a Constructed World V. Kubáľková, 2001. This volume demonstrates the application of the constructivist approach to the analysis of foreign policy in states' actions in a world of states. Part I introduces constructivism for foreign policy studies. Part II presents five model case studies: the Cold War, Francism, the two Chinas, inter-American relations, and Islam in US foreign policy. Part III reviews their results.

The Politics of Actually Existing Unsustainability John Barry, 2012-02-23. At the level of developing a progressive and critical theoretical understanding of unsustainability, it argues for the importance of integrating vulnerability, which has been largely neglected by both mainstream western political theory and analyses of the current global ecological crisis. It suggests that valuable insights into the causes of and alternatives to unsustainability can be found in a critical embracing of human vulnerability and dependency as both constitutive and ineliminable aspects of what it means to be human. Rather than seeing invulnerability as the appropriate response, the book defends resilience and the ability to cope with rather than solve vulnerability as more productive.

American Imperatives Anders Stephanson, 2025-07-15. What was the cold war? Conventional wisdom makes it coextensive with an epoch stretching from the end of the Second World War to the collapse of the Soviet Union, a geopolitical period dominated by the confrontation between the United States and the USSR. In a fundamental challenge to prevailing orthodoxy, Anders Stephanson explodes this misconception, which has misled historians and obscured the US-centered nature of the entire process. He argues that the cold war is better understood as the frame that made the global role of the US after 1947 not only possible but imperative, and that in its classic form it ended in 1963 after the Cuban Missile Crisis. *American Imperatives* does not assume that the causes of the great superpower rivalry rest solely with the United States. But the frame was unmistakably and ineradicably American. Without it, there would not have been, properly speaking, a cold war.

International Relations in a Constructed World Vendulka Kubalkova, 2015-03-04. Explores the application of constructivist theory to international relations. The text examines the relevance of constructivism

for empirical research focusing on some of the key issues of contemporary international politics ethnic and national identity gender and political economy *Jefferson's Empire* Peter S. Onuf, 2000 Thomas Jefferson believed that the American revolution was a transformative moment in the history of political civilization He hoped that his own efforts as a founding statesman and theorist would help construct a progressive and enlightened order for the new American nation that would be a model and inspiration for the world Peter S Onuf's new book traces Jefferson's vision of the American future to its roots in his idealized notions of nationhood and empire Onuf's unsettling recognition that Jefferson's famed egalitarianism was elaborated in an imperial context yields strikingly original interpretations of our national identity and our ideas of race of westward expansion and the Civil War and of American global dominance in the twentieth century Jefferson's vision of an American empire for liberty was modeled on a British prototype But as a consensual union of self governing republics without a metropolis Jefferson's American empire would be free of exploitation by a corrupt imperial ruling class It would avoid the cycle of war and destruction that had characterized the European balance of power The Civil War cast in high relief the tragic limitations of Jefferson's political vision After the Union victory as the reconstructed nation state developed into a world power dreams of the United States as an ever expanding empire of peacefully coexisting states quickly faded from memory Yet even as the antebellum federal union disintegrated a Jeffersonian nationalism proudly conscious of America's historic revolution against imperial domination grew up in its place In Onuf's view Jefferson's quest to define a new American identity also shaped his ambivalent conceptions of slavery and Native American rights His revolutionary fervor led him to see Indians as merciless savages who ravaged the frontiers at the British king's direction but when those frontiers were pacified a more benevolent Jefferson encouraged these same Indians to embrace republican values African American slaves by contrast constituted an unassimilable captive nation unjustly wrenched from its African homeland His great panacea colonization Jefferson's ideas about race reveal the limitations of his conception of American nationhood Yet as Onuf strikingly documents Jefferson's vision of a republican empire a regime of peace prosperity and union without coercion continues to define and expand the boundaries of American national identity

The Republican Legacy In International Thought Paperback Introduction

In today's digital age, the availability of The Republican Legacy In International Thought Paperback books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of The Republican Legacy In International Thought Paperback books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of The Republican Legacy In International Thought Paperback books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing The Republican Legacy In International Thought Paperback versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, The Republican Legacy In International Thought Paperback books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing The Republican Legacy In International Thought Paperback books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for The Republican Legacy In International Thought Paperback books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the

Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, The Republican Legacy In International Thought Paperback books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of The Republican Legacy In International Thought Paperback books and manuals for download and embark on your journey of knowledge?

FAQs About The Republican Legacy In International Thought Paperback Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. The Republican Legacy In International Thought Paperback is one of the best book in our library for free trial. We provide copy of The Republican Legacy In International Thought Paperback in digital format, so the resources that you find are reliable. There are also many Ebooks of related with The Republican Legacy In International Thought Paperback. Where to download The Republican Legacy In International Thought Paperback online for free? Are you looking for The Republican Legacy In International Thought Paperback PDF? This is definitely going to save you time and cash in something you should think about.
