Case Study Research in Applied Linguistics Patricia Duff, 2018-12-07 Case studies of individual language learners are a valuable means of illustrating issues connected with learning, using and in some cases losing another language. Yet even though increasing numbers of graduate students and scholars conduct research using case studies or mix quantitative and qualitative methods, there are no dedicated applied linguistics case study texts.

Questionnaires in Second Language Research Zoltán Dörnyei, Tatsuya Taguchi, 2009-12-04 Questionnaires in Second Language Research: Construction, Administration and Processing is the first guide in the second language field devoted to the question of how to produce and use questionnaires as reliable and valid research instruments. It offers a thorough overview of the theory of questionnaire design, administration and processing, made accessible by concrete real life second language research applications. This Second Edition features a new chapter on how an actual scientific instrument was developed using the theoretical guidelines in the book and new sections on translating questionnaires and collecting survey data on the Internet. Researchers and students in second language studies, applied linguistics and TESOL programs will find this book invaluable and it can also be used as a textbook for courses in quantitative research methodology and survey research in linguistics, psychology and education departments.
