Topophilia Robert T. Tally, 2018-11-09 What is our place in the world and how do we inhabit understand and represent this place to others Topophilia gathers essays by Robert Tally that explore the relationship between space place and mapping on the one hand and literary criticism history and theory on the other The book provides an introduction to spatial literary studies exploring in detail the theory and practice of geocriticism literary cartography and the spatial humanities more generally The spatial anxiety of disorientation and the need to know one's location even if only subconsciously is a deeply felt and shared human experience Building on Yi Fu Tuan's topophilia or love of place Tally instead considers the notion of topophilia as a simultaneous sense of place consciousness coupled with a feeling of disorder anxiety and dis-ease He argues that no effective geography could be complete without also incorporating an awareness of the lonely loathsome or frightening spaces that condition our understanding of that space Tally considers the tension between the objective ordering of a space and the subjective ways in which narrative worlds are constructed Narrative maps present a way of understanding that seems realistic but is completely figurative So how can these maps be used to not only understand the real world but also to put up an alternative vision of what that world might otherwise be From Tolkien to Cervantes Borges to More Topophilia provides a clear and compelling explanation of how geocriticism the spatial humanities and literary cartography help us to narrate represent and understand our place in a constantly changing world

Nichols,2014-04-29 This book is a thorough study of all known guerrilla operations in Civil War Missouri between September 1864 and June 1865 It explores different tactics each side attempted to gain advantage over each other with regional differences as influenced by the personalities of local commanders The author utilizes both well known and obscure sources including military and government records private accounts county and other local histories period and later newspapers and secondary sources published after the war to identify which Southern partisan leaders and groups operated in which areas of Missouri and how their kinds of warfare evolved This work presents the actions of Southern guerrilla forces and Confederate behind Union lines recruiters chronologically by region so that readers may see the relationship of seemingly isolated events to other events The book also studies the counteractions of an array of different types of Union troops fighting guerrillas in Missouri to show how differences in training leadership and experience affected actions in the field **Seeking Asylum in**

Israel Gilad Ben-Nun,2016-12-18 Since 2005 approximately 70 000 asylum seeking refugees from Sudan and Eritrea have entered Israel This along with the highly publicised anti African immigrant riots in Israel in 2012 and 2014 and the current global refugee crisis has meant that the issue of African migration has become increasingly controversial Here Gilad Ben Nun looks at this phenomenon in its historical and contemporary contexts and compares it to the wider debates surrounding the Palestinian refugees in the region and the concept of their right of return He argues that this newer African migration issue has forced Israel to move from conceiving of itself as an exceptional state and now has to view itself as a more normal and universal entity Ranging as far back as Israel s important role in the the ratification drafting of the 1951 Refugee Convention and drawing on a variety of methodologies and sources Ben Nun offers a wide ranging legal social and historical examination of asylum in Israel that sheds timely light onto themes of migration and identity across the Middle East This is essential reading for legal historians and lawyers as well as scholars working on migration studies and the history and politics of the Middle East
