The Philosophy Of Existentialism:

The Philosophy of Existentialism Jean-Paul Sartre, 1965 Essays Bibliography p 423 431 *The Philosophy of Existentialism* Gabriel Marcel, 1963 **Humanistic Existentialism** Hazel Estella Barnes, 1959-01-01 Click for larger cover scan Humanistic Existentialism The Literature of Possibility Paper 1959 X 419 CIP LC 59 11732 ISBN 0 8032 5229 3 Price 29 95 University of Nebraska Press This study in humanistic existentialism is highly informative as well as entertaining It is a scholarly detailed analysis of the literary art the philosophical ideas and the psychologies of Albert Camus Jean Paul Sartre and Simone de Beauvoir It is also a competent effort to explain the positive implications for the theory of freedom and possibility which lie half buried under this literature of nothingness alienation and absurdity Miss Barnes makes thoroughly enjoyable reading of a subject matter which might have seemed forbidding Herbert W Schneider Journal of Philosophy Recommended unqualifiedly as the most thorough and reliable exposition of the works of Sartre Camus and de Beauvoir to have appeared in this country Willard Colston Chicago Sun Times Those who want a real understanding of existentialism instead of the usual superficial generalizations are certain to gain it from this book Walter Kaufmann The American Scholar The book captures much of the forlorn dark grandeur of the existentialist vision of the human condition Yale Review The philosophy of Sartre is presented accurately and with rare elegance and simplicity The section on psychoanalysis compares Sartre to Freud then to Horney and Fromm then to the phenomenologists The treatment is fair minded and careful Robert Champigny L Esprit Cateur Philosophy of Existentialism Gabriel Marcel, 1947 *Existentialist Philosophy* L. Nathan Oaklander, 1992 Introducing readers to existentialist philosophy through the writings of Kierkegaard Nietzsche De Beauvoir and others this unique anthology includes long selections from a relatively small number of existentialist thinkers exploring each philosopher s views in great detail and prefacing the essays with insightful introductions to help clarify material Offers creative explicative chapter introductions to help readers grasp material to be covered Provides in depth essays from select existentialist figures to allow a fuller view of each philosopher considered Illustrates existentialist philosophy in literature with Jean Paul Sartre s No Exit Albert Camus The Stranger and Heidegger s Being and Time Includes practical end of chapter glossaries to help readers with technical terms and unfamiliar jargon Now presents thought provoking study discussion questions as well as an updated bibliography For those interested in existentialism late 19th century thought and the philosophy of religion Existentialism: A Note on the Philosophical School Pons Malleus, 2025-06-02 Existentialism is not merely a philosophical doctrine but a living breathing confrontation with what it means to be human It is a call to face the raw realities of existence freedom responsibility anxiety alienation and ultimately death without retreating into comforting illusions This book is born out of that call to explore unpack and wrestle with the core ideas of existentialist thought not from the distance of academic abstraction but from within the very questions that define our lives The existentialist tradition is broad diverse and sometimes internally contradictory It includes thinkers as different in style and emphasis as S ren

Kierkegaard Friedrich Nietzsche Jean Paul Sartre Simone de Beauvoir Albert Camus Martin Heidegger and Maurice Merleau Ponty Some rooted their reflections in theology others were staunch atheists Some spoke of absurdity others of transcendence But what unites them is a shared concern the centrality of individual existence in an often indifferent or unknowable universe Existentialism arose in a modern world disoriented by the collapse of traditional values the disintegration of religious authority the trauma of war and the alienation of industrial society It gave voice to a generation asking not What should I believe but How should I live and Who am I when all the roles and certainties fall away These are not questions with definitive answers They are lived questions answers are provisional contingent and must be earned through experience not received by doctrine This book does not pretend to provide the final word on existentialism Instead it aims to guide readers through its major themes and figures to offer a map for navigating its often challenging terrain From Kierkegaard's leap of faith and Nietzsche's proclamation of the death of God to Sartre's radical freedom and Camus's myth of Sisyphus we will examine how existentialists have approached the problem of meaning in a world where meaning is not given Existentialism is sometimes caricatured as dark nihilistic or pessimistic Certainly it does not flinch from despair But at its heart existentialism is profoundly liberating It tells us that though we are thrown into a world not of our choosing we are not defined by our circumstances We are free and with that freedom comes the burden and the beauty of shaping a life that is authentically our own In this sense existentialism is not a philosophy of defeat but one of courage As you read you may find that existentialism doesn't offer comfort but it does offer clarity It asks you to look honestly at yourself and your condition to resist the seductions of evasion and bad faith and to take responsibility for the shape of your life That is its enduring power and its enduring challenge Whether you are encountering these ideas for the first time or returning to them with new eyes I invite you to read this book not only with the intellect but with the whole of your being Existentialism is not just something to be studied it is something to be lived *The Philosophy and Literature of Existentialism* Wesley Barnes, 1968

Existentialism Guido De Ruggiero, 2006-07 Presents a philosophical critique of the movement of Existentialism This work analyzes and comments on the works of Kierkegaard Heidegger Jaspers and Marcel among others **The Philosophy of Existentialism** Ernesto Logarta, 2009-05-26 There is no available information at this time **The Mystical Sources of Existentialist Thought** George Pattison, Kate Kirkpatrick, 2018-11-21 At the time when existentialism was a dominant intellectual and cultural force a number of commentators observed that some of the language of existential philosophy not least its interpretation of human existence in terms of nothingness evoked the language of so called mystical writers This book takes on this observation and explores the evidence for the influence of mysticism on the philosophy of existentialism It begins by delving into definitions of mysticism and existentialism and then traces the elements of mysticism present in German and French thought during the late nineteenth and early twentieth centuries The book goes on to make original contributions to the study of figures including Kierkegaard Buber Heidegger Beauvoir Sartre Marcel Camus Weil Bataille

Berdyayev and Tillich linking their existentialist philosophy back to some of the key concerns of the mystical tradition Providing a unique insight into how these two areas have overlapped and interacted this study is vital reading for any academic with an interest in twentieth century philosophy theology and religious studies Philosophy of Mind, Artificial Intelligence and Existentialism Boris Aberšek, 2025-01-15 This book presents the Sartrean thesis that existential questions cannot be definitively answered as each generation must revisit them Rooted in Renaissance humanism questions about human existence and society persist Existentialism emerged from early 20th century chaos emphasizing the relationship between being for itself and being in itself Today the clarity of this relationship is lost amid modern chaos We now inhabit two worlds the physical and cyberspace and face two entities humans and AI based artificial life forms ALF creating constant tension While 20th century existential questions remain answers have grown more complex Future discussions about humanity must consider the interplay between physical and cyber worlds and between humans and ALFs This book employs original Existentialist language to address current existential questions developing a philosophy we call Existentialism 2.0 Humanity must find its place in the future or risk losing its essence as we know it Existentialism, 1948 Existentialism and Humanism Gerald Jones, Daniel Cardinal, Jeremy Hayward, 2003 This text provides an accessible student centred guide to both the set text Existentialism and Humanism and to the broader existentialist philosophy of Jean Paul Sartre It is suitable for both A Level and HE philosophy students historical context a section by section guide to Existentialism and Humanism including key quotes tasks and activities to help you understand and evaluate Sartre's philosophy and a critical analysis of the philosophical implications of Sartre's ideas It also offers summaries of key points needed for exam questions about Sartre and existentialism plus an extensive glossary of key words and ideas focused coverage of AS and A2 Philosophy

What Is Existentialism? Vol. II Frank Scalabrino, 2021-08-14 The term existentialism was coined in the 1940s Whereas other books regarding existentialism merely repeat the platitudes that There is no such thing as existentialism or that The term existentialism has no coherent meaning this two volume set actually answers the question What is existentialism Volume I identifies the seven 7 principles of existentialism and the necessary and sufficient conditions for a philosophy to be existential and introduces readers to the depth of the problem by showing how the question What is existentialism can be answered in multiple ways all of which are provided in this two volume set Vol I then provides the archaeological answer to the question by showing the philosophical framework existentialism inherited from transcendental philosophy Vol I also provides the genealogical answer by tracing the history of the thematization of this framework through German Romanticism concluding with an illustration of how the major existential philosophers Kierkegaard Nietzsche Heidegger Sartre and Marcel expressed and developed the principles of existentialism Volume II provides a discussion of essential distinctions with which to correctly understand and formulate thoughts about existentialism for example discussions of existentialism as a kind of character ethics existentialism as a critique of Descartes philosophy the difference between existential individuality and modern subjectivity and a discussion of the moment of vision Vol II concludes then with a discussion of how existential philosophy takes being as an end in itself as its point of origin Vol II also provides a number of helpful appendices These appendices address some miscellaneous though important concerns regarding existentialism and provide charts illustrating the interrelations between the key concepts of existentialism

Existentialism and Human Emotions Jean-Paul Sartre, 2015-12 In this provocative philosophical analysis Jean Paul Sartre refutes the idea that existentialism drains meaning from human life by claiming that the philosophy instead gives man total freedom to achieve his own significance Sartre's Existentialism and Human Emotions is a stirring defense of existentialist thought which argues that existence precedes essence While attacks on existentialism claim that the philosophy leads to a kind of nihilistic gloom Sartre contends that instead existentialism is the only path toward giving man meaning Sartre ultimately argues that by the very absence of a priori meaning an individual can discover and shape his or her own significance and place in the world Sartre turns the typical nihilistic definition of existentialism on its head in this optimistic
