**Non-Western Theories of International Relations** Alexei D. Voskressenski, 2016-12-16 This book addresses the problem of World Regional Studies and its components regional complexes regional subsystems and global regions With an increasingly complex international system and the emergence of new actors it is clear that the conceptual framing within the classical disciplines of IR Political Theory International Political Economy or Comparative Politics can no longer fully explain a number of processes originating from a tighter and intricate nexus between local regional and global dimensions World Regional Studies explains the emergence of new phenomena in international relations and world politics on a regional and predominantly non Western regional level How do non Western societies react to the transformations of the global order Is a non Western democracy possible Should we discuss the possibilities for the appearance of a non Western IR theory or a new framework for analyzing de westernized global development This study based on decade long research and teaching post in World Regional Studies at MGIMO University and Russian University of Humanitarian Studies RGGU seeks to answer these questions

*Research and Writing in International Relations* Laura Roselle, Joel T. Shelton, Sharon Spray, 2025-01-22 *Research and Writing in International Relations* Fourth Edition offers the step by step guidance and the essential resources needed to compose political science papers that go beyond description and into

systematic and sophisticated inquiry This book provides concise easy to use advice to help students develop more advanced papers through step by step descriptions examples and resources for every stage of the paper writing process The book focuses on areas where students often need guidance understanding how international relations theory fits into research finding a topic developing a question reviewing the literature designing research and last writing the paper Including current and detailed coverage on how to start research in the discipline s major subfields Research and Writing in International Relations gives students a classroom tested approach that leads to better research and writing in introductory and advanced classes New to the Fourth Edition Expanded guidance on formulating and refining effective research questions Recommendations for navigating the use of information sources popular with students such as social networks podcasts and other digital media Additional focus on areas of particular challenge for students such as avoiding plagiarism Advice on how to responsibly use AI to assist in the research and writing process Revised topic chapters that include updates to the scholarly literature and data sources New resources on research topics of special interest to students including global climate change international pandemic response and democratic backsliding

**The Politics of International Economic Relations** Joan Edelman Spero,1990      *Globalisation, Multilateralism, Europe* Mario Telò,2016-04-22 This student friendly textbook offers a comprehensive introduction to globalization studies and the European Union within a multipolar world It provides its readers with critical analysis of the key concepts of multilateral global and regional governance and Europe s role in the world and this in an accessible and intelligible fashion This volume collects contributions by eminent scholars from world class universities from five different continents As such this unique exercise in transnational multi disciplinary cooperation provides extensive coverage of the main issues pertaining to multilateral cooperation notably its history troubles legitimacy challenges and efficiency questions from a variety of national perspectives The book covers the major issues confronting students of European and global studies amongst which pressing security challenges new forms of institutionalized cooperation shifting international trade flows the notion of responsibility to protect social imbalances and environmental emergencies the need for less contingent forms of legitimacy for global regulation as well as global public opinion and transnational civil society networks Each chapter includes a summary of its salient points methodological indications illuminating illustrations and a suggested list for further reading This textbook strives to help students develop a better and more secure grasp of the innovative balance between interdisciplinary openness and disciplinary rigor when engaging with global governance studies comparative regionalism normative studies international political economy or international law

*The Political Economy of Integration* Jeffrey W. Cason,2010-10-04 This book assesses South America s most ambitious attempt at economic integration Mercosur It explains the main and inherent weaknesses of the integration effort through explicit comparison with the European experience with integration Jeffrey Cason argues that the three main reasons for Mercosur s limited success are weak domestic political institutions in the member countries vulnerability in the

global political economy and a serious imbalance in the economic and political weight of the member countries In addition to providing this overarching explanation for Mercosur s limitations the book tells the story of Mercosur s genesis development and frustrations This book provides both an explanatory framework for understanding Mercosur and a story It considers how Mercosur emerged why it was greeted with great enthusiasm and huge trade growth and how it hit stumbling blocks as it sought to be more than it was capable of being The book also focuses on how and why developing countries are inherently limited in any economic integration project

*Handbook of International Human Resource Development* Thomas Garavan,Alma McCarthy,Ronan Carbery,2017-10-27 This Handbook draws on a global team of distinguished Human Resource Development and IHRD scholars to provide research and practice insights on a range of contemporary IHRD issues and challenges The Handbook reviews a number of critical contextual dimensions that shape the IHRD goals that organisations pursue impact the IHRD systems policies and practices that are implemented and influence the types of IHRD research questions that are investigated The Handbook examines the processes or actions taken by organisations to globalise IHRD practices and discusses important people development practices that come within the scope of IHRD

**Rethinking International Political Economy** Cohen, Benjamin J.,2022-02-11 In this timely book Benjamin J Cohen identifies and analyses a range of critical pathologies currently afflicting the field of international political economy IPE and offers remedies to restore the field s vitality The book addresses the purpose of IPE as a field of study highlighting the key questions posed by scholars since the modern field s inception and explores how research seeks to engage with politics in practice

**American Foreign Policy and Political Ambition** James Lee Ray,2013-08-20 In his eagerly awaited second edition of American Foreign Policy and Political Ambition James Ray revisits his deceptively simple premise that the highest priority of leaders is to stay in power Looking at how political ambition and domestic pressures impact foreign policymaking is the key to understanding how and why foreign policy decisions are made The text begins by using this analytic approach to look at the history of foreign policymaking and then examines how various parties inside and outside government influence decision making In a unique third section the book takes a regional approach not only covering trends other books tend to miss but giving students the opportunity to think comprehensively about how issues intersect around the globe from human security and democratization to globalization and pollution Guided by input from adopters and reviewers Ray has thoroughly re organized the book and streamlined some coverage to better consolidate the historical institutional regional and topical chapters and focus the thematic lens of the book Ray has also brought the book fully up to date addressing the latest events in American foreign policy including the wars in Afghanistan and Iraq the killing of Bin Laden the WikiLeaks scandal and its aftermath the impact of social media on foreign policy and world affairs nuclear proliferation developments in U S Russian relations climate change and more

**Political Economy of Development in Turkey** Emre Özçelik,Yonca Özdemir,2022-03-10 Adopting a political economy perspective this book is an original collection of research chapters that

focus on Turkey's economic development experience from the nineteenth century to the present. It provides a systematic and chronological examination of Turkey's major historical dynamics in the economic and socio-political spheres. The chapters are organized according to the consecutive phases of Turkey's political economic development. Each chapter not only reflects on the country-specific aspects of those development phases but also clarifies the dependence of domestic policy orientations on the dynamics of the world economy. As such, the book provides a historically conscious political economic account of Turkey's dependent development experience. The book serves as a quality reference on the political economy of modern Turkey, bringing together fourteen prominent experts as contributing authors who have devoted their intellectual lives to the understanding and explanation of political economic dynamics in both Turkey and the world. All contributors write on a historical period of the Turkish economy in which they are most specialized. This aspect of the book is a momentous advantage in the field of Turkey's political economy, enabling the highest degree of academic expertise to concentrate in each chapter.

**The United Nations in Global Tax Coordination** Nikki J. Teo, 2023-03-23. This book reveals the missing international tax history of how the UN was ousted from global international tax policy making by developed countries.

**Making the Unipolar Moment** Hal Brands, 2016-05-12. In the late 1970s, the United States often seemed to be a superpower in decline. Battered by crises and setbacks around the globe, its post-World War II international leadership appeared to be draining steadily away. Yet just over a decade later, by the early 1990s, America's global primacy had been reasserted in dramatic fashion. The Cold War had ended with Washington and its allies triumphant; democracy and free markets were spreading like never before. The United States was now enjoying its unipolar moment, an era in which Washington faced no near-term rivals for global power and influence and one in which the defining feature of international politics was American dominance. How did this remarkable turnaround occur, and what role did U.S. foreign policy play in causing it? In this important book, Hal Brands uses recently declassified archival materials to tell the story of American resurgence. Brands weaves together the key threads of global change and U.S. policy from the late 1970s through the early 1990s, examining the Cold War struggle with Moscow, the rise of a more integrated and globalized world economy, the rapid advance of human rights and democracy, and the emergence of new global challenges like Islamic extremism and international terrorism. Brands reveals how deep structural changes in the international system interacted with strategies pursued by Jimmy Carter, Ronald Reagan, and George H.W. Bush to usher in an era of reinvigorated and in many ways unprecedented American primacy. *Making the Unipolar Moment* provides an indispensable account of how the post-Cold War order that we still inhabit came to be.

Authority, Ascendancy, and Supremacy Gregory O. Hall, 2013-11-12. *Authority, Ascendancy, and Supremacy* examines the American-Chinese and Russian Big 3 competition for power and influence in the Post-Cold War Era. With the ascension of regional powers such as India, Iran, Brazil, and Turkey, the Big 3 dynamic is an evolving one which cannot be ignored because of its effect to not only reshape regional security but also control influence.

and power in world affairs How does one define a global or regional power in the Post Cold War Era How does the relationships among the Big 3 influence regional actors Gregory O Hall utilizes country data from primary and secondary sources to reveal that since the early 1990s competition for influence and power among the Big 3 has intensified and could result in armed confrontation among the major powers He assesses the state of affairs in each country s economic resource military social demographic and political spheres In addition events data which focuses on international interactions facilitates identifying trends in Big 3 interactions as well as their concerns and affairs with regional players Opinion data drawn from policy makers scholarly interviews and survey research data identifies foreign policy interests among the Big 3 as well non Big 3 foreign policy behaviors With its singular focus on American Chinese and Russian interactions policy interests and behaviors Authority Ascendancy and Supremacy represents a significant contribution for understanding and managing Post Cold War conflicts and promises to be an important book

**Encyclopedia of Global Change** Andrew S. Goudie, 2002 Mapping the relationship between human society and the Earth the Encyclopedia of Global Change is the first general reference guide to the impact of politics population economics and technology on the planet Containing over 300 original signed articles by distinguished scholars it is the comprehensive work for this multi discipline high profile field The Encyclopedia synthesizes current knowledge on natural and human made changes in the Earth s physical chemical and biological systems and the effects of these changes on society Areas such as altered ecosystems climate change food supply water production and consumption population and the political impact of global change are covered in detail And the clearly written articles also include responses to global modification agreements and associations institutions policies biographies and case studies Enhanced by 1 500 illustrations extensive cross references bibliographies and an index the Encyclopedia of Global Change links essential knowledge across many fields geography geology geophysics atmospheric science political science economics technology and others in a resource that is both accessible and authoritative The jargon free language makes it an excellent work for the professional scholar as well as the interested general reader

Values in Contemporary International Business François Goxe, Sophie Nivoix, Michaël Viegas-Pires, 2025-03-11 To fill the gaps in theoretical and empirical aspects of the existing international business and management literature this book addresses several major issues of values in international business in a permanently changing world The current environmental and geopolitical ever changing volatility imposes requirements for continuous revisiting and adaptation of firm international strategies and respective evolution of associated values This book analyzes these challenges in three core aspects namely value changes and developments in a crisis period emergence of new ways to value creation and value related intercultural challenges of international business in a volatile word encompassing context This book aims to provide a comprehensive analysis of the theoretical and practical aspects related to values in international business including changes in the value creation process and the adaptation and evolution of firms in an environment affected by various crises In doing so it sets the goal to assist

managers and scholars in better understanding the new challenges in various aspects of international management concerning dynamics in the understanding of values in international business To address these issues this book covers topics that have been dedicated insufficient attention in international business and management literature One-dot Theory Described, Explained, Inferred, Justified, and Applied Peter Kien-hong Yu, 2011-12-22 The ancient Chinese scholars are fond of applying the Yin and Yang diagram to correlate almost everything This book continues that tradition and uses the model to study other non dialectical theories and models The major finding qua contribution in this publication is to point out that the four diagrams are equivalent to the BaGua or BaGuaTu BG a set of eight ancient China symbolic notations gossip Another finding is that dialectical crab and frog motion remark is just the opposite of a non dialectical crab and frog motion usually deductive linear or cause and effect remark or at best they must meet half way The two major tasks of this book are to first apply the author s one dot theory which is shored up by the crab and frog motion model to convert other theories and models as well as studies and second apply his theory and model to reinvent some well known western derived theories and models and studies such as game theory The attempt is to narrow down the gap between the East and the West scholarship XueShu broadly defined making the book of interest to Eastern and Western philosophers and scholars alike **The Strategic Options of Middle Powers in the Asia-Pacific** Chien-Wen Kou, Chiung-Chiu Huang, Brian Job, 2022-06-23 This book analyses the responses of middle powers in the Asia Pacific toward the contemporary great powers rivalry of the United States and China through specific cases studies of South Korea Australia Japan India Taiwan and Vietnam Presenting local perspectives from multiple middle powers as they face the task of maintaining the international order in light of the recent competition between China and the United States it further develops theories of foreign policy analyses forming a systematic framework through initiating crucial concepts including reluctant hedging economic statecraft and strategic position taking The contributions also provide an in depth examination of the contemporary geo politics of the region including the impact of both the Trump and Biden administrations Beijing s Wolf Warrior diplomacy cross strait relations with Taiwan and the influences of Japan Vietnam Australia and South Korea revealing that regional middle powers do indeed exert influence on the direction of regional cooperation in the Asia Pacific Providing comprehensive studies of many regional powers in the Asia Pacific this will be a valuable resource for scholars and students of International Politics Asian Politics Asian Studies as well as policy makers on Asia Pacific relations *Capital Controls and International Economic Law* Bryan Mercurio, 2023-06-01 Focusing on capital controls this study provides rigorous legal analysis to establish whether the mandate of the International Monetary Fund IMF extends to the capital account that is whether the IMF has the authority to control and or regulate the use of capital controls by its member states The book then analyses whether a country s use of capital controls is consistent with the obligations and commitments undertaken in various multilateral and bilateral trade and investment agreements Finally it analyses the tension within international economic law as the IMF now encourages the use of capital controls under

certain circumstances while most trade investment agreements prohibit or limit their use Proposing a way forward to alleviate the tension and construct a more harmonious relationship between the norms and standards of finance trade and investment this study will be essential reading for policymakers

**The New Economic Diplomacy** Nicholas Bayne, Stephen Woolcock, 2016-10-04

The New Economic Diplomacy explains how states conduct their external economic relations in the 21st century how they make decisions domestically how they negotiate internationally and how these processes interact Although the previous edition published in 2011 was able to reflect the impact of the financial crisis and the immediate reaction to it a lot has happened since then and the atmosphere of economic diplomacy has darkened To capture the emergence of new trends and the intensification of old ones the salient features of this new edition are The advance of China and other emerging powers at the expense of G7 governments despite some setbacks Much greater activity in negotiating regional and plurilateral trade agreements while the multilateral system struggles The persistence of problems exposed by the financial crisis notably the long running euro zone crisis The interaction between domestic and external forces the balance has shifted towards the domestic axis with international agreement more difficult to achieve This edition goes further in comparing the practice of different players to reflect the greater diversity of economic diplomacy Based on the authors work in the field of International Political Economy it is suitable for students interested in the decision making processes in foreign economic policy including those studying international relations government politics and economics It will also appeal to politicians bureaucrats business people NGO activists journalists and the informed public
