Changing American Psychiatry Melvin Sabshin, 2009-02-20 Psychiatrists psychoanalysts other mental health workers behavioral scientists and university medical and neuroscience professionals will benefit from this articulate insider's view of post World War II psychiatry in *Changing American Psychiatry A Personal Perspective* by Melvin Sabshin M D Dr Sabshin served as Medical Director of the American Psychiatric Association APA for 23 years from 1974 to 1997 during a period of perhaps the greatest change in psychiatry since the World War II produced a dramatic modification of practice The author describes in detail two extraordinary periods of change the first stimulated by laudatory efforts to understand the high rate of psychiatric casualties among World War II veterans and to provide treatment for them Psychiatry grew quickly during the postwar years considerably influenced by the immigration of many Central European psychoanalysts Gradually however psychiatry began to weaken its ties to medicine and lost much of its public respect By the 1970s postwar optimism had been replaced by widespread concern that psychiatric practice was being dominated by unsubstantiated formulations rather than reliable evidence Psychiatry was dramatically impacted by enormous pressure for therapeutic accountability exerted by a managed care reimbursement system The profession recognized the need for a new direction and resolved to change In the foreword to the book current APA Medical Director James H Scully Jr M D notes that Dr Sabshin has woven a personal journey of the history of the intellectual conflicts and changes in the field of psychiatry in the post war era culminating in the remedicalization of psychiatry and the development of the DSM III Dr Sabshin encourages psychiatric professionals to change the field so it can employ an empirically based bio psycho social model that has the potential to revitalize the next phase of American psychiatry He details how the potential for the future of psychiatry can be enhanced by today's practicing professionals stressing the Need to incorporate the rapid developments of neuroscience into a professional practice that is increasingly integrated with empirically demonstrated psychological and social influences upon mental illness Importance on continued research that is fed back into practice and keeps the professional evidence based Need of psychoanalysis to make its beliefs explicit formulating hypotheses that can be tested scientifically in order to be employed reliably in evidence based practice This well crafted historical account describes how the profession has become a more respected and accountable part of medicine and how its scientific credentials have risen as a result Dr Sabshin concludes that the use of psychological understanding and psychotherapies must play a major role combined with psychopharmacology in the treatment of psychiatric patients

The Problem with Survey Research George Beam, 2017-09-08 The Problem with Survey Research makes a case against survey research as a primary source of reliable information George Beam argues that all survey research instruments all types of asking including polls face to face interviews and focus groups produce unreliable and potentially inaccurate results Because those who rely on survey research only see answers to questions it is impossible for them or anyone else to evaluate the results They cannot know if the answers correspond to respondents actual behaviors

objective phenomena or to their true beliefs and opinions subjective phenomena Reliable information can only be acquired by observation experimentation multiple sources of data formal model building and testing document analysis and comparison In fifteen chapters divided into six parts Ubiquity of Survey Research The Problem Asking Instruments Asking Settings Askers and Proper Methods and Research Designs The Problem with Survey Research demonstrates how asking instruments settings in which asking and answering take place and survey researchers themselves skew results and thereby make answers unreliable The last two chapters and appendices examine observation other methods of data collection and research designs that may produce accurate or correct information and shows how reliance on survey research can be overcome and must be A Postcolonial Leadership Choi Hee An,2020-01-01 In A Postcolonial Leadership Choi Hee An explores the

interwoven relationship between Asian immigrant leadership in general and Asian immigrant Christian leadership in the United States Using several current leadership theories she analyzes the current landscape of US leadership and explores how Asian immigrant leaders including Christian leaders exercise leadership and confront challenges within this context Drawing upon postcolonial theory and its analysis of power Choi examines the multilayered dynamics of the Asian immigrant community and Christian congregations in their postcolonial contexts and offers a new liberative interpretation of colonized history and culture in order to propose postcolonial leadership as a new leadership model for Asian immigrant leaders
