H. Sayce, 2019-02-18 It is through its temples and tombs that ancient Egypt is mainly known to us It is true that the warm and rainless climate of Upper Egypt has preserved many of the objects of daily life accidentally buried in the ruins of its cities and that even fragments of fragile papyrus have come from the mounds that mark the sites of its villages and towns but these do not constitute even a tithe of the monuments upon which our present knowledge of ancient Egyptian life and history has been built It is from the tombs and temples that we have learned almost all we now know about the Egypt of the past The tombs were filled with offerings to the dead and illustrations of the daily life of the living while their walls were adorned with representations of the scenes at which their possessor had been present with the history of his life or with invocations to the gods The temples were storehouses of religious lore which was sculptured or painted on their walls and ceilings In fact we owe most of our knowledge of ancient Egypt to the gods and to the dead and it is natural therefore that the larger part of it should be concerned with religion and the life to come The Religions of Ancient Egypt and Babylonia A. H. Sayce, 2015-06-12 Excerpt from The Religions of Ancient Egypt and Babylonia The Gifford Lectures on the Ancient Egyptian and Babylonian Conception of the Divine Delivered in Aberdeen The subject of the following lectures was The Conception of the Divine among the ancient Egyptians and Babylonians and in writing them I have kept this aspect of them

constantly in view The time has not yet come for a systematic history of Babylonian religion whatever may be the case as regards ancient Egypt and for reasons stated in the text we must be content with general principles and fragmentary details It is on this account that so little advance has been made in grasping the real nature and characteristics of Babylonian religion and that a sort of natural history description of it has been supposed to be all that is needed by the student of religion While reading over again my Hibbert Lectures as well as later works on the subject I have been gratified at finding how largely they have borrowed from me even though it be without acknowledgment But my Hibbert Lectures were necessarily a pioneering work and we must now attempt to build on the materials which were there brought together In the present volume therefore the materials are presupposed they will be found for the most part either in my Hibbert Lectures or in the cuneiform texts which have since been published We are better off fortunately as regards the religion of ancient Egypt About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www forgottenbooks com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve The Religions of Ancient Egypt and Babylonia Archibald Henry Sayce, 1979 the state of such historical works Religions of Ancient Egypt and Babylonia A. H. Sayce, 2020-03-16 In The Religions of Ancient Egypt and Babylonia A. H.
