rationalising in our personal lives and everything in between we are driven to defend the ideas we most want to believe and shoot down those we don't. But if we want to get things right more often we should train ourselves to think more like a scout. Unlike the soldier a scout's goal isn't to defend one side over the other. It's to go out survey the territory and come back with as accurate a map as possible. Regardless of what they hope to be the case, above all the scout wants to know what's actually true. In *The Scout Mindset*, Galef shows that what makes scouts better at getting things right isn't that they're smarter or more knowledgeable than everyone else. It's a handful of emotional skills, habits, and ways of looking at the world which anyone can learn. With fascinating examples ranging from how to survive being stranded in the middle of the ocean to how Jeff Bezos avoids overconfidence to how superforecasters outperform CIA operatives to Reddit threads and modern partisan politics, Galef explores why our brains deceive us and what we can do to change the way we think. Highly recommended. It's not easy to become more of a scout, but it's hard not to be inspired by this book. Rutger Bregman. With insights that are both sharp and actionable, *The Scout Mindset* picks up where *Predictably Irrational* left off. Reading it will teach you to think more clearly, see yourself more accurately, and be wrong a little less often. Adam Grant. *Maritime Cecil County* Christopher Knauss, 2007-07-11. Virgin forests dominated the landscape when white settlers first explored the land now known as Cecil County. The only trails within the thick vegetation were thin Native American paths known only to the native people. The best way for settlers to travel the new land was by water. Soon after the pioneers arrived, trading posts and crude lodges were built near the shore. Ferries were then constructed to transport travelers across streams, and inns and taverns were built to service the weary wayfarers. Civilization and commerce evolved at ferry and shipping centers throughout the county. Beginning with Capt. John Smith's original exploration of the Chesapeake Bay in 1608, Cecil County has developed and maintained a cultural connection with its five main rivers and a large canal. Where mills, factories, waterfowl, and fisheries once provided sustenance for the county's residents, today recreational boating, fishing, and nature tourism bring jobs and entertainment. **Patton's Tactician** Geoffrey Keyes, 2024-01-16. Nineteen months after Japanese forces attacked Pearl Harbor and forced the United States to enter World War II, boats carrying the 7th US Army landed on the shores of southern Sicily. Dubbed Operation Husky, the campaign to establish an Allied foothold in Sicily was led by two of the most noted American tacticians of the twentieth century: George S. Patton Jr. and Geoffrey Keyes. While Patton is the subject of numerous books and films, Keyes's life and achievements have gone unrecognized, but his anonymity is by no means an accurate reflection of the value of his contributions and dedicated service in World War II and the succeeding cold war. Patton's Tactician: The War Diary of Lieutenant General Geoffrey Keyes is the first transcribed edition of Keyes's personal diary to be published. Edited by James W. Holsinger Jr., the diary begins in October 1942, prior to the invasion of French Morocco, and Keyes's engagement in World War II and the Cold War. Holsinger has integrated a variety of related sources, including correspondence between Keyes, Patton, and Eisenhower. A day-to-day chronicle of Keyes's experiences in the World War II

Mediterranean Theater and the early days of the Cold War in occupied Germany and Austria Patton's Tactician is an invaluable primary source that offers readers a glimpse into the mind of one of America's most important World War II corps commanders
