What are the three reasons why baseball was excluded from the official Olympic event?

Run

Result

1. Lack of global participation and popularity: Baseball is a predominantly American sport with limited global participation and popularity. The International Olympic Committee (IOC) emphasized that Olympics should be inclusive of all nations, including those without a strong baseball culture.

2. Professional player eligibility: Another issue with baseball's inclusion in the Olympics was the eligibility of professional players, which created conflicts with the IOC's amateur athlete requirement. This issue led to conflicts between the MLB and the IOC and contributed to baseball's exclusion.

3. Scheduling conflicts: Baseball's regular-season schedule conflicted with the Olympic Games, making it difficult for professional players to participate without disrupting their teams' schedules. As a result, national teams were often comprised of amateur or minor league players, leading to a diluted level of play.
