Thirty-two Stories Edgar Allan Poe, 2000-01-01 America's most influential literary figure worldwide is familiar to most readers of short fiction through only about a dozen stories. This is because many of Poe's tales depend on knowledge a reader in 1835 or 1845 might have had that a typical reader in 2000 would not. In this extensively annotated and meticulously edited selection of Poe's short fiction Stuart Levine and Susan F. Levine connect Poe to major literary forces of his era and to the rapidly changing U.S. of the 1830s and 1840s discussing Shelley, Carlyle, Byron, Emerson, and Hawthorne as well as the railroad, photography, and the telegraph. In the process they reveal a Poe immersed in the America of his day its politics, science, technology, best-selling books, biases, arts, journalism, fads, scandals, and even sexual mores and render accessible all thirty-two stories included here. The general Introduction, the headnote to each story, and the annotations included in this volume have been extensively revised from the editors' critically acclaimed editions of the complete short fiction The Short Fiction of Edgar Allan Poe: An Annotated Edition 1976, 1990

The Pit and the Pendulum Edgar Allan Poe, 2009-06-04 This selection of Poe's critical writings, short fiction, and poetry demonstrates an intense interest in aesthetic issues and the astonishing power and imagination with which he probed the darkest corners of the human mind. The Fall of the House of Usher describes the final hours of a family tormented by tragedy and the legacy of the past. In The Tell-Tale Heart a murderer's insane delusions threaten to betray him while stories such as The Pit and the Pendulum and The Cask of Amontillado explore extreme states of decadence, fear, and hate

Parts of an Andrology Lawrence R. Schehr, 1997 The subject of this original and provocative work is the white male body, a counterpoint in gender studies to the many readings of the representation of the female body. To look at the construction of this figure, the author examines a group of discontinuous works that are representative of the discontinuity in the intermittent representation of the male body. Especially in nineteenth-century narrative where Edgar

Allan Poe and Guy de Maupassant write astutely on the subject there is never continuity in representing the male body The Pit and the Pendulum and Bel Ami are flickering episodic investigations into the male body as subject as sentient feeling as the subject of torture or of adulation Not until the twentieth century can this male subject be continuously represented Though the male body is often at center stage in works that treat it as a metonymy of its own phallic and phallocentric power this body has less often been seen relative to pleasure and pain to aesthetics to human vulnerability An introductory chapter explores a work by Alberto Moravia Io e lui as well as various manifestations of the male body s most salient part the penis in contemporary discourse and aesthetics Another chapter deals with writings about the forbidden activity of masturbation and focuses on the work of three disparate writers Paul Bonnetain Michel Tournier and Philip Roth In the final chapter the author discusses several works that focus on the representation of the male body during the gay liberation movement in France and the subsequent celebration of the male body ending with the inscription of the male body in the literature of AIDS Among the authors discussed are Guy Hocquenghem Herv Guibert and Michel Foucault

Going Home Through Seven Paths to Nowhere Katalin G. Kállay, 2003 This book is one of those rare combinations of intellectual brilliance stylistic clarity and sheer verve The book contains a series of major works of American short fiction by Edgar Allan Poe Nathaniel Hawthorne Herman Melville and Henry James as occasions for a mode of reading in which the reader's aim is to establish an intimate relationship with the special arrangement of words in a text governed by a trust in a happy coincidence of moments in which one might recognize the words relevance to one's life Dr Klay calls this a good encounter a term she adopts from the writings of philosopher Stanley Cavell In her detailed theoretical introduction Dr Klay lays bare her scholarly debt primarily to the writings of Cavell himself and to the work of literary critic Wolfgang Iser as she further develops and clarifies the idea of the good encounter Here she identifies the good encounter with a particular trope which appears within the tales themselves and which also

The Pendulum Gregory L. Baker, James A. Blackburn, 2008-11-28 The pendulum a case study in physics is a unique book in several ways Firstly it is a comprehensive quantitative study of one physical system the pendulum from the viewpoint of elementary and more advanced classical physics modern chaotic dynamics and quantum mechanics In addition coupled pendulums and pendulum analogs of superconducting devices are also discussed Secondly this book treats the physics of the pendulum within a historical and cultural context showing for example that the pendulum has been intimately connected with studies of the earth's density the

earth's motion and timekeeping While primarily a physics book the work provides significant added interest through the use of relevant cultural and historical vignettes This approach offers an alternative to the usual modern physics courses The text is amply illustrated and augmented by exercises at the end of each chapter
